Brooklyn, N Y 11201

Re: Resolution in Support of Track Panel Replacement on the Broadway Bridge

Dear Mr. Irick:

At the General Meeting, Tuesday, January 24, 2017 Community Board 12 Manhattan, passed the following resolution with a vote of 36 in favor, 0 opposed, 0 abstention That CB12M supporting the MTA's proposed project on the Broadway Bridge to replace the track panel.

Whereas: The Broadway Bridge operates as a passageway to and from Manhattan and the Bronx for vehicles as well as the MTA train; and

Whereas: All train tracks have a set number of years of useful life, as is the case with those spanning the 663 feet of linear track along the southbound BB-1 track on the Broadway Bridge; and

Whereas: The project will in addition remove and install new track signaling devices, power cables, contact rails, lift rails, fiberglass walkways, and handrails; and

Whereas: The work on the project will take place during non-peak hours Wednesdays through Fridays and weekends in February and July so as to have a minimum impact on the rush hour commute; and

Whereas: Our primary concern is for that of the safety of all people traveling across the bridge and understand the need from time to time to update our streets and train tracks; therefore be it

Resolved: That CB12M supports the MTA's proposed project on the Broadway Bridge to replace the track panel, which is scheduled to take place over one week in February and one week in July of this year.

Hon. Darryl Irick
