#### Proposed Homeless Shelter at 10 Wooster St.

Alexander Adler, Jeffrey Deitch, Harold Fox, Luke Ostrom, Jorge Orvananos, Maud Maron, Micaela Grimm, Bill Bialosky, and Terri Valenti, all expressed concerns about the proposed homeless shelter, citing the 200-person capacity, safety for families and young children, and the inexperience of the proposed operators, Westhab and Liberty One Group, noting they have never opened a homeless shelter in New York City before.

Mike Lawley, gave testimony regarding personal support of organizations supporting homeless groups, and expressing concerns for the 200-person capacity and 40 security guards.

Michael Feldschuh, spoke for homeless people deserving compassion, concerns about putting 12 persons per room, and the financial interests of private homeless shelter operators.

Dominic Martin, expressed concerns with: 1) lack of input from the community, and that many local residents were not aware of the plans; 2) loitering and street crimes associated with 200-man shelter; and 3) unsuitability of the building where residents would be 12 to a room, many without windows.

### **STANDING COMMITTEE REPORTS**

#### **JOINT EQUITY WORKING GROUP/SCHOOLS & EDUCATION**

##### **Resolution Requesting NYC Public School System Demographic Data Related to Student Outcomes**

##### **Whereas:**

1. Studies examining how socio-economic concentration, race and ethnicity relates to educational attainment and achievement among school-aged children, have shown that schools with high concentrations of low-income and minority students receive fewer instructional resources than others. And, tracking systems exacerbate these inequities by segregating many low-income and minority students. In combination, these policies leave minority students with fewer and lower-quality books, curriculum materials, laboratories, and computers; significantly larger class sizes; less qualified and experienced teachers; and less access to high-quality curriculum;

2. On May 17, 1954, the United States Supreme Court issued its decision in *Brown v. Board of Education*, which declared that segregation in public schools was unconstitutional. Yet, almost 70 years later, public schools across the nation continue to be highly segregated based on race and socioeconomic status;
3. The NYC educational system is one of the most inequitable and segregated in the industrialized world, and students routinely receive dramatically different learning opportunities based on their perceived demographic status. As the City Council acknowledges, New York City’s public schools are among “the most segregated in the country”: in 2018–19, close to 75 percent of Black and Latinx students attended schools with less than 10 percent of white students, and over 34 percent of white students attended schools with majority white populations, notwithstanding that only 15 percent of City students are white;
4. The March 2021 lawsuit, *Integrate NYC v. New York County*, states that the city’s school system has replicated and worsened racial inequality by sorting children into different academic tracks as early as kindergarten, and has therefore denied many of its roughly one million students their right to a sound, basic education; and
5. Many studies point to specific predictors, but without a complete picture, that includes all factors, these inequities cannot be properly addressed or corrected.

**Therefore be it resolved** that CB2, Man. requests the Department of Education (DOE) and Mayor, New York State Education Department (NYSED) to provide the following:

2. Reducing class size has proven to be one of the best ways to improve student learning, lower teacher attrition rates and disciplinary problems, and narrow achievement and opportunity gaps between racial, gender, and economic groups;
3. NYC schools are due to receive approximately \$7 billion in federal funds to be spent over the next two to three years, and more than \$530 million in additional state funds next year, rising to \$1.3 billion annually over the next three years in increased Foundation Aid;

4. The additional Foundation Aid is the result of the decision in the Campaign for Fiscal Equity (CFE) lawsuit, in which the state's highest court determined NYC students had been denied their constitutional right to a “sound basic education”, in part because their classes were too large;
5. The 2007 Contracts for Excellence (C4E) law, which settled the CFE case, required NYC to reduce class size in all grades; and yet, class sizes have increased since that decision was made over 15 years ago;
6. The City Council has proposed in its [Preliminary Budget Response](#) that \$250 million be allocated towards an initiative to lower class size next year, targeted for struggling schools with particularly vulnerable students;
7. The Mayor and the Council have now agreed to fully fund Fair Student Funding at about \$600 million and the Council has proposed \$110 million in spending to ensure that every public school has at least one full-time school counselor and one full-time social worker, as well as other necessary supports for students;
8. \$250 million could pay the salaries of, roughly, 2,500 new teachers, which could reduce the size of 10,000 classrooms – as adding a new teacher lowers class size for all the other students in a school in the same grade or subject;
9. Smaller classes lead to better grades and test scores, stronger student engagement, fewer disciplinary referrals, and higher graduation rates, especially for students who need help the most;
10. Fewer than half of all NYC students would be able to attend school full-time next year with current class sizes if there was a need for three-feet of social distancing; and
11. Due to the COVID-19 pandemic, and the potential need for social distancing next year, smaller classes will be essential to the health, safety and emotional wellbeing of our students, as well as their academic achievement.

**Therefore Be It Resolved**, CB2, Man. urges the Mayor, the Department of Education Chancellor, Speaker Corey Johnson, and the members of the City Council and Elected officials to:

1. Ensure that in the final, negotiated budget for FY 2022, at least \$250 million is allocated to hire 2,500 additional teachers to lower class size, with a priority on K-5, and in school communities that have suffered a disproportionate impact of the pandemic;
2. That there also be rigorous reporting requirements for DOE and accountability provisions attached to this funding so that smaller classes actually result from this funding;
3. Mandate that the DOE partner with SUNY and CUNY teacher workforce diversity programs including [Teacher Opportunity Corps](#) (TOC II) and [NYC Men Teach](#) to fill a significant number of these new positions;
4. That the final budget shall also contain \$110 million to ensure that every public school has at least one full-time school counselor and one full-time social worker;
5. Permanently incorporate fully remote learning into the school system to support teachers, students and families that choose to, or have to, remain remote post-pandemic, for the school year 2021-2022, and develop structures and policies for students wishing to engage in remote learning for school years beyond including funding for associated technology infrastructure and professional development;
6. Require DOE to secure more private spaces such as Pre-K Centers; Community Based Organizations (CBOs), that are already NYC funded early childhood education providers to create more space in schools by relocating Pre-K classes currently in public schools to stand-alone or CBO sites;

[https://www.law.cornell.edu/nyctap/I03\\_0084.htm](https://www.law.cornell.edu/nyctap/I03_0084.htm)

7. That over the next four years, DOE phase in lower class sizes in all schools, which will require the creation of more classroom space and building and leasing more schools with city and state funds, as well as the additional federal funds that will likely result from the Infrastructure bill proposed by President Biden;
8. Require DOE to build out new schools in buildings that private developers have reserved space for public schools, such as Essex Crossing and Bleecker School; and
9. Require the DOE to immediately lease or purchase the buildings where at least 17 Catholic Schools were closing in the wake of the pandemic; and
10. There is no longer any excuse for Mayor de Blasio and future Mayors to deny NYC students their constitutional right to smaller classes.

### 3. Transparency and Reform around Carter and Connors Cases

#### Whereas:

1. The Individuals with Disabilities Education Act (IDEA) states that all children must be given a “free appropriate public education”, and that schools, districts, states are required to provide a free appropriate public education (FAPE) to children with disabilities that meet their unique needs;
2. The NYC DOE Committee on Special Education (CSE) maintains a list of private schools that the State has pre-approved for the purpose of meeting those needs;
3. When the state-approved options are not appropriate for a student, or those schools are full, there are two ways the NYC DOE might pay for a private school that is not on the State’s pre-approved list:
4. *Florence County School District Four v. Carter* determined that when a parent or guardian disagrees with the DOE’s [Individualized Educational Plan](#) (IEP), they may elect to place their student in a non-public school and seek reimbursement for their costs or direct payment to the school by commencing legal proceedings against DOE (aka “Carter Cases);
5. IDEA establishes a mechanism for parents to challenge the DOE’s evaluation of their children and plans to address their special education needs by providing them with the opportunity to request an impartial hearing through which they can challenge DOE’s recommended educational plan for their children;
6. The Preliminary Budget for FY 2022 added \$220 million for Carter Cases at the Department of Education (DOE), an increase of 51% from the amount budgeted in the FY 2021 Adopted Budget;
7. Pursuing Carter Cases is cost and time prohibitive for the great majority of NYC families because:
  - a. Requirement of time and funds to navigate the impartial hearing process;
  - b. Exorbitant legal/consultant fees;
  - c. High cost of neuropsychological and other outside evaluations to secure a diagnosis;
  - d. Language access for families with Limited English Proficiency (LEP);
  - e. The necessity for families to have the ability to pay private school tuition before decisions on cases are settled, typically 12 to 18 months, with times being extended even longer during the COVID-19 pandemic;
8. *Nancy Connors v. New York State Board of Regents*, held that when a parent or guardian disagrees with their child’s IEP and is unable to pay up front for a non-public school, they must ask the school to accept their child based upon their promise that they will seek an impartial hearing requiring the NYC DOE to pay the tuition. Information about Connors Cases is difficult to obtain;

9. NYC DOE Compliance Assurance Plan of 2019 detailed how New York City was out of compliance with federal law for the 13th straight year on its delivery of services for students with disabilities and mandated services on student IEPs not being provided;  
Public schools simply do not have enough services to cover the needs of many of the city's 224,000 students with disabilities;
10. In March 2021, the NYC Independent Budget Office published "[\*Carter Case\*](#)" [\*Spending for Students With Special Needs Continues to Grow Rapidly\*](#)", that shows the city spent \$710 million in FY 2020, up 500% in 10 years, for nearly 14,000 students, but the IBO has not been able to obtain demographic, geographic or any other data on these students;
11. Many Carter Cases involve students with dyslexia and autism spectrum disorders whose needs are not met in their local school even when Orton Gillingham (OG) and other intervention methods are implemented in Integrated Co-Teaching (ICT) Classroom settings;
12. Many Carter Cases involve students with physical disability, hearing impairment, speech/language impairment, visual impairment, whose needs are not met because of physical barriers that potentially limit access at their local school;
13. Currently, the NYC DOE and School Construction Authority (SCA) do not widely fund or build new schools or classroom space based on the IDEA status of students that are leaving the public school system and seeking Carter/Conner status;
14. Private schools that serve Carter and Conner students continue to expand and provide models for the DOE, such as Churchill School & Center, The Aaron School and Winston Preparatory School of NY; and
15. NYC DOE's Hybrid Learning Plan has erected an even higher barrier of access for Students with IEPs to receive their legally mandated services;

**Therefore Be it Resolved** CB2, Man. urges the Mayor, City Council, and Elected officials to: Centralize Carter and Connors procedural information and support to create equity and access for all by eliminating the prohibitive factors families face when pursuing these cases, i.e. legal expenses, upfront tuition fees, time requirement, and language access;

1. Call on the Comptroller's office and DOE to conduct an audit on the DOE implementation and efficacy of Carter Cases, resulting in a report that includes demographic, geographic, racial, socio-economic concentration, disability classification, and other data for students receiving Carter Case funding;
2. Utilize the data gathered in the aforementioned report to develop curriculum and variety of programs to support and teach children with disabilities *within* current schools and develop and maintain programs as to best serve these students with disabilities within the public-school system;
3. Mandate that the NYC DOE address the fundamental and systemic problems with their delivery of special education services by expanding the [School Age Special Education Data Reports](#) to include:
  - a. Racial/age/geographical/gender demographics of students affected;
  - b. Data on programs to support students with autism spectrum disorders;
  - c. Data on the 2019 [I READ](#) literacy program for early grade ICT classrooms;

4. Urge the NYC DOE and School Construction Authority (SCA) to create and fund programs, like those offered by the planned Essex Crossing and the Bleecker Street schools, in its Five-Year Capital Plan, and explore the possibility of creating a DOE public school program for dyslexic students, based on the population size of identified students; and
5. Urge NYC DOE and School Construction Authority (SCA) to fund and create programming and build classroom space based on the IDEA status of students that are leaving the public school system and seeking Carter/Conner status and on the population size of identified students.

**THEREFORE BE IT RESOLVED** that CB2, Man. recommends **denial** of the application for a new Restaurant Liquor License in the name of **La Mela Ristorante Italiano, Inc., d/b/a La Mela, 167-169 Mulberry Street 10013** **unless** the statements presented by the Applicant are accurate and complete and that the conditions and stipulations agreed to by the Applicant remain incorporated into the “Method of Operation” of the SLA On-Premises License.

Vote: Unanimous, with 46 Board members in favor.

**2. Isabella 196 Spring, LLC d/b/a Piccola Cucina, 196 Spring Street 10012 (New RW – Restaurant)**

**i. Whereas**, the Applicant and the Applicant’s Attorney appeared before CB2, Manhattan’s SLA Committees #1 to present an application to the NYS Liquor Authority for a Restaurant Wine License proposing to operate a family restaurant serving regional, Sicilian Italian food in an R7-2 zoned, six (6)-story, mixed-use building (c. 1900) on Spring Street between Thompson and Sullivan Streets (Block #489/Lot #18); and

**ii. Whereas,** the storefront location is approximately 345 sq. ft. and will have 10 tables with 20 seats; there is no bar; there are large French doors which permit a large portion of the front façade to open out to the public sidewalk in front, with one (1) bathroom; the application also proposes a sidewalk café area in front of the licensed premises consisting of two (2) tables and four (4) seats; and

**iii. Whereas,** despite the application for a new license at this location, the location was previously operated using the same d/b/a (Piccola Cucina Lic/#1268218) by the Applicant Philip Guardone, who claims to have been the manager of the licensed premises for the last few years but for all intent and purposes has been in control of the operations of the licensed premises at this location: and

**iv. Whereas,** the Applicant is also a principal and licensee of two other licensed premises with a similar name (R&G Soho, LLC d/b/a Piccola Cucina Enoteca, 184 Prince Street, Lic #1233248 and Piccola Cucina Estiatorio, 75 Thompson Street, Lic # 1296149) located within blocks of the instant application; and

**v. Whereas,** all three locations operated by Mr. Guardone, including the instant location proposed to be licensed, have been the subject of significant problems and complaints prior to this application, the Applicant having appeared before CB2, Man. on multiple occasions regarding said complaints and problems, most notably in January/2020, and in September and October/2019; and

**vi. Whereas,** the issues at the multiple licensed locations managed and operated by Mr. Guardone were the result of his inability to abide by his stipulation agreements defining his method of operation at all three establishments, identical to what he proposed upon his multiple applications to CB2, Man. in the past, and identical to his current application, to operate “a family restaurant serving regional, Sicilian Italian food,” but thereafter, after opening his eating and drinking establishment turned into something entirely different, operating in derogation of his stipulation agreements at all three locations by staying open much later than his stated hours of operation, with a party-like atmosphere being actively promoted with loud music coming through open doors and windows which could be heard on the street and in nearby residences, patrons being allowed to dance on the tables, bang on pots and pans, with the businesses routinely operating and selling alcoholic beverages in the restaurant on the street (pre-pandemic); and

**vii. Whereas,** when the Licensee did appear before CB2, Manhattan’s SLA Committee to review his licensed locations, many neighbors living in the neighborhood appeared to voice their continued complaints and concerns about the loud music and noise coming from the interior premises, it being clear that the focus and origin of the noise complaints were created by the Licensee operating his restaurant until very late at night with its operable facades being wide open, causing excessive sound to emanate outwards and affect/disturb those living in the surrounding, immediate area; and

**viii. Whereas,** with regard to the instant application, members of the community appeared in opposition, concerned that the Applicant will continue to operate at this location just as he has done so in the past, citing the Applicant’s Thompson Street location where the Applicant’s roadbed dining has been set up so that its structure was blocking a fire hydrant and where there were continual crowds in the street; no one appearing to speak in favor of the instant application; and

**ix. Whereas,** the Applicant stated that he was no longer involved in the licensed premises at 184 Prince Street because of the tumultuous issues he created there, yet he acknowledged being the principal and manager while the problematic behavior was taking place; the Applicant was the on-premises manager at the location of the instant application and was aware of the issues raised in the past but said the issues had been resolved; this not being substantiated by anyone from the nearby community;

**THEREFORE, BE IT RESOLVED** that based on the problematic history of the manner in which the Applicant has managed and operated this and other nearby establishments, CB2, Man. recommends **denial** of a new Restaurant Wine license for **Isabella 196 Spring, LLC d/b/a Piccola Cucina, 196 Spring Street 10012**, as presented, and

**THEREFORE BE IT FURTHER RESOLVED** that should this application be considered by the SLA, CB2, Man. respectfully requests that this item be calendared to appear before the Full Board of the SLA; and

**THEREFORE, BE IT FURTHER RESOLVED**, that if despite CB2, Man.'s objections to this Application, should the NYSLA not find good cause to deny this Application, CB2, Man. recommends in the alternative that the following stipulations be imposed on any future Restaurant Wine license for **Isabella 196 Spring, LLC d/b/a Piccola Cucina, 196 Spring Street 10012:**

1. Will operate an Italian restaurant.
2. The hours of operation will be from 11:00 AM to 11:00 PM Sundays through Thursdays and 11:00 AM to 12:00 AM Fridays and Saturdays. (Premises will open no later than stated opening time and NO patrons will remain after stated closing time.)
3. Will operate a full-service restaurant, specifically a family restaurant serving regional Sicilian Italian food and fine wines with the kitchen open and full menu items available until closing every night.
4. The premise will not operate as a Lounge, Tavern or Sports Bar or allow any portion of premises to be operated in that manner.
5. Will not have televisions.
6. Will not operate a backyard garden or any outdoor area for commercial purposes (not including licensed sidewalk café or pandemic-related, temporary sidewalk or roadbed seating).
7. Will operate a sidewalk café no later than 11:00 PM (all tables and chairs will be removed at this hour).
8. Will play quiet ambient recorded background music only, inclusive of any private parties or events. No music will be audible in any adjacent residences at any time.
9. Will close all doors and windows by 9:00 PM every night without exception, allowing only for patron ingress and egress.
10. Will not make changes to the existing façade except to change signage or awning.
11. Will comply with NYC Department of Buildings Regulations and keep current at all times required Permits and Certificates.
12. Will not have unlimited drink or unlimited food and drink specials. Will not have “boozy brunches.” No pitchers of beer.
13. There will be no “bottle service” or the sale of bottles of alcohol except for the sale of bottles of beer or wine products.
14. Will appear before CB2, Manhattan prior to submitting any changes to any stipulation agreed to herein.
15. Will not have any of the following: dancing, DJs, live music, promoted events, any event for which a cover fee is charged, scheduled performances, velvet ropes or barricades or security personnel/doormen.
16. Any pandemic-related, temporary sidewalk or roadbed seating ends by 11:00 PM (all patrons will be cleared by this hour and area closed); no speakers or music played outdoors and no interior speakers positioned to face outside.
17. All pandemic-related, temporary sidewalk and/or roadbed seating will be removed once the program authorizing it expires.

**ii.** **Whereas**, generally these types of applications do not raise significant concerns, but in this case the current Licensee and Applicant has been found to be improperly operating its establishment as a sports bar in derogation of its stipulations agreement, stipulations incorporated into its existing liquor license at the NYSLA and representing its agreed upon method of operation stemming from its original application dating back to September 2019 with this Community Board and the NYSLA, at which time the Applicant and Licensee affirmed under oath that his eating and drinking establishment would operate as a “family friendly neighborhood restaurant”; and,

**iii. Whereas,** noise complaints have been reported and received pertaining to this establishment and the Community Liaison Officer from local police precinct #6 appearing pre-pandemic at the premises to address said complaints, requesting from CB2 Man. the stipulations in response to the Licensee statements informing those officers who appeared that the stipulations relating to the licensed premises permitted him to operate as a Sports Bar; and,

Vote: Unanimous, with 46 Board members in favor.

**17. 340 Bleecker, LLC d/b/a AMOS, 340 Bleecker St. 10014** (New OP – Restaurant)

**i. Whereas**, this Applicant previously appeared before CB2, Man. in May 2019 and again in June 2019 presenting an application to the Liquor Authority for a new on-premise liquor license to operate a full-service restaurant by combining multiple storefronts into one larger, combined space, previously unlicensed as such, within a mixed-use six-story building (circa 1930) located on Bleecker St. between West 10<sup>th</sup> St. and Christopher St. in Greenwich Village, the building falling within NYC LPC's designated Greenwich Village Historic District; and,

**ii. Whereas**, in response to the Application, local residents appeared in opposition, including those directly impacted and living on Bleecker Street immediately above the premises to be licensed and the proposed sidewalk café, the proposed licensed premise and exterior café being surrounding by a significant residential presence, advancing concerns relating to noise impacts from the exterior café but also due to the interior restaurant, the size of the combination of the two storefronts, one of which has never been licensed previously or used for eating and drinking, the prior use of the additional storefront having been as a retail clothing store not having the same sound intrusions and impacts as a full-service restaurant with a large bar being installed where none had previously existed, the patron occupancy of 108 being much greater than the prior occupancy of the diner, the building being old without soundproofing and all residential above, the tenants impacted having lived in the building for decades with concerns that they are being targeted by the landlord due to their rent-controlled status; there also being concerns voiced that the Applicant was not being candid about his plans to prevent noise intrusions for the larger foot print and there being doors left unlocked and access to common tenant areas in the basement by employees of the proposed restaurant; and

**iii. Whereas**, in terms of background, the proposed premises to be licensed is a combination of multiple storefronts, located adjacent to each other, the first storefront having previously operated as a diner called Manatus which closed in 2015, the second storefront being a clothing store and never previously licensed or operated for eating and drinking, the combined premises being gut-renovated and kitchen being relocated into the basement, the combined interior premise for the proposed restaurant being 3500 sq. ft.; and,

**iv. Whereas**, the proposed interior premises will have 28 tables and 94 table seats, 1 standup bar with 14 bar seats for a maximum interior patron occupancy of 108, there will be no patron use of the basement and two patron bathrooms; the interior hours of operation are Sunday to Thursday from 8AM to 12AM and Fridays/Saturdays from 8AM to 1AM, music will be on the interior only and will be quiet background with additional live music, albeit limited to two times per week, acoustical instruments only, without amplification, no drums and no horns; and,

**v. Whereas**, the Applicant also sought to have service to a licensed sidewalk café in front of the interior premises, limited to 6 tables and 12 seats, with the Applicant agreeing to close the exterior sidewalk café by 10 PM Sunday through Thursday and by 11PM Fridays and Saturdays; and,

**vi. Whereas**, despite such opposition to this Application and the significant impacts generated from the licensing of a much larger footprint in a previously unlicensed space, calling into question whether the application established the public interest standard imposed by the 500 foot rule, CB2, Man. still made extensive efforts over two months of meetings to create and form a compromise to permit this Application to move forward despite the significant issues raised as to whether the public interest standard could be met with this application; and,

**v. Whereas**, those negotiations resulted in the Applicant executing a stipulations agreement with CB2, Man. that he agreed to submit to the SLA and further agreed would be attached and incorporated into the method of operation on the restaurant on-premise liquor license stating that:

1. The establishment will be advertised and operated as a full-service restaurant serving breakfast, lunch and dinner.
2. The interior hours of operation will be Sunday to Thursday from 8AM to 12AM and Fridays/Saturdays from 8AM to 1AM (all patrons will be cleared from the ground floor of the premises and no patrons will remain after stated closing time).
3. The premises will not operate a backyard garden or any outdoor area for commercial purposes other than a DCA approved sidewalk café.
4. The exterior sidewalk café will close by 10 PM Sunday through Thursday and close by 11 PM Friday to Saturday. All patrons will be cleared from the sidewalk cafe and no patrons will remain after stated closing time.
5. Will not have TVs.
6. The premises will not operate as a lounge, tavern or sports bar or allow any portion of the premises to be operated in such a manner.
7. The premises will not permit dancing in any portion of the premises.
8. Live music may occur at the interior premises, albeit limited to two times per week, acoustical instruments only, without amplification, no drums and no horns; otherwise the premises will play quiet ambient-recorded background music only. No music will be audible in any adjacent residences at any time.
9. Will install foam soundproofing with additional sound barriers for sound attenuation throughout entire ceiling, utilize sound limiters and will work with the residential tenants living directly above premises to attenuate/contain all sound impacts.
10. Will install awning over sidewalk café.
11. The premises will not have DJ's, live music, promoted events, any event where a cover fee is charged or any scheduled performances.
12. Signage will be installed to remain patrons outside to be respectful of residents living immediately above establishment.
13. The Licensee will obtain all required certificates, permits and related documents including a Certificate of Occupancy prior to opening and will keep current all certificates, permits and related documents.
14. There will be no operable windows and all operable doors on Bleecker Street will be closed at all times except for patron egress.
15. There will be a single patron entrance located at the northerly portion of the storefront premises.
16. There will be no "bottle service" other than typical restaurant beer/wine by the bottle.
17. There will be no velvet ropes or barricades used to control patrons.

**vi. Whereas**, in addition to agreeing to the proposed compromise and above-referenced stipulations with CB2, Man. to allow for the proposed license application to move forward to the NYSLA, the Applicant repeatedly informed CB2, Man. that he would resolve all potential problems and work with the tenants immediately impacted now and into the future to ameliorate the likely and potential impacts that will occur; and,

**vii. Whereas**, after agreeing to above-described compromise with CB2, Man., the Applicant now returns almost two years later to present a supplemental Alteration Request to add an open-air front façade to the restaurant with operable French doors running along the entire front of the combined storefronts; and,

**viii. Whereas**, despite the two-year gap between the Applicant's initial appearances and agreements in compromise before CB2, Man. on this Application, he has not yet completed the renovations to the combined space and therefore has not yet opened his restaurant; and,

**ix. Whereas**, the Applicant is now seeking the open façade on the speculative pretext that he will not be successful after he opens due to the Covid Pandemic even those he had never opened or been subject to any business impact from the Pandemic, instead it being fairly clear he is using the Pandemic to leverage an open façade at the licensed premises when maintaining a closed façade was a critical element and aspect of the compromise he accepted with CB2, Man. to garner his liquor license; and,

**x. Whereas**, in response to the Applicant's supplemental alteration application, local residents appeared yet again in opposition to the supplemental application, including those directly impacted and living on Bleecker Street immediately above the premises to be licensed and the proposed sidewalk café, there being significant distrust by the residents towards the Applicant as he never reached out to them to explain the proposed changes despite the clear implications of the impacts imposed by an alteration to open up the entire restaurant at the front façade when the Applicant's prior compromise and agreement with CB2, Man. was to maintain a fixed façade to prevent the noise intrusions presented by such a large restaurant and bar in the previously unlicensed space with a capacity of 109 patrons; and,

**xi. Whereas**, this license being subject to the 500-foot rule requiring the Applicant to establish a public interest, there being approximately 77 active, 4 pending and 12 inactive liquor licenses within 750 ft of the premises, and 200 active such licenses within 1,500 sq. ft. of the premises promised to be licensed, the Applicant seeking to modify his application despite the impacts imposed and concerns voiced by the tenants and residents living directly above the premises to be licensed, and having reneged his agreement made in good faith and after the significant efforts made by CB2, Man. despite the overwhelming opposition to this application, the public interest not being served by this supplemental alteration to a business which has never opened; and,

**THEREFORE, BE IT RESOLVED** that CB2, Man. recommends **denial** of the alteration application for the existing On-Premise License for **340 Bleecker, LLC d/b/a AMOS, 340 Bleecker St. 10014**; and

**BE IT FURTHER RESOLVED** that should this application be considered by the SLA, CB2, Man. respectfully requests that this item be calendared to appear before the Full Board of the SLA; and

**THEREFORE, BE IT FURTHER RESOLVED** that if this application is considered by the SLA, despite CB2, Manhattan's recommendation to deny this application, CB2, Man. requests that the SLA conduct a 500-foot hearing.

Vote: Unanimous, with 46 Board members in favor.

**TRAFFIC AND TRANSPORTATION**

**Resolution requesting advance notice of plans to install CitiBike stations in CB2, including identification of proposed locations, for community study before DOT presents to the Board and receives feedback.**

**Whereas** in December 2020 and January, February and March 2021, residents and other community members throughout Community Board 2 Manhattan (CB2, Man.) were both surprised and distressed to find that CitiBike stations had been installed on their blocks without receiving any advance opportunity to give input on these actions; and

**Whereas** although the NYC Dept. of Transportation (DOT) presented 10 CitiBike station locations selected for implementation in CB2, Man. to the Board's Traffic and Transportation Committee in November 2020, no preliminary list of locations was issued prior to the meeting, preventing advance dissemination of this essential information that would allow all those in the CB2 community most knowledgeable about these sites and most affected by the changes to be aware of these planned actions and have a chance to comment about them; and

**Whereas** those who live and work in the community can provide important input on the suitability of specific locations for CitiBike stations and offer useful details, such as the need for disabled access or the existence of garbage pickup at some locations or identification of places where the noise from CitiBike takeout and return activity and maintenance might disturb ground floor living situations, as well as give suggestions for alternative locations; and

**Whereas** DOT asserts that the CitiBike outreach program has always been the same, however, in the past DOT has sent CB2, Man. advance information *identifying* Citibike station siting possibilities at *individual* locations which gives the people at those specific sites early notice, so that they can weigh in at the

beginning about suitability (as opposed to CB2, Man. receiving a notice that a list of locations will be presented with no advance identification of the locations to be on that list); and

**Whereas** CB2, Man. constituents have observed that numerous CitiBike stations have been placed in close proximity to each other in certain areas, e.g., on Washington and Greenwich Sts. from Bank to Morton Sts. there are 7 stations in 8 blocks, and they ask for the rationale for these locations and others, so they can understand DOT's logic and give constructive feedback; and

**Whereas** several CitiBike users, especially from the Village's Far West side, pointed out that their problem is not a need for more CitiBike stations, but the absence of proper rebalancing at existing stations leading to a lack of open docks to which to return the bikes. This results in people returning from work and other places having to search for a CitiBike station that isn't full, frequently having to go a long distance, often in the dark and/or in bad weather, and getting home much later than should occur; and

**Whereas** valet parking can be used to keep docks open for returning bikes. At Duarte Sq.'s CitiBike station, for example, one or two valet parkers keep five or six of the docks there free; when people take more bikes out, these can be replaced with bikes that are kept aside, but some spots are always kept open for returning bikes; and

**Whereas** CitiBike collects utilization data and publishes monthly reports for DOT;

**Therefore, be it resolved** that CB2, Man. strongly urges DOT to provide advance notice before presenting to the Board of any plan to install CitiBike stations, whether at one individual location or at several different locations, that identifies each location being considered, along with the length of each station, how many bikes (broken down into types of bikes) each will accommodate, and whether each is in the roadbed, sidewalk or other; and

**Be it further resolved** that CB2, Man. also urges that this advance notice additionally include the rationale for the proposed locations as well as utilization data for these areas based on the CitiBike monthly report; and

**Be it further resolved** that CB2, Man. asks that this advance notice, including all the requested information, be made available in ample time for the community to study it and then give useful feedback when it's presented to the Board (at least 2-3 weeks for prior review + sufficient time after DOT receives feedback for adjustments and re-locations before installation); and

**Be it finally resolved** that CB2, Man. greatly favors installing valet parking in its CitiBike installation areas and requests that valet services be provided in certain high-volume locations in those areas, in consultation with community users.

## **NEW BUSINESS**

### **EQUITY WORKING GROUP**

Dear Community Board 2 Community,

When we established the Equity Working Group over ten months ago and committed to you, our neighbors and friends, that we would align our actions with our intentions, it was in the tragic aftermath

of the murders of George Floyd, Eric Garner, Amadou Diallo, Sandra Bland, Ahmaud Arbery, Breonna Taylor, and too many others to name. We call out their names once again because, although the verdict in the murder of George Floyd was just, we must never forget those who did not receive justice because of the color of their skin.

Murders and killings of Black people have not ceased since George Floyd's death. Systemic racism permeates our city's policies and practices, institutions and communities - we are far from living in an anti-racist world.

We reaffirm our commitment to continue to engage with you in dialogue and examine what Community Board 2 can do better. As part of that engagement, over the coming months, we will examine modern-day racialized policing and the criminalization of poverty as described in the [NYC Police Reform and Reinvention Collaborative Plan](#). We will follow closely how the plan's recommendations and the city council's recent police reform bills are being implemented within the CB2 community.

Your participation and insight are critical to our success. We look forward to working with you over the coming months.

Respectfully submitted,

Eugene Yoo  
Secretary  
Community Board #2, Manhattan
