## Midtown Homelessness Outreach Report Breaking Ground Street-to-Home Manhattan February 15, 2022 Update

#### **Catchment Area**

Breaking Ground Street-to-Home Manhattan's catchment area extends from the north side of 23 St to the south side of 59 St, river to river.

## **Neighborhood Homeless Outreach Efforts**

BG S2HM conducts street outreach to homeless individuals in the Chelsea and Hell's Kitchen neighborhoods on a daily basis—visiting encampments, hotspots, and chronic clients with the goal of linking street homeless individuals to housing and other vital services.

## **Joint Operations**

S2HM outreach teams conduct weekly joint outreach operations with Times Square Alliance and New York City Relief. S2HM also conducts joint outreach operations with street medicine teams and other outreach providers on an as-needed basis. There have been no recent joint outreach operations with NYPD.

## **Current Areas of Concern**

BG S2HM continues to provide homeless outreach services at all the areas of concern identified in recent months. Highlights for the four weeks ended Monday 10/18 include:

## Columbus Circle

Outreach teams report that this area has been mostly free of homeless activity for the last several months. On occasion unknown individuals are encountered bedded down overnight and early morning. Increasing cold weather and heavy police presence has discouraged panhandlers as of late.

#### 58th St and 59th St under West Side Hwy

Previously, outreach teams, case managers, and supervisors had a daily presence here for many months due to the proliferation of complex encampments. More recently, this area has been largely free of homeless activity, with only a single individual returning regularly. Fencing was placed shortly after which continued to deter influx of homeless activity. The area will continue to be monitored for activity. The one remaining frequent visitor to this area is in regular contact with outreach.

#### 59th St and 9th Ave

A large encampment has developed this area, which has repeatedly been moved by the inhabitant between 58th Street and 60th Street on this avenue. Breaking Ground outreach staff are making frequent contact with this individual as well as collaborating with Uptown Goddard in order to coordinate efforts to assist this client in preparing to accept placement.

## 57th St and 9th Ave

This location has been frequented by numerous homeless individuals; however, after several recent 2 placements by outreach, activity has been greatly reduced.

#### **DeWitt Clinton Park**

Outreach has been canvassing and reporting on this location frequently. A few clients are regularly observed passing through, as well as an individual who is a frequent visitor to this park. Rapport will continue to be built with these individuals around accepting placement services.

#### 52<sup>nd</sup> St bet 8th Ave and 9th Ave

This location, which was formerly home to a large encampment, has been cleared of homeless material. Only transient homeless activity has been observed.

#### 51st St bet 9th Ave and 10th Ave

This location used to be a hot spot but currently one homeless individual continues to bed down at this location on a somewhat regular basis. Outreach teams visit this location regularly to engage and build rapport

#### 8th Ave bet 42nd St and 59th St

Outreach teams canvass this long stretch of 8th Ave daily and offer services to the numerous homeless individuals regularly encountered. Overnight staff typically engages clients bedded down at night between 42nd St and 45th St as well as between 47th St and 48th St. Many individuals engaged on this stretch come and go which makes rapport building quite difficult. Caseload clients, less frequently engaged in the area, tend to be connected to transitional housing services or in the referral process.

#### 42nd St bet 7th Ave and 9th Ave

Outreach has continued to engage the numerous homeless individuals regularly encountered on this block. The population here is highly transient, and outreach engagements are often with unknown clients.

## 8th Ave bet 39th St and 42nd St (PABT)

S2HM visits this area regularly and reports steady homeless activity across morning, day, and evening shifts. A caseload client of concern maintains in an encampment here and routinely declines outreach services. Over the last several months, overnight staff have encountered relatively few clients bedded down, mostly unknown individuals.

## 8th Ave bet 33rd St and 35th St

Outreach teams frequently canvass these two blocks of 8th Ave, which have historically been very active with panhandling and drug-related activity. Outreach teams continue to note significant presence around the nearby Duane Reade (34th St and 8th Ave) and McDonald's (8th Ave between 34th St and 35th St).

#### 8th Ave bet 31st St and 33rd St (General Post Office)

Outreach teams visit this location often and encounter a varied number of homeless individuals. Many of them are well-known to outreach staff and are engaged in the housing process or are working with other service providers. During the day, numerous individuals rest on the post office stairs. Recently, this section of 8th Ave has been less active at night.

#### Chelsea Park

Outreach teams visit this mainstay of homeless activity multiple times through out the day every day. During the day, there is a steady flow of transient homeless activity and at night handful of highly entrenched homeless individuals bed down regularly. In order to address a variety of obstacles toward housing, S2HM coordinates with several other social agencies to provide services to the homeless

#### 11th Ave and 48th St.

An encampment exists at this location that is occupied by an individual who has been highly entrenched on the street. Our outreach teams have been working with them toward accepting services over a long period of time and have been frequently monitoring their safety in the meantime

## 34th St bet 8th Ave and 9th Ave

Although homeless activity has decreased in comparison to the past, homeless individuals continue to be encountered, especially near the corner of 34th St and 8th Ave.

## 41<sup>st</sup> St bet 10<sup>th</sup> Ave and Dyer Ave

Homeless activity at this location fluctuated but has since decreased dramatically. Following increased S2HM outreach efforts and collaboration with community stakeholders, the location remains clear of encampments.

#### 39th St bet 9th Ave and 10th Ave

Outreach teams visit this area weekly and are working to connect the individuals randomly observed bedded down here to housing and other services.

#### 39th St bet 10th Ave and 11th Ave

Activity has greatly reduced in this once highly active encampment site. Outreach teams and case managers visited this location weekly and have reported a decline in homeless activity.

#### 38th St bet 9th Ave and 10th Ave

This once prominent encampment location has since been removed and a welcome location to unknown homeless individuals who are resistant to transitional housing services. Outreach teams are working to build rapport with these individuals to explore housing options available to them.

## Dyer Ave bet 34th St and 36th St

Outreach teams visit this active panhandling location often due to fluctuating homeless activity. More recently, a couple of clients bed down here overnight have received placement. Outreach teams regularly find placement for individuals who frequent this area and are working to locate appropriate placement for other individuals although drug use has remained a barrier in them accepting housing.

#### 31st St and 32nd St bet 6th Ave and 7th Ave

While these blocks have historically been a popular homeless location due to their proximity to the St Francis Church complex, the population bedded down here is significant. Overnight teams visit this location nightly and are working to connect clients to caseload services and transitional housing opportunities.

#### 30th St bet 9th and Dyer

Staff are continuing to work to connect the few individuals observed infrequently bedded down here to

housing and other services.

## 23rd St bet 7th Ave and 8th Ave

Outreach teams visits this encampment multiple times daily. While staff and supervisors have been working on housing with the entrenched clients bedded down at this location, S2HM management has joined with DHS and community leaders in exploring collaborative solutions.

## 6th Ave bet 23rd St and 29th St

S2HM remains vigilant around the persistent illegal vending and the homeless population attracted to this area, particularly between 23rd St and 24th St. Several individuals who regularly frequent this location have been working closely with outreach teams to overcome barriers to housing.
