INTRODUCTION

The annual Statements of Community District Needs (CD Needs Statements) and Community Board Budget Requests (Budget Requests) are Charter mandates that form an integral part of the City's budget process. Together, they are intended to support communities in their ongoing consultations with city agencies, elected officials and other key stakeholders and influence more informed decision making on a broad range of local planning and budget priorities. This report also provides a valuable public resource for neighborhood planning and research purposes, and may be used by a variety of audiences seeking information about New York City's diverse communities.

HOW TO USE THIS REPORT

This report represents the Statement of Community District Needs and Community Board Budget Requests for Fiscal Year (FY) 2022. This report contains the formatted but otherwise unedited content provided by the community board, collected through an online form available to community boards from August to November, 2020.

Community boards may provide substantive supplemental information together with their Statements and Budget Requests. This supporting material can be accessed by clicking on the links provided in the document or by copying and pasting them into a web browser, such as Chrome, Safari or Firefox.

This report is broadly structured as follows:

1. Overarching Community District Needs

Sections 1 – 4 provide an overview of the community district and the top three pressing issues affecting this district overall as identified by the community board. Any narrative provided by the board supporting their selection of their top three pressing issues is included.

2. Policy Area-Specific District Needs

Section 5 is organized by seven distinct policy areas aligned with the service and program areas of city agencies. For each policy area, community boards selected the most important issue for their districts and could provide a supporting narrative. The policy area section also includes any agency-specific needs and a list of relevant budget requests submitted by the community board. If the community board submitted additional information outside of a specific policy area, it may be found in Section 6.

3. Community Board Budget Requests

The final section includes the two types of budget requests submitted to the City for the FY22 budget cycle; one list for capital and another for expense budget requests. For each budget request, community boards were able to provide a priority number, explanation, location, and supporters. OMB remains the definitive source on budget requests submitted to city agencies.

3. OVERVIEW OF COMMUNITY DISTRICT

Manhattan Community District 12 (CD12M) encompasses the most northern parts of Manhattan, including Washington Heights and Inwood. The district, which is geographically diverse, is bounded by the Harlem River Drive on the east side and by the Hudson River on the west side; and runs from West 155th Street to West 220th Street. We are a diverse community of 219,657 residents, including a majority of residents 151,100 (68.8 percent) of Latino or of Hispanic heritage; 41,471 (18.9 percent) of White Non-Hispanic; 16,630 (7.6 percent) of Blacks/African American Non-Hispanic; 6,688 (3.0 percent) of Asian or Pacific Islander Non-Hispanic; 121 (less than 1 percent) of American Indian and Alaska Native Non-Hispanic (U.S. Census Bureau, 2014-2018 American Community Survey 5 Year Estimates - Population Division - New York City Department of City Planning). The largest group in the district is of Dominican descent. Community District 12 is also an immigrant community: the district has a foreign-born population of almost 50% (102K residents), with 55.5% residents not being a citizen yet. The median age in the district is 36, and almost a quarter (17.4%) of our population is under 20 years old and 14.1% of our residents are over the age of 65. We also have a high poverty and unemployment rate: 21.4% of our residents live on incomes below the federal poverty threshold, with 30.7% of those people being under the age of 18. Our district median household income (\$52,052) and the Manhattan median household income is (\$60,762). In addition, the American Community Survey 3-year estimates for 2010 through 2012 indicate that 10.3% of our residents ages 16 and over were unemployed and 33.6% were not in the labor force. In 2013 49.5% of our residents were one or more forms of public assistance (an increase of 1.5% vs. 2005 when last measured, according to the Dept. of NYC Planning Community District 12 portal page. Notably, 31.5% of our adults over are over the age of 25 and do not have a high school diploma. Community District 12 urgently need employment services to increase the median household income, social/human services that support our working families, vocational training schools to raise resident skill levels to obtain competitive employment, provide more services for immigrant families, and more free ELS courses for non-English speaking residents.

4. TOP THREE PRESSING ISSUES OVERALL

Manhattan Community Board 12

The three most pressing issues facing this Community Board are:

Affordable housing

Once again the number item in CB #12, M is the creation of affordable housing. CB #12, M request that the City provide funding for the construction of 100% permanent long term affordable housing units (based on the average median income throughout CD12M) to Non-Profits, Community Land Trusts, and Land Banks that are partnered with non-profit developers. We received many complaints from residents and small businesses indicating that their rents are too high and that their landlords are harassing them in multiple ways. In the last five years, the numbers of affordable housing have decreased due to many landlord's systematic harassment and refusal to renew affordable leases within the district. CB #12, M office have received a high number of complaints from seniors leaving in an affordable apartment for over 20-years indicating that their landlords refuse to make basic repairs for years making their apartments inhabitable. This systematic harassment makes tenants vulnerable and accept buyouts from "new landlords" or just move out of their apartments. For the foregoing reasons, CB #12, M recommend Increase funding for legal representation in court in all zip codes not currently covered in CD 12,M particularly zip codes in the rezoning area and increase the AMI eligibility to 300% from 200% under the Right to Counsel Program CB #12, M also request that Permanent Long Term Affordable Housing (Construction) - Build a high number of these apartments/housing units with immediate priority should be given to non-profit organizations and community land trusts that are partnered with non-profit developers. Emphasis should be given to 100% affordable housing based on the community's AMI.

Land use trends (zoning, development, neighborhood preservation, etc.)

The Inwood rezoning has been approved by the NYC Council. A legal process seeking to revert the rezoning was filed. On CB #12, M request that the Department of City Planning Assign additional planning staff to work with CB12M and local residents to update CB12M's 2007 Neighborhood Planning and Land Use Study and formulate a community-based neighborhood preservation and zoning plan for Washington Heights and Inwood, exclusive of any work undertaken in connection with EDC's Inwood Rezoning plan. The Inwood rezoning even though is not completed yet, is making developers move quickly to build more market and luxury apartments in Washington Heights and Inwood accelerating gentrification and the reduction of affordable housing. We need to increase funding for free legal representation in housing court in all zip codes not currently covered in CD12M and increase the eligibility criteria for receiving services to 300% from 200% of the Federal Poverty Level under the Right to Counsel program.

Schools

As a result of COVID-19 remote learning has been implemented and this form of learning will be with us for a while. There is a need of Internet/Wi-Fi Service in SD6 Provide funding to improve connectivity options of Internet/Wi-Fi services for students in School District 6 (SD6) to make sure that The students attending the school in CB #12, M do not have the same advantage and opportunities than other students have Citywide. CB #12, M advocate for the following implementations in our district: 1. Class Size Reduction: The City shall increase funding to reduce class size in CSD6 as soon as possible. 2. Digital Library: CB #12, M would like to request that the City provide funding to build a Science, Technology, Engineering, and Math (STEM) "Digital Library" within School District Six. 3. The students in CB #12, M do not have enough afterschool options. CB #12, M needs an Afterschool System program and we request that the City increase funding for comprehensive afterschool programs including homework assistance and tutoring through CBOs in CSD6. 4. Biotech Laboratory: CB #12, M request that the City provide funding for a biotech laboratory and research facility for all students at the George Washington Educational Campus to insure there are opportunities for readiness, mentoring and hands an immersion on a genomic (DNA) level that is linked to a variety of career path in health /medical/science and non science fields. and a Computer Lab and upgrade Science Lab: Expand Computer Lab and upgrade Science Lab at M468- HS for Health Careers & Sciences.

5. SUMMARY OF COMMUNITY DISTRICT NEEDS AND BUDGET REQUESTS

HEALTH CARE AND HUMAN SERVICES

Manhattan Community Board 12

Most Important Issue Related to Health Care and Human Services

Mental health and substance abuse treatment and prevention programs

In the Expense Budget Priorities for FY 2022 the most important issue for Health Care and Human Services is to expand mental health services in the community, including crisis intervention and acute care for persons with severe mental illness, especially for seniors, families, youth and children, whose mental health and social engagement have been adversely impacted by COVID-19 (DOHMH). It is also important for CB #12, M to increase services to prevent and treat chronic diseases, such as Alzheimer's, diabetes, cancer and heart disease. Provide funding to ensure that all local public schools have health clinics, is relevant for CB #12, M. Noise complaints have incremented considerable in our community, for this reason we request an increase staff that conduct regular noise enforcement, air quality monitoring and water quality testing in our community. The CD 12 in need to increase trash basket collection on commercial streets in District 12M, fully restoring the FY 21 budget cuts (DSNY). Finally CB #12, M requires an expedite replacement of old water mains and sewer lines in our community (DEP).

Community District Needs Related to Health Care and Human Services

Needs for Health Care and Facilities

Our residents are less likely to have regular health care providers than those in NYC overall and foreign-born adults and men are least likely to have a regular doctor. Nearly one in ten residents use the emergency room, most likely at New York-Presbyterian Hospital, when they are sick or need medical advice. One in five local adults is obese, and almost one half do not exercise. The birth rate to teenage mothers is higher in this community than in all of Manhattan and NYC overall. On the plus side, the average annual death rates in our district is reported to be lower than in Manhattan and NYC overall. We would request funds to undertake a comprehensive Needs Assessment of Community Board 12's LGBTQ community, identifying population, assets, unmet needs, strategies for assessing unmet needs, and additional collaborative and unique opportunities.

Needs for Older NYs

CB #12, M considered that the following issues are the most important for the Older New Yorker community within the district: Increase Expanded In Home Services For Elderly Persons (EISEP) funding to provide affordable home care, including sliding scale reimbursement. Increase funding for transportation for seniors by restoring prior City Council Funding and expand access to services. Increase access to appropriate, healthy food programs for seniors with medical needs. Increase funding for Naturally Occurring Retirement Communities to support currently unfunded mandate for nursing hours. Increase OTPS funding for replacement furnishings (non-capital) in senior centers as needed. System-wide upgrade of area senior centers to improve connectivity and WiFi

Needs for Homeless

We have a Homeless Shelter in our District in need of funding and more services. It is still a matter unresolved

Needs for Low Income NYs

We need the creation of a Workforce 1 in our district to provide training and help low income residents to find a good job.

YOUTH, EDUCATION AND CHILD WELFARE

Manhattan Community Board 12

Most Important Issue Related to Youth, Education and Child Welfare

School and educational facilities (Capacity)

For FY22 CB #12, is requesting, Security Cameras - P.S. 028-SD6 Provide funding to install surveillance system (security cameras) at the entry and exit of the school. Students' environments need to be protected. We request more funding to improve connectivity options of Internet/Wi-Fi services for students in School District 6 (SD6); there is a great need of Internet/Wi-Fi Service in SD6 Provide There are 32 geographic Community School Districts (CSD) in New York. Each district is in charge of their elementary and secondary public schools within their community. Of these 32 CSD, District 6 consists of the Upper West Side, Harlem and Washington Heights/Inwood communities located in the northern part of Manhattan (from West 135th to 218th Street). District 6 enrollment has approximately 25,121 students (K-12) according to district 6 data of 2015-16. There are 49 public schools in District 6, of which 31 public schools (K-8) and 8 high schools are situated within the Washington Heights and Inwood community and the remaining 10 schools are located in the Upper West Side and Harlem. There are 19 out-of-school time (OST) programs, 8 daycares and head start programs, and 3 public libraries in the community of Washington Heights. However, local concerns regarding the improvement and increase of resources in this community continue to be a challenge. Community District 12 is in urgent needs of significant after-school enrichment/extracurricular activities at local schools and parks within the district; the school day ends for most students around 2:30pm, and most families in the district find it difficult to provide adequate after-school supervision for this children – an increase of funding for after-school enrichment/extracurricular activities at local schools and parks within the district is highly desirable. Furthermore, we a Comprehensive Afterschool System program that include tutoring assistance with homework through community based organizations in school district 6. Class Size Reduction is needed in our district and we would like that City increase funding to reduce class size in CSD6. In addition CB #12, M needs biotech laboratory. We would that the City provide funding for a biotech laboratory and research facility for all students at the George Washington Educational Campus to insure there are opportunities for readiness, mentoring and hands an immersion on a genomic (DNA) level that is linked to a variety of career path in health /medical/science and non science fields.

Community District Needs Related to Youth, Education and Child Welfare

Needs for Youth Education

Physical Education (PE) serves as a keystone to reinforce student's academic achievement and prepare them to be physically and mentally active. School districts in New York City are mandated by the NYS Dept of Education to provide students with physical education and fitness paces, and to be instructed by Certified Teacher. However, evidence continues to suggest (report issued by the Comptroller Scott Stringer that the lack of physical education increases the health risk of students to become obese. Over 25 percent of students in New York City between the ages of 5 to 14 in Kindergarten through 8th grades are obese or severely obese. In several schools located in CB #12, Manhattan District including I.S 528, Bea Fuller Roger; I.S. 223, Mott Hall; and I.S 28 that serve students from PK-5th grades and 6th-8th grades do not have education fitness and /or their gymnasium. These schools have been waiting for the more than a decade to correct this problem. Therefore, it is imperative that DOE provides the capital funds for FY17 for the restoration and increase of physical education and fitness spaces needed in the aforementioned schools within CB#12 district. See <http://comptroller.nyc.gov/reports/droppingtheball> Additionally, the majority the school facilities in the CB #12, M are very old in great disrepair and in need of renovation or reconstruction. For example the swimming pool of the George Washington High School has been out of use for more than 20 years. The students in this district does not have access to a swimming pool. Swimming as sport is not being offered to the student.

Needs for Youth and Child Welfare

There is a high demand for a variety of programs in the community and among them are child care to assist working parents and after school programs, job training and skill development, college readiness programs to help students succeed in higher education, healthy eating in schools to reduce obesity, and youth anti-violence programs that promote safer communities. Expanded access to the Universal Pre-K program successfully created by Mayor De Blasio – the demand for Pre-K slots in Community District 12

has outpaced the availability – including in the zoned school districts of many community residents – the City and DOE should focus on creating more Pre-K resources in the district – our district has seen an increase of almost 2,000 children under the age of 5 from this report last year – the need for Pre-K resources is on the rise.

PUBLIC SAFETY AND EMERGENCY SERVICES

Manhattan Community Board 12

Most Important Issue Related to Public Safety and Emergency Services

Crime prevention programs

CB #12, M request for FY22 an additional upgrade of Emergency Response System (311 & 911) to record times and geolocations for better response, data, and transparency (and include Spanish language option) and the expansion of Domestic Violence and Anti-Sexual Harassment programs and improve multi-agency response. Community District 12 requires more permanent officers (police officers, supervisors, and detectives) and police services to address issues facing an increased number of residents, visitors to the almost 1,000 acres of parkland, more events in the community and the city that require staffing which drain the resources in place, increased security at different locations, and a major increase of visitors due to a proliferation of restaurants and nightlife establishments. With an expected increase in the population due to new housing, the services are even more warranted for crime prevention in order to maintain or decrease the major index crime statistics and any other violent or non-violent crimes. Our two police precincts - the 33rd and 34th precincts - cover 155th to 218th Street from river to river and this landscape includes a major hospital and its affiliates; public housing developments; several large and popular parks that encompass baseball and soccer fields, a public swimming pool, three boating docks; a homeless shelter for men; transit rail yards; a NYC Department of Sanitation depot; senior centers; a university; museums; and more than 100,000 residents with an influx of tens of thousands of tourists and visitors to the community, particularly from May through October. Both precincts lack a sufficient number of permanent officers to address crime, particularly slashing and stabbings, violence on the street, rape and sexual assault, and gang activities as well as the increased volume of quality of life issues. There has been a vast increase of quality-of-life complaints documented by 311 calls, which include noise, loud music, loitering, car break-ins and vandalism, graffiti on private and public property; large crowds in our parks; illegal Fourth of July fireworks which last for several days before and after the holiday; the increase of the homeless throughout the city and uptown, where residents have reported homeless men congregating on sidewalks and intimidating neighborhood residents both on the street and in the subways; and illegal parking.

Community District Needs Related to Public Safety and Emergency Services

Needs for Public Safety

CB #12, M requires for FY22 an additional upgrade of Emergency Response System (311 & 911) to record times and geolocations for better response, data, and transparency and that the City expand Domestic Violence and Anti-Sexual Harassment programs and improve multi-agency response.

Community District 12 requires more permanent officers and police services to address the issues facing an increased number of residents, visitors to the almost 1,000 acres of parkland, more events in the community and the city that require staffing, increased security at different locations, and a major increase of visitors due to an increase in restaurants and nightlife establishments. The two police precincts - the 33rd and 34th precincts - cover 155th to 218th Street from river to river and this landscape includes a major hospital and its affiliates; public housing developments; several large and popular parks that encompass baseball and soccer fields, a public swimming pool, three boating docks; a homeless shelter for men; transit rail yards; a NYC Department of Sanitation depot; senior centers; a university; museums; and more than 100,000 residents with an influx of tens of thousands of tourists and visitors to the community, particularly from May through October. Both precincts lack a sufficient number of permanent officers to address crime, particularly slashing and stabbings, violence on the street, rape and sexual assault, and gang activities as well as quality of life issues. There has been a vast increase of quality-of-life complaints documented by 311 calls, which include noise, loud music, loitering, car break-ins and vandalism, graffiti on private and public property; large crowds in our parks; illegal Fourth of July fireworks which last for several days before and after the holiday; groups of homeless men intimidating neighborhood residents both on the street and in the subways; and illegal parking. Community District 12 urges the City of New York to provide a an additional 30 police officers for both the 34th and 33rd Precincts as well as provide them with additional transportation equipment, including patrol cars and ATVs so that they may adequately protect and serve the community. A command post set up near the Dyckman

Street area will enable officers to respond to 911 and 311 calls at the end of the precinct in a more timely and efficient manner. In order for complete transparency, we are requesting that all uniformed patrol officers and supervisors be allocated body cams. With the increased technology, we request that Spotshotter be implemented in both precincts in order to ascertain where shots are fired, aiding the NYPD in reducing gun violence. Finally, being the geographic territory of Community Board 12 is particularly vast, we urge the City of New York to provide the 33rd and 34th Precincts with a significant closed circuit camera and lighting budget, so that they can keep track of troubled areas as well as focus on preventative issues, all while using the latest technology available, without sacrificing human resources on the ground, which could instead be used for urgent responses by law enforcement.

Needs for Emergency Services

Our local firehouses participate in many community wide events. However, more educational initiatives are requested to best education the public and provide outreach in terms of fire safety, recruiting, illegal fireworks, smoke detectors, and other issues important to the safety of residents and businesses.

Firehouses have been renovated and are in excellent shape, except for two which require the replacement of apparatus doors. A relatively new EMS base, circa 2013, has been existing in temporary modular buildings also known as trailers; a permanent building is much preferred and requested.

CORE INFRASTRUCTURE, CITY SERVICES AND RESILIENCY

Manhattan Community Board 12

Most Important Issue Related to Core Infrastructure, City Services and Resiliency

Air quality and pollution

The initial findings of the New York City Community Air Survey showed that Washington Heights is one of the most polluted areas in the City, apparently because of the huge amount of traffic coming through the community on the Trans Manhattan Expressway and the concentration of apartment buildings burning dirty fuel oil.

Needs for Water, Sewers, and Environmental Protection

The water and sewer pipes in our district are very old and are collapsing very often. This condition is shown on the increasing numbers of sink holes and cave in holes all over the district. We have reported in the past two years several dozen of sink holes and cave in on Post Ave., Cooper Street, West 181st Street among other. Our catch basins are clogged causing a lot of floods with heaving rains. There is a very bad flood location at Dyckman Street, Nagle Ave and Fort George Hill. There are also locations that do not have enough catch basin or do not have catch basin at all like the northeast corner of West 166th and Amsterdam Ave. Community Board 12 supports the following actions to improve the environment of our community: • Aggressive outreach efforts by the Bureau of Pest Control to reduce rat infestation in our community, which was cited as having the highest rate of rat infestation in Manhattan in 2011. • Restoration of funding for Manhattan's only lead-safe house, operated by the Northern Manhattan Improvement Corp. at 2183 Amsterdam Ave. This facility is a vital resource for families with lead-poisoned children whose apartments are undergoing lead abatement. • Increased funding for public education and outreach on disposal of household garbage and recyclables. • Due to Northern Manhattan becoming a destination for dining and entertainment the number of pedestrian traffic has increased dramatically we need more litter baskets on our streets to mitigate the overflow of litter baskets on our streets. • The hiring of additional Sanitation workers, including street cleaners and Sanitation police officers, for Community District 12. • The construction of a Sanitation garage for Manhattan Community District 8 so that its collection trucks will no longer make thousands of unnecessary trips through our community every year in violation of the City Charter co-terminality mandate. • The use of cleaner, less polluting fuel oil in apartment buildings, local businesses and large institutions to reduce a major source of pollution in the community. • Stronger and consistent enforcement of the Noise Control Code throughout the community, especially late at night in connection with bars and restaurants. • Comprehensive regulations and policy for the placement of cell phone towers on residential buildings that protect public health and safety and u

HOUSING, ECONOMIC DEVELOPMENT AND LAND USE

Manhattan Community Board 12

Most Important Issue Related to Housing, Economic Development and Land Use

Affordable housing preservation

Housing that is affordable to households within the income-range most representative of the community district is the most important housing issue in Washington Heights and Inwood. The availability of affordable housing and the availability of sufficient affordable housing to meet local demand constitutes the core of both the physical and the social issues. CD12's low AMI, compared to city-wide AMI, and the rising cost of living result in high rent burden and over crowding for a significant percentage of households. The existing stock of affordable housing must be kept intact and affordable to the majority of local residents in order for the community to be sustained and enjoy greater access to and benefit from the broader economic and social fabric of the city and the nation. In addition to the preservation of the existing affordable housing, we are in need of the construction of new affordable housing and the for these new housing units must be calculated based on the median household income of the residents of Community District 12-Manhattan and not based on the median household income of the residents of Manhattan or the City as a whole. Furthermore, the number one issue for the Housing & Human Services committee for the Expense Budget Ranking for Fiscal Year 2018 is to Provide sufficient funding for mandatory "right to counsel" and CBO's for HOUSING COURT and the new Office of Civil Justice to provide legal, social services and or administrative assistance, heavy attorney representation, advocacy or intervention beyond the pro bono or current non-attorney Guardian Ad Litem programs, and one stop HRA/LINC programs for all tenant litigants in CB12,M.

Community District Needs Related to Housing, Economic Development and Land Use

Needs for Land Use

We need additional planning staff to work with CB12M and local residents to formulate and implement a community-based contextual zoning plan for Washington Heights & Inwood. We need to implement a planning and development initiative for Washington Heights & Inwood whereby vacant city-owned lots and buildings are identified, packaged and released in one or more Requests for Proposals dedicated to scattered-site infill residential development that is affordable to local residents of CD12 with affordability defined by the Area Median Income (AMI) of CD12. (HPD), or purchased by the City for such development.

Needs for Housing

Community District 12 Manhattan is well known for its pre and post-world war buildings which are in need of much maintenance and repairs. Many of which are not accessible for individuals with disabilities. As well it holds the most rent regulated apartments in all of Manhattan at 56, 173 rent regulated units. Within Community District 12 Manhattan there is exist many housing issues where tenants who live in these apartments are faced with deplorable living conditions and serious housing code violations. This is such a problem that in 2010 and 2011 than The New York City Public Advocate Bill De Blasio now Mayor created the Worst Landlords Watch List, reporting s Manhattan's worst-run down buildings are mostly Harlem, Washington Heights, and Inwood. Forty five of the 56 Manhattan buildings on the list are in those areas The impact of high rent is felt nationwide, the call for affordability is imperative. A report created by Shaun Donovan / Secretary of the U.S Department of housing and Urban Development "Out of Reach 2012" defined affordability as it is consistent with the federal standard that no more than 30% of a house holds gross income should be spent on gross housing cost and households paying over 30% of their income are considered cost burdened. The former Mayor of New York Michael Bloomberg's acknowledged the need d for 165,000 more affordable housing units to be either built or preserved in New York City. However the Mayor's affordable housing distribution has been grossly uneven, as seen in statistics provided by the Department of Housing Preservation and Development regarding the borough of Manhattan. From 2004 to 2010, 36,271 affordable housing units were built or preserved in Manhattan, but more than two-thirds of this construction was concentrated in just three of Manhattan's twelve community districts. Residents in this district are faced with rising rents; overcrowding and physical conditions of existing rent-regulated housing units are often in deplorable, conditions with serious housing code violations. This clearly highlights the needs for more funding our existing housing stock in regard to preservation and new

construction of affordable housing. Another major concern for our community is the need for affordable and accessible housing, since the median house hold income of our residents is 38, 320 and 42.3% of our residents.

Needs for Economic Development

Top Priorities for Business Development/Economic Development for CB12M: 1. CB12 needs renovated libraries that can be utilized by residents throughout the district to help prepare for gainful employment, be it to utilize technology to search for jobs, as well as resume building – our libraries are a central resource for all that are being underutilized because of the outdated and run down conditions they are in. 2. Continuation of Annual CB12M Small Business Forum, so as to bring the business community, government and the residents of this district together so business owners can gain valuable information on how to thrive and expand. 3. Continuation of Annual CB12M Jobs Fair, and perhaps as a bi-annual event, so as bring job seekers and employers together and help reduce the systemically high unemployment of CB12M. 4. Establish the committee as a main resource to all current and new local businesses, in an effort to engage in a public/private sector dialogue that helps CB12M residents, business and institutions thrive and expand, as well as providing information to local business as it relates to city, state and federal business oriented initiatives. 5. Incorporating business and the local arts community – with a high storefront vacancy, the committee aims to reduce the blight of vacant store fronts by creating a partnership among landlords and the CB12M arts community, so as to provide expanded arts space while increasing the appeal of venues that may be vacant at the time. 6. Play a critical role with the NYC Economic Development Corporation in the current rezoning efforts within CB12M 7. Strengthening relations with government agencies that assist with small business such as DCA, DEP, and SBS. 8. Partner with restaurants and bars in an effort to ensure friendly balance between nightlife activity and the residential community 9. Host an event for local business and residents that provides commercial real estate and legal training as it relates to commercial leases and rights for all those involved in a commercial lease 10. Creating increased tourism and consumer demand for CB12M business and organizations, through expanded transportation options, including water taxi service to Northern Manhattan. With an aging mass transit system, it is cr

TRANSPORTATION

Manhattan Community Board 12

Most Important Issue Related to Transportation and Mobility

Accessibility (ADA related compliance and infrastructure enhancements)

The most pressing issue in for traffic and transportation in CB 312, M for FY 22, is the upgrade to ASA compliance of subway certain subway stations. Please Make the following subway stations fully ADA compliant: IRT stops at 157, 168, 181, 191, Dyckman, 207 uptown and 215; and IND stops at 155, 163, 168, 181, 191, Dyckman and 207. The safety, cleanness and maintenance of subway station is a pressing issue in CB #12, M. We propose modify / increase funding for subway stations as it relates to maintenance, repairs, cleaning, and security.

Community District Needs Related to Transportation and Mobility

Needs for Traffic and Transportation Infrastructure

We have the following bridges in our district: 1. The Macombs Dam Bridge spans the Harlem River in New York City, connecting the boroughs of Manhattan and the Bronx near Yankee Stadium on West 155th Street. 2. The High Bridge is the oldest bridge in New York City, having originally opened as an aqueduct in 1848 and reopened as a pedestrian walkway in 2015 is connecting Manhattan and the Bronx over the Harlem River on West 173rd Street through the Highbridge Park. It is expected that bicycle traffic increase on Amsterdam Ave in the near future. 3. The Alexander Hamilton Bridge connecting the Trans-Manhattan Expressway in the Washington Heights section of Manhattan and the Cross-Bronx Expressway over the Harlem River. This bridge brings traffic to the Washington Bridge and the West 181st Street and connects to the Henry Hudson Parkway. 4. The Washington Bridge crosses the Harlem River connecting 181st Street and Amsterdam Avenue in the Washington Heights neighborhood of Manhattan to University Avenue in the Morris Heights neighborhood of the Bronx. 5. The University Heights Bridge crosses the Harlem River, connecting West 207th Street in the Inwood neighborhood of Manhattan to West Fordham Road in the University Heights section of the Bronx. 6. The Broadway Bridge crosses the Harlem River Ship Canal between Inwood on Manhattan Island and Marble Hill in the Bronx. 7. The Henry Hudson Bridge crosses the Spuyten Duyvil Creek. It connects Spuyten Duyvil in the Bronx with Inwood in Manhattan. 8. George Washington Bridge crosses the Hudson River, connecting the Washington Heights neighborhood in the borough of Manhattan in New York City to Fort Lee, in New Jersey. The George Washington Bridge carries over 106 million vehicles per year, making it the world's busiest motor vehicle bridge according to the Port Authority of New York and New Jersey. The approaches to and from the George Washington Bridge in Washington Heights are very congested at all time of the day getting worse during the pick hours. 9. Amsterdam Ave., Audubon Ave., Wadsworth Ave., St. Nicholas Ave., Broadway and Ft. Washington Ave. between West 178th and West 179th Street are overpasses over the Trans Manhattan Expressway. These overpasses are in disrepair because in order for NYC DOT to pave them with their actual equipment they will be required to shut down completely the Trans Manhattan Express way. For these reasons our Traffic & Transportation Committee added a new request for Expense 2018 Fiscal Year Budget to Allocate funds to purchase light paving equipment (rollers 4-6 foot, milling machines, APM Paver Machines) suitable to be used on bridges and overpasses.

PARKS, CULTURAL AND OTHER COMMUNITY FACILITIES

Manhattan Community Board 12

Most Important Issue Related to Parks, Cultural and Other Community Facilities

Park access and park facility access

CB #12, M would like to request in FY22 an increase of funding by at least \$500k for various programming throughout CD12 parks, playgrounds, courts, & historic houses: fund additional Playground Associates and Parks & Urban Park Ranger staff as well as contracted specialists for afterschool, recreational, waterfront, and cultural programming for kids, teens, adults, seniors, and the formerly incarcerated or institutionalized. (DPR).

Community District Needs Related to Parks, Cultural and Other Community Facilities

Needs for Parks

With well over 600 acres of park land it is no surprise that fully 15 of CB12M's capital budget priorities (plus 5 continuing support items) are for projects in and around our parks. Many of the projects are for ADA retrofitting, or for repairs to update aging infrastructure. There are additional capital and expense needs relating to youth programming in parks, waterfront recreation development and other items which, while important, were beyond the OMB-imposed limit of 40 capital project and 25 expense programs. The Audubon Playground is in a section of CD12M with relatively few parks/playgrounds, yet there is a school serving citywide DoE needs situated in the playground. We would like that "temporary" structure (built decades ago) removed and the area returned to community use as a recreational facility. Ongoing maintenance of parks pathways, particularly in our largest parks -- Fort Tryon, Highbridge, and Inwood Hill -- is the single most important way to ensure safe access to all parts of our parks, both for recreation as well as for maintenance, safety, and access. The Msgr. Kett playground is in a part of Inwood not otherwise served by playgrounds nearby, despite being close to a public housing project. It hasn't been renovated since the '90's and is long overdue. Additionally, the basketball courts are heavily used by the community, and are in need of repair. Many areas within our parks, playgrounds and dog runs need plumbing and/or lighting, for the benefit of parks users, as well as for use by landscaping staff. Areas in need include Ft. Tryon Park's Alpine Garden along the eastern/Broadway slope, and the dog run; the Riverside Park dog run at W. 165th Street, the "Sunken" Playground in Highbridge Park in lower the 160s, and the basketball/tennis courts in Inwood Hill Park. ADA compliance and retrofit projects include: the historic Morris-Jumel Mansion, the Dyckman Farmhouse, the High Bridge Water Tower, Highbridge Park's New Adventure Playground (W. 165th & Edgecombe), restrooms throughout the District's Parks, and the Hispanic Society of America. Additional ongoing/recurring requests include the Phase II restoration of the High Bridge water tower (e.g., stairs, pointing, windows and carillon); expansion of free public WiFi in our parks; and funding of Phase II of the New York Restoration Project's clean-up and waterfront access at Sherman Creek. As a new request we would like to see the addition of a science barge to meet the educational needs of CD12M's youth and adults alike, in a creative way that also utilizes our vast waterfront. On the expense side, CD12M parks are in desperate need of more maintenance and enforcement personnel. While there is much excellent programming of all kinds, our wealth of facilities could be leveraged to greater use with additional programming targeted to youth, seniors, teens. Given our income thresholds and levels of poverty, which are well below borough averages, CD12M is particularly in need of free or low-cost recreation and educational offerings.

Needs for Cultural Services

CB12M has a wealth of cultural facilities and programs, but many are in need of accessibility improvements, major capital repairs, and additional program offerings for our community. In particular, afterschool programming and educational/cultural programming at museums & historic houses (e.g. Hispanic Society, Morris- Jumel Mansion, Dyckman Farmhouse, etc.) Northern Manhattan also is in desperate need of accessible performance and gallery space, rehearsal space, and infrastructure to support a growing arts community and audience for performance and displayed art. There is no prioritized capital item for this as there is no identified lead agency or specific funding project, but the absence of this resource is a recurring trope at community meetings and events; as such, it is appropriate to note it in our Statement of District Needs.

Needs for Library Services

The existing library facilities are in disrepair and need to be renovated and make it accessible in some cases. CB #12, M need more libraries; therefore, the construction of more libraries facilities are required. The budget for the libraries were increased recently. We request that this increase is maintained and expanded.

Needs for Community Boards

Under the NYC Charter, Community Boards have a great deal of responsibilities. Community Board have a limited budget resulting in limited staff. CB #12, M has only three staff members including the District Manager. With three staff members CB #12, covers the office operation, all the community needs, Board members demands and night meeting coverage, processing of vendor's payments and the Comptroller's audits. With the sophistication of technology there are new demand that sometime is not possible to accomplish because of the lack of training on the staff or the lack of personnel to perform it. The members of Community Board #12, M demand the presence of a staff for the night's meetings. We have at least ten night meetings per month. The night meetings start at 7 pm and finish around 10 pm. Some meetings, like the Licensing Committee finish close to night. The Licensing Committee meeting in the month of June went up to the next day, the meeting was adjourned at 1:30 am but the agenda was not completed. A Second meeting was re-convened the following week. CB #12, M needs an additional staff member to help with to keep up with the operation and the covering of the nights meeting.
