**Re: Siren Retail Corporation
d/b/a Starbucks Reserve Roastery & Tasting Room
61 Ninth Avenue (14/15)
License Serial Number 1306873**

Dear Judge Damplo:

The Manhattan Community Board 4's (MCB4) Executive Committee met on Monday, January 29, 2018 and unanimously voted to respond to the letter dated January 12, 2018, to Your Honor from attorneys for Siren Retail Corporation d/b/a Starbucks Reserve Roastery & Tasting Room (Starbucks) in connection with the application of Starbucks for the OP license above. MCB4 recognizes that Your Honor is currently deliberating on this application therefore we are sending this response immediately, and this letter is subject to ratification by the Full Board on Wednesday, February 7, 2018.

For the reasons outlined below, MCB4 requests that the Starbucks license be limited in at least one of the following ways:

- (a) Permitting alcohol service and consumption only in the two designated areas -- the mezzanine floor and the restaurant space -- to which Starbucks initially agreed on June 13, 2017;
- (b) Ending the licensed hours at midnight (rather than the requested 2:00 a.m.); or
- (c) Reducing maximum occupancy to 400 people.

We disagree with many of the Starbucks letter's descriptions and characterizations of the dealings between MCB4 and Starbucks, but do not believe it is a productive use of Your Honor's and MCB4's time to debate the details of those events. These were outlined in our previous letter to the SLA dated December 5, 2017, which is attached.

Although it may not be clear from the Starbucks letter, the position of the Business Licenses and Permits (BLP) Committee of MCB4 has been clear and straightforward throughout its dealings with Starbucks. Although each application presents its own issues and characteristics, the BLP Committee in evaluating applications typically begins with a consideration of four basic variables: licensed operating hours, capacity of the establishment, physical size of the establishment, and concentration of other licensed premises in the vicinity.

From Starbucks' first appearance before the BLP Committee, the Committee made clear to Starbucks that the combination of those four variables with respect to its application gave rise to community concerns: Starbucks was seeking to be licensed until 2:00 a.m., with a very large capacity (600+ people, including staff), in an expansive space, in an area that was already oversaturated with OP licenses (24 OP licenses within 500 feet, per the SLA website). This location has not been previously licensed, so the application would be adding an additional new license to the community.

At the BLP Committee meeting on June 13, 2017, the Committee made clear to Starbucks that its expansive requests on all four of these variables raised serious concerns and requested that Starbucks reduce at least one of the following: closing hours, capacity, or the physical space where liquor could be served and consumed. To that end, Starbucks at that meeting agreed to limit to two spaces the areas in which alcohol could be served and consumed -- the mezzanine floor and the restaurant.

Although the Starbucks letter states that the Committee unanimously recommended approval of the Starbucks application, in fact the Committee recommended *denial unless* all of the agreed-to stipulations -- including limiting alcohol consumption to the mezzanine floor and the restaurant -- were included as terms of the Starbucks license. As Starbucks notes, the following day, Starbucks called MCB4 to renege on that agreement.

Starbucks then appeared again at the July 11, 2017 meeting of the BLP Committee, where the Committee repeated its request that one or more of Starbucks' proposed aspects of operation -- closing hours, capacity, or physical space for alcohol consumption -- be reduced. At that meeting, Starbucks requested that the matter not be voted on as it was still determining whether it could agree to any of the modifications requested by the Committee. Although there was email correspondence between Starbucks and MCB4 in the following months, that correspondence made clear that Starbucks was unwilling to reconsider any of those three aspects of its operations -- in essence, it was unwilling to negotiate any modifications to its proposed method of operation in order to mitigate the impact on the surrounding community.

Although it is a well-established operator in the coffee field, Starbucks is an untested commodity with respect to a full OP license in this size venue. To the best of MCB4's knowledge, Starbucks has no other operations with full OP licenses in Manhattan Community District 4. And Starbucks' own letter acknowledges that it operates only two similar licensed venues in the world (one outside the United States).

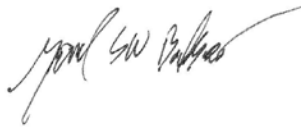

MCB4 requests that Starbucks be evaluated like any other applicant seeking to open a large-size, large-capacity venue with late night hours in an over-concentrated area and in a location that has not previously been licensed. MCB4 requests that the Starbucks license be limited in at least one of the three ways listed at the start of this letter. Such stipulations would help to mitigate the risk to the community while still being welcoming to new business.

Thank you for your attention to this matter.

Respectfully submitted,

**Re: Siren Retail Corporation
d/b/a Starbucks Reserve Roastery
61 Ninth Avenue (14/15)**

Dear Chairman Bradley:

Manhattan Community Board 4 (MCB4) recommends **denial** of a new on-premise liquor license for Siren Retail Corporation d/b/a Starbucks Reserve Corporation, 61 Ninth Avenue (14/15) because granting this license would not be in the public interest. The proposed establishment is a very large venue (600+ persons) in an already saturated part of our district and the applicant – which apparently has minimal experience in operating such a large liquor-serving establishment – has been unwilling to reduce the footprint of the licensed portion of the premises and/or the hours of operation nor has it provided a meaningful security plan or traffic plan.

This establishment falls within the 500 foot rule as there are **24 (twenty-four)** OP liquor licenses within 500 feet of this address (per the SLA’s website) which include multiple establishments with very large capacities and late hours. An applicant of this size, which seeks to stay open until 2:00 am nightly, would add to the problems accompanying an over-saturation of licensed establishments in very close proximity, including increased traffic and excessive late night noise. This establishment is only one block away from a large residential development for low-income tenants who are already suffering from the continuous honking of late-night traffic.

MCB4’s Business License and Permits Committee (BLP) has tried to stay in conversation with the applicant over the last five months to develop a mutually acceptable set of stipulations that address the concerns of both the community and the applicant, but to no avail. After two appearances before the BLP

Committee in early summer, the applicant has withdrawn from discussion and refused to engage in any further dialogue with MCB4.

The proposed venue is a large multi-storied space beginning at ground level in a newly constructed commercial building. The central focus of the space will be the coffee roasting machinery where people will learn about coffee bean roasting and be able to “chat with a coffee specialist.” In addition to the restaurant, there will be a packing room and a “coffee library with space for groups to meet and learn.” MCB4 has concerns about the expansiveness of the venue providing differing functions not all compatible with alcohol consumption. For this reason, the BLP Committee advocated a stipulation limiting the area covered by the OP license.

MCB4 also believes that the applicant should prepare and submit a more detailed security plan. The one submitted consists of only a single paragraph. Additionally, the proposed venue has a capacity of 683 people and an expected maximum use figure of 620 (including employees). It is expected to be a destination spot drawing people to the already densely used pedestrian sidewalks and cars to the heavily trafficked streets adjacent to the venue’s site. The applicant submitted no traffic plan. It would be helpful to MCB4 if it did so.

The applicant first appeared at the June 13, 2017 meeting of the BLP Committee and agreed to and signed a series of proposed stipulations (attached hereto). The BLP Committee voted unanimously to recommend that the application with its stipulations be approved by SLA. The next day, the applicant notified MCB4 that upon further thinking it decided it could not limit alcohol consumption only to certain areas of the premises. The applicant wanted more time to consider the operating ramifications.

The applicant appeared again at the July 11, 2017 meeting of the BLP Committee. The Committee expressed its concerns about an establishment that proposed to serve alcohol to up to 600 people and until as late as 2:00 a.m. and asked the applicant to consider either limiting the size of the licensed portion of the premises or choosing an earlier closing time. Following the July 11 BLP Committee meeting, the applicant requested that the matter not be voted on by the full MCB4 Board as it was still determining if it could agree to the proposed stipulations; it expected to have an answer by mid-August. By the end of August, the applicant definitively stated that it could not agree to a stipulation limiting the areas of alcohol consumption and was willing to accept a “negative resolution” from the full MCB4Board.

MCB4 invited the applicant to attend the October 10, 2017 meeting of the BLP Committee to continue discussing the issue in an attempt to arrive at a mutually acceptable compromise. The applicant informed MCB4 that it would not be attending the meeting and wrote reiterating its position about its inability to separate functioning areas of its venue – without proposing alternate ways to address the reasonable community concerns of size, hours, security and traffic, all critical to ensuring that this license is in the public interest. The applicant

apparently believes that the SLA will agree with it and sees no reason to continue the conversation with the community. The applicant's emails to MCB4 communicated the unbending attitude of an applicant believing itself somehow special and apart from other applicants with no need to engage in dialogue with the community in which it proposes to be a neighbor. As it stands, this proposed establishment is clearly not in the public interest, given the 24 OP licensed premises within 500 feet and the lack of any reasonable planning to mitigate noise, traffic and security concerns.

Should the Liquor Authority nonetheless decide to grant a license here, MCB4 requests that the attached stipulations be made part of the method of operation for this establishment, including the following:

- Live music will be limited to no more than four (4) unamplified performers;
- Alcohol sales and consumption will be limited to the mezzanine floor and/or the restaurant space located in the south section of the first floor;
- Applicant will submit detailed security and traffic plans and will adhere to their terms; and
- Once the building is finished, applicant will provide MCB4 with the report of a certified sound engineer and implement its recommendations.

For the reasons stated above, MCB4 requests that the present application be **denied unless the stipulations outlined above are incorporated into the applicant's method of operation to be indicated on the license.**

Thank you for your attention and cooperation with this application.

Sincerely,

Delores Rubin

**Siren Retail Corporation
d/b/a Starbucks Reserve Roastery
61 Ninth Avenue
New York, NY 10011**

500 Foot Statement

We have determined that there are twenty (20) other licensed premises within 500 feet of the proposed establishment. The purpose of this statement is to provide the State Liquor Authority ("SLA") with the reasons why we believe it is in the local community's best interests to have another licensed premises within 500 feet of twenty (20) other licensed premises.

There are many reasons why the applicant believes that the presence of Starbucks Reserve Roastery in the Manhattan community is a benefit. Perhaps the greatest benefit and advantage that Starbucks Reserve Roastery will bring to the local community is that of an economic nature. Starbucks Reserve Roastery will employ many individuals at the premises, most of whom are members of the local community, thereby creating job opportunities in the local area. This is of immense benefit to the local community given the current economic climate and the lack of available jobs. Further, Starbucks Reserve Roastery will contribute sales tax dollars for New York State, and as a result, provides much needed income and revenue to New York County and New York State. Again, this is an immeasurable benefit to not only the community, but all residents of New York State during these difficult economic times.

Additionally, Starbucks Reserve Roastery believes that it will positively contribute to the local community by supporting various local businesses and community events. Starbucks Reserve Roastery looks forward to being present as part of the community for a long time to come. The local community can be reassured that jobs created will not be lost. Additionally, the local community, as well as the SLA, can be assured that the premises will be well run, and will be a benefit to the local area, as opposed to a hindrance.

Furthermore, the proposed Starbucks Reserve Roastery will be only the second Roastery in the United States, and Starbucks chose the meatpacking for its unique and diverse culture. The Roastery is a multisensory coffee experience which allows customers to watch freshly-roasted beans, chat with a coffee specialist, enjoy a unique food and beverage menu unlike any other Starbucks store, and experience coffee brewed in multiple ways. The Roastery includes a coffee library with space for groups to meet and learn. In addition to an immersive coffee experience, the Roastery will include Princi Bakery. There is nothing else like the Roastery in New York City or New York State.

Lastly, we would note that Starbucks Reserve Roastery is intended to primarily be an upscale coffee experience with a specialty Italian bakery. The twenty (20) other licensed establishments are comprised of bars, restaurants and one hotel. The majority of the restaurants and bars located within 500 feet are located within the Chelsea Market building. Although Kobrick Coffee Company is located within 500 feet of the proposed Starbucks Reserve Roastery, Kobrick COfee Company does not offer the same type of atmosphere as Starbucks Reserve Roastery. The Roastery is intended to be an educational experience related to coffee, where

customers can learn about the roasting and brewing process and taste various coffee varieties. None of the establishments within 500 feet of the proposed premises offer the same type of atmosphere that Starbucks Reserve Roastery does. As a result, the proposed establishment will meet an untapped need of the local community.

For all of the reasons stated above, the applicant believes, as do we, that the benefits and advantages received by the Manhattan community from Starbucks Reserve Roastery far outweigh any disadvantages there may be of having twenty (20) licensed establishments within five (500) hundred feet of each other. We therefore respectfully request on behalf of the applicant that the on-premises liquor license application be approved.
