7:21pm **Special presentation by Cheryl Pahaham of NYS Comptroller's office,** Director of Planning / Division of Audits of NYC/NYS entities. Doing a survey of noise; gave links to survey in multiple languages. Asking all to take the survey. Q: Why would state comptroller do a survey on noise? A: We'd like to try our hand at participatory auditing, find a way to engage community in audit work in a way that doesn't violate audit standards. Survey is basically a risk assessment, a way of getting information from communities where noise is happening, and assessing the extent to which noise issues are being handled appropriately. The survey is available in English, Spanish, Chinese and Russian. For more information, email [sgappdu@osc.state.ny.us](mailto:sgappdu@osc.state.ny.us) Q: (W. Benjamin): is this being done just citywide, or all around state? Why only in NYC? A: The Comptroller has purview all over the state; it's a bigger problem here, and there's also a lot of data already through 311 for comparative purposes. Q: (Richard Lewis) does it take frequency/duration into account? A: Yes, there are free-form and multiple choice options in the survey tool.

**Ramon Caba, Operation Program:** services for formerly incarcerated individuals; helps with reintegration and reduces recidivism. Work out of East Harlem. Looking to launch a program in WH as there is high need.

**Ms. Viera Solano, NYC Department of Health:** DoH is charged with informing all Community Boards about the Zika virus. If you don’t need to travel south of the US to the Caribbean/South America, don’t go. If you must go, use insect repellent, long-sleeved shirts, long pants; spray clothes. 8:28pm **5-minute recess for networking, personal needs**

~~~~~  
8:37+pm **Roll call for quorum and attendance:** those not present will not be considered present for the meeting. Quorum still present, albeit of different composition, more members having arrived, and two having left.

8:42pm Senator Adriano Espaillat: re liquor license (OPL) application for an establishment within the area covered by the proposed moratorium. Asked that we reject in the spirit of that moratorium even though it hasn’t gone into effect yet. This has already caught the attention of the SLA Chair: in a proceeding on another matter, he mentioned that the community has come together with the elected officials; since the SLA is listening, we must speak with a consistent voice. We have to stand for something as a community. There are other establishments

that have applied for OPLs elsewhere where there is not so much of a proliferation; we are not talking about restaurant/wine, or renewals, or transfers, just new licenses. Q (W. Benjamin): which item? A: Cinco, item #11. Q (Ariel Ferreira): it's a transfer, not a new license, based on a bill of sale.

8:46:pm **Committee Reports**

8:46pm **Richard Allman, Chair, By-Laws Task Force:** Section 10.04 is very specific and requires an exact sequence; suggest that the items be more general and that the Executive Committee set the agenda. This is for flexibility and to make the agenda responsive to the needs of the body. It is very unusual for the exact order of the meeting to be determined by the bylaws. These proposals seek that flexibility. This is presented now, but will not be voted on until next month. Q (Pamela Palanque North): shouldn't "two days" read "two business days"? PPN 2 days? A: we will make that correction. Q (Steve Simon): Agenda should be forwarded by email or sent by regular mail rather than "forwarded" so that people who don't have email still have a mechanism to receive such mail. A: that's the intent; "forwarded" should cover it. There was a fair amount of discussion on this point, and the exact wording to ensure that everyone gets the proper notification. Q (Anita Barberis): Electeds and representatives should speak at end so that they stay for the whole meeting. A: we would like to keep flexibility on this issue and have it be procedural, not in the bylaws. There was significant discussion on this point, but no resolution as the by-laws require that the vote be taken at a subsequent meeting.

9:05pm **Aldemar Diaz, Chair, Licensing:** There are 14 applications, of which the Committee recommended support for nine, and opposition of five. This high number was due to several no-shows. One business (a representative of which spoke earlier in the Public Session) didn't receive the meeting notice because they are not set up yet to receive mail at the place of proposed biz because it's new. We will now be soliciting the email addresses so that we can ensure businesses receive notification. #3, Majas Tapas, the Committee recommends opposing the application renewal due to noise complaints. They didn't appear before committee which we don't require, but 34<sup>th</sup> Precinct and the community had many noise issues.

There was a long discussion regarding the relative merits and/or detriments of selling alcohol on Sunday mornings (i.e., before noon), somewhat confused by a discrepancy in the numbering in the minutes and on the agenda of this and another procedural resolution which addressed an SLA matter regarding entrances. In particular it was noted that the prohibition of sales on Sunday mornings is rooted in antiquated "Blue Laws" which codify Sunday as a Day of Rest, and this is discriminatory against those who observe some other day as a Day of Rest, or who do not observe a Day of Rest at all. Several people questioned why the State should prohibit the sale of alcohol at Sunday brunch when it is permitted at Saturday brunch. The Chair also noted that some sports bars air events live from other time zones, so people watching them might want to drink while watching a game. With regard to Sunday morning sales, the SLA is offering two possible licenses, either a one-time Sunday permit, or an annual Sunday morning permit. Richard Allman moved to table; there was a second. In the ensuing discussion, several people noted that since it is time sensitive and the SLA requested our input for their meeting which will occur before our next meeting. The motion to table was defeated, 5-28-0-0, and discussion on the main motion continued.

S. Simon recommended to strike the clause in #16 (Sunday morning sales) about it being too much work for Precincts; sounds petty. Also the last whereas in #15 (entrances) doesn't make any sense about why people wouldn't support the bill. Why penalize people who sell liquor for off-premises consumption. Chair accepted this amendment as "friendly", as well as minor wording changes on #15 (separate ground floor entrance requirement). S. Simon moved and B. Lehmann seconded that #16 be a positive resolution (i.e., in favor, rather than opposing.) R. Lewis disagrees, stating that this is a dangerous precedent. Arlene Schulman wanted to add back in the language that was removed by the amendment that was accepted as friendly. As this motion was not accepted by the Chair as a "friendly" amendment and received no second, it was not considered by the body.

9:51pm **Report from Councilmember Ydanis Rodriguez, 10<sup>th</sup> CD**

- March 24<sup>th</sup> deadline approaching on funding requests, CB12 can also apply for funding for projects that we may be doing for programs. Also non-profits and schools can apply for capital funds.
- On March 12<sup>th</sup> there will be a meeting (venue TBD) on the summary findings of InwoodNYC. I support housing projects if there is a high percentage of affordable housing, using the CB12 (not Boro) median income of \$37.5k, I will only support it if there is 50% affordable housing. And we also must talk about the height. Also a percentage of the commercial space must be affordable to support local small businesses.
- The City Council's Health Committee will be meeting on Thursday to consider five bills relating to hookah, four proposed by me, including provisions requiring that you must be 21 to by hookah, and that if and establishment makes less than 50% revenue on hookah, they can't sell hookah at all, i.e., that it's only used/sold in hookah bars, not casual hookah sales.
- I also introduced a bill requiring that city agencies provide simultaneous translation.
- Car free day: first US city, following Bogota and France to have car-free days. Looking to close some blocks in this community for Earth Day, and also have there be a car-free day on Earth Day.
- Associated Supermarket update: conversation continuing in a good direction. The Associated and the Walgreens are in negotiations. Q (S. Simon): is there an opportunity for CB to co-sponsor earth day activities? A: there's a planning meeting at NYU on March 17<sup>th</sup>; will send details.
- Announced a free concert this Thursday at Aaron Davis Hall, 7pm. It will be a terrific event, with bachata, merengue, and other popular/folk music, played on classical instruments.

10:04pm **Licensing <continued>**: Q (E. Lorris Ritter): since a representative from the establishment under consideration in item 12 is on the agenda for March, what is effect of passing negative reso, and why not make it a neutral resolution? A: We can pass another resolution after the business presents in March which would supersede this resolution, but a negative resolution lets the SLA know that we do not support it in case they make a decision before our next meeting. E. Lorris Ritter moved that resolutions 8, 12 & 13 be amended to include an additional Whereas: "Whereas this item is scheduled for consideration at the March Licensing Committee meeting; and" and amend the Be It Resolved to read as follows: "...recommends that the State Liquor Authority take no action on this application until after March 23, 2016." The motion was seconded, and passed 26-1-2-0.

10:15pm **Wanda Garcia, Assistant Chair, Traffic & Transportation**: refer to minutes.

10:15pm **Wayne Benjamin, Chair, Land Use**: please come to public hearing on 3/2 on a zoning matter related to the proposed development at Sherman & Broadway. Also: today the Landmark Preservation Commission voted to keep the United Palace Theatre on the docket for consideration to landmark, per CB12 & MBPO support.

10:17pm **Steve Simon, Chair, Health & Environment**: highest street cleaning ratings. 2 of 4 sectors were at 100%. So we'll keep reduction in ASP. EMS response times continue to be among best in city, better than most of the rest of Manhattan and the rest of the city, 5.1minutes. we're also #1 in noise complaints. 4

10:20pm **Youth & Education**: Refer to minutes. (Chair out sick.)

10:23pm **Ayisha Ogilvie, Chair, Housing & Human Services**: refer to minutes.

10:24pm **Liliana Saneaux, Chair, Concerns of the Aging**: Inaugural meeting as Chair; it is a pleasure to serve. We welcome all participants. Please refer to minutes.

10:24pm **Maurice Owen-Michaane, Chair, Business Development**, great public hearing on February 2<sup>nd</sup> regarding the Associate Supermarket. Good things happening. Associated has a green light to just keep ordering inventory, but other than that no one can say what's going on in negotiations which are subject to non-disclosure.

10:26pm **Elizabeth Lorris Ritter, Chair, Parks & Cultural Affairs**: Refer to minutes. Thanks to Assistant Chair, Osi Kaminer for chairing the Committee meeting so I could attend the Business Development Public Hearing, and

March meeting when I am away on business. Next month's meeting will include a presentation by the Parks Department on their conceptual plans for the renovation of the Javits Playground, long overdue for a renovation. Funds have been allocated by the Councilmember, MBP and the Fort Tryon Park Trust.
