## Security Plan

Seven Forty Eight, LLC d/b/a Dazed's (Dazed) comprehensive Safety and Security Plan consists of specialized personnel, controls, and procedures designed to protect all authorized persons on site and guard against theft and diversion of cannabis and cannabis products. This plan was prepared based on the quantity of cannabis that will be kept on-hand, the use of Dazed's inventory system, staff, geographic location of the business, the alarm system's capabilities, and consideration of typical security breaches. Dazed will implement the security and signage protocols outlined in the local ordinance, as well as outlined with New York State, in this plan to ensure the facility adheres to all local codes and regulations. Dazed's Standard Operating Procedures (SOPs) include systems that maintain chain of custody and provide all capabilities as guided by the Office of Cannabis Management (OCM). NYC TV Mounting, LLC, will provide Dazed with customized, compliant, and industry leading security services including: building fortification, remote video surveillance, live webcams, card access control, and alarm systems. Dazed and its security consultants will ensure that its video surveillance system will work non-stop day and night, twenty-four hours and seven days per week (24/7), provide uninterrupted live feed video, offer playback recording capabilities for both inside and outside the premise, and is remotely accessible. In addition, the video recording security system will cover all areas of the facility and the adjacent exterior of the building with a 24/7 recording system that records for a minimum thirty-day archive. Dazed will utilize security personnel monitoring and its video surveillance system for all critical areas such as vaults, safes, retail areas, cannabis waste and quarantine areas, and outside areas. Each room will have a security camera along its walls so that there are no "blind spots" in surveillance. Dazed will utilize surveillance network video recorder (NVR) systems for longer archival storage capacity which can be extended from days to years. Dazed will only permit authorized customers, employees and other persons who are granted explicit permission by Dazed, OCM, or local law enforcement to access the facility. The Safety and Security SOP, *still in development by the Company*, will detail facility safety procedures, including a disaster plan in case of fire or other emergencies and personal safety and crime prevention techniques to mitigate the risk of emergency situations within the facility. This document will also include additional regulations that are critical to the safety and security of Dazed's facility and its employees as they pertain to federal Occupational Safety and Health Administration (OSHA) regulations, workers compensation claims, and safety assessments. Dazed will train all company employees on applicable state, local, and federal laws, documentation processes, SOPs applicable to their duties, and specific security protocols to instill a culture of regulatory compliance. Dazed is pleased to share more details with the Community Board as the security plan is thoroughly developed with their security consultant who has provided security for their other licensed cannabis operations.
