COMPUTER-GENERATED COPY**

Pursuant to Section 25-306 of the Administrative Code of the City of New York, the Landmarks Preservation Commission hereby approves certain alterations to the subject premises as proposed in your application completed on June 30, 2022.

The approved work consists of exterior work at the storefront located at the southeast corner of the building (Bleecker Street and West 10th Street), including removing the dark grey paint at the ground floor facade and adjoining brick planter using a chemical paint stripper and water rinses, and installing two (2) matte gold metal 1'-6" tall by 2" deep halo lit signs ("wyld blue") at plain brickwork above the display windows, including one sign on the Bleecker Street facade and one sign on the West 10th Street facade, as described and shown in letters dated May 19, 2022 and June 29, 2022 and prepared by GSA; and drawings labeled T001.00, A001.00, and A002.00, dated June 29, 2022, and prepared by Zachary John Gidich, R.A., all submitted as components of the application.

In reviewing this proposal, the Commission notes that the Greenwich Village Historic District Designation Report describes 350-364 Bleecker Street (aka 98-100 Charles Street; 215-221 West 10th Street) as an apartment house designed by H.I. Feldman and built in 1963.

With regard to this proposal, the Commission finds that the work is in accordance with the provisions set
