New York, NY 10007

Dan Garodnick, Chair & Director
City Planning Commission & Department of City Planning
120 Broadway
New York, NY 10271

**Re: DEP Site (705 10th Ave) Proposed Affordable Housing Development
Under the Western Railyards Points of Agreement
ULURP Numbers
220337 ZSM
220338 ZSM
220339 ZRM
220340 HAM**

Dear Commissioner Carrión and Chair Garodnick,

After referral on April 6th, 2022, from the NYC Department of City Planning to Manhattan Community Board 4, the Clinton / Hell's Kitchen Land Use (CHKLU) Committee held public meetings on the above referenced ULURPs on November 24th, 2020, April 13th, 2022, and May 11th, 2022. At its regularly scheduled Executive Committee meeting on May 23rd, 2022, the Officers and Committee Chairs of MCB4 reviewed the position of the CHKLU Committee and referred the full matter to the Board for review, discussion and vote.

The public actions through ULURP include:

- Zoning Special Permit, ULURP #C220337ZSM
- Zoning Special Permit, ULURP #C220338ZSM

- Zoning Text Amendment, ULURP #220339ZRM
- Urban Development Action Area, ULURP #C220340HAM

The proposed mixed-use, eight-story building would provide approximately 157 permanently affordable units, a community arts and culture facility, and a public comfort station accessible from the DEP Owned, Parks Department Operated, Public Open Space. The Development Team includes Douglaston, the Actor’s Fund, and New York City Department of Housing Preservation and Development (HPD).

HPD and the Development Team proposed the following unit breakdown:

AMI Tier	Income Range	Rent Range	Percentage of Units	Number of Units
Homeless Referrals	\$0 -\$32,211	\$215 -\$512	15%	23
50% AMI	\$28,834 -\$74,000	\$768 -\$1,322	25%	40
80% AMI	\$47,211 -118,400	\$1,305 -\$2,252	20%	31
120% AMI	\$61,337 -\$177,600	\$1,717 -\$2,966	30%	47
130% AMI	\$73,611 -\$192,400	\$2,075 -\$3,587	10%	16
			Total*	157

*1 super’s unit not included in total

With that breakdown, only 40% of the units would be middle/moderate income housing, or less than half of what the Mayor and City Council agreed to after working with the Board and the Hell’s Kitchen community on the 2009 Western Railyard Points of Agreement (“WRY POA”).¹

The Board at its June 1st, 2022, full Board meeting, voted 38 in favor, 3 opposed, 5 abstaining and 0 present but not eligible:

To deny the ULURP applications unless modifications are made, in accordance with the conditions as noted in the broad principles below, and specifically detailed under each ULURP action, as noted in this letter.

The broad principles are:

Affordability Mix

- **Redistribute the 25% of apartments, 40 units, currently at 50% AMI among the 80%, 120% and 130% AMI bands to make the income mix more consistent with the terms of WRY-POA.**
- **The revised AMI bands have no gaps from 80% to 165% income ranges.**
- **The homeless referral units are set aside for family households, not individuals.**

¹ Appendix A. Western Railyard Rezoning Points of Agreement- December 10, 2009

Special Permit Under Zoning Resolution (ZR) § 74-681

- **Community supports the Special Permit pursuant to ZR § 74-681** (Development within or Over a Railroad or Transit Right-of-Way or Yard) to develop the Proposed Development over an Amtrak rail cut and right-of-way.
- **The required rear yard waiver can be accomplished under this Special Permit**, not the newly proposed 96-112.

Special Permit Under ZR § 96-104

- **Community supports the Special Permit pursuant to ZR § 96-104 action in a modified version**, pursuant to ZR § 74-681. Given that the City Planning Commission has granted waivers in the past under this Special Permit for height, setback and street wall compliance for a building over a rail right of way, MCB4 would support a similar rear yard waiver under ZR § 74-681 for this development.

Special District Text Changes

- **The current zoning text provisions of height and setback and for bulk modifications should not be modified.**
- **Create extremely limited zoning text amendments to ZR § 96-104 for height and setback** with restrictive language, except for portions of publicly owned zoning lots adjacent to a mass transit or water supply support facility conveyed to private entity for a publicly financed affordable housing development (Appendix F).

Disposition of Negative Easement on the DEP Owned, Parks Department Operated, Public Open Space Area and Light and Air for the Proposed Development

- That easement is not enough to protect and preserve the DEP Owned, Parks Department Operated, Public Open Space in perpetuity. In addition to adequate building separation for light and air, the entire DEP Site, being developed as a 25,000 square foot public open space **must have a deed restriction to limit its use as permanent DEP Owned, Parks Department Operated, Public Open Space.**
- That deed restriction must also **define a maximum square footage and height for any DEP service structures anticipated or planned in the future.**

Public DEP Owned, Parks Department Operated, Public Open Space Amenities

- MCB4 supports the inclusion of a Department of Parks and Recreation (DPR) Public Comfort Station and DPR maintenance room in the proposed project.

Social Services

- MCB4 request the Actors Fund and the Development Team **develop and present a Social Service Plan to MCB4 to provide essential services to those households, including staffing, to ensure those families success in our community.**

MCB4 urges HPD and the Development Team to engage with the Board and the Hell’s Kitchen community to resolve these issues as the proposed development moves through the ULURP process.

PROPOSED PROJECT

The proposed project is in an R8 zone (with a C2-5 ground floor overlay) and would be built primarily above the Amtrak railroad cut between West 48th and West 49th Streets just west of Tenth Avenue. It would face the proposed DEP Owned, Parks Department Operated, Public Open Space on the DEP site off Tenth Avenue between 48th and 49th Streets. The maximum building height in the Preservation Area part of the Special Clinton District is 66 feet. The 2009 WRY POA agreed to the grant of a Special Permit under ZR Section 96-104 (c), which would allow the building height to rise to 77 feet.

Unit Mix

The 2009 WRY POA stated that 50% of the units would accommodate two- and three-bedroom units². The Project’s proposed unit mix is consistent with that agreement:

Unit Type	Percentage of Units	Number of Units
Studio	23%	36
1-Bedroom	27%	42
2-Bedroom	41%	64
3-Bedroom	9%	15
	Total*	157

*1 super’s unit not included in total

Homeless Set Aside

The Mayor’s Office has mandated that 15% of new housing on City-owned sites be set aside for homeless referrals. The Board and the Hell’s Kitchen community fully understand the compelling need for such housing. Hell’s Kitchen is a community that prides itself on its acceptance, concern, and compassion for all New Yorkers.

² Appendix A. Western Railyard Rezoning Points of Agreement- December 10, 2009, page 3: "HPD's RFPs will contain the following requirements: . . . 50% two or more bedroom units . . . "

HISTORY

In 2009, as part of the Western Rail Yards Rezoning, the City committed to develop affordable housing on two City-owned sites: the Metropolitan Transportation Authority (MTA) site (Ninth Avenue at 54th Street) and the Department of Environmental Protection (DEP) site (Tenth Avenue, 48th-49th Streets).

This commitment was achieved through robust negotiations among the community, MCB4, the City Council, and the City.

Vital Need for Moderate & Middle-Income Housing

The vast majority of the affordable units produced under the Hudson Yards Points of Agreement (“HY POA”)³ through Inclusionary Housing, have been for low-income households. In the Hudson Yards and Western Railyard Rezoning, the community’s concern was to maintain economic integration. Therefore, both the HY POA and the WRY POA⁴ contained commitments to produce affordable housing for a range of incomes: low, moderate, and middle. In fact, the Harborview NYCHA site, the Studio City site (now known as Gotham West), Site M (commitment now transferred to the Slaughterhouse site), and in the WRY POA, the DEP, MTA, and West 20th Street site (that commitment now transferred to the Slaughterhouse site), all note a range of incomes up to 60-165% AMI.

Honoring the WRY POA Still Expected

The agreed upon AMI mix was stated in multiple MCB4 letters to HPD from 2015 – 2017⁵, as well as in MCB4’s Affordable Housing Plan.⁶ MCB4 and HPD worked together to develop the provisions in HPD’s Requests for Proposals for the DEP and MTA sites. MCB4’s presentation regarding these sites was included as a link for all prospective developers to review.⁷

In 2019, HPD, with no notice or discussion with the Hell’s Kitchen community or MCB4, announced that the DEP site would include a majority of low- and very-low-income units, with a substantial homeless component. In March of 2020, the Speaker of the City Council was informed by Board leadership that this was unlikely to be acceptable to the community. The Board reiterated that it expected the City to honor its 2009 commitment.

⁶ [MCB4 Affordable Housing Plan, originally adopted in 2015 and revised annually through 2019, pages 57-58.](#)

⁷ [MCB4 2018 Letter to HPD Re: DEP and MTA Affordable Housing Sites](#), for the MTA & DEP Sites: 806 9th Avenue & 705 10th Avenue, Permanent Affordable Housing & Open Space Presentation, see pages 7-22.

The community does not support the proposed AMI mix and requests modifications to better reflect the Western Railyards Points of Agreement and the community need for economic diversity.

As part of the Western Railyards rezoning, this development site was designated for affordable housing for moderate- and middle-income house households between 80% to 165% AMI. The Mayor and City Council memorialized this commitment in the WRY POA document executed between the Mayor and the City Council on December 10, 2009⁸. In a related ULURP Action in 2009, MCB4 supported⁹ the UDAAP designation, #C090423HAM, project approval and disposition of City-owned block 1044 p/o lot 3, as part of the mitigation measures agreed to in the major upzoning of the 3-block Western Railyards.

During that ULURP action, MCB4 recognized the ongoing need for both low-income and supportive housing in negotiating the WRY POA.¹⁰ Therefore, other sites in the WRY POA, called for low-income and supportive housing. Specifically:

- The preservation of 150 units of SRO housing
- The preservation of low-income housing, at three Section 8 buildings¹¹ owned by the Related Companies, on West 30th, West 47th, and West 48th Streets, for a total of 263 units
- The preservation of low-income housing, at two 80/20 buildings owned by the Related Companies, on West 23rd and West 55th Streets, for a total of 140 units
- The construction of 166 low-income apartments on the Eastern Railyards
- The construction of 265 low-income apartments on the Western Railyards

Those Section 8 buildings' affordability requirements have been extended for an additional 30 years, the 80/20 apartments have been made permanently affordable and the Eastern Railyard apartments have been built. 112 units of SRO preservation were completed through supportive housing at 330-332 West 51st Street in a development by the Lantern Group (of the 132 units produced, 67 were for homeless individuals). In total, 701 low-income apartments have been preserved or produced to date. However, **not** one unit of moderate- and middle-income housing has been built as part of the Western Railyards Rezoning Points of Agreement.

At the Clinton/Hell's Kitchen Land Use Committee meeting on November 24th, 2020, HPD proposed that the majority of the units would not provide housing for moderate/middle income levels as promised. At the CHKLU Meeting on April 13th, 2022, HPD presented their changes – decreasing the units at 120% AMI from 40% to 30% and adding 10% of units at 130% AMI.

This development site, reserved for moderate- and middle-income housing, is now proposed to contain 60% low-income housing, with 95 of the 158 apartments for households between 0% and 80% AMI and 24 apartments of 158 will be reserved for the formerly homeless. The goal of the

⁸ Appendix A. Western Railyards Rezoning Points of Agreement - December 10, 2009

⁹ [MCB4 Letter to CPC re Western Rail Yard Offsite Affordable Housing Sites – July 27, 2009.](#)

¹⁰ Appendix B. Western Railyards Affordable Housing Production (completed and in construction as of 2021)

¹¹ Appendix A. Western Railyards Rezoning Points of Agreement - December 10, 2009, page 27

WRY POA was to ensure an economically diverse community, not to favor one income group over another. The feedback from the community was clear: the revised AMIs were unacceptable.

Furthermore, well beyond the WRYPOA, MCB4 continues to encourage the development of both Low-Income and Supportive Housing in the District. From 2018 to 2021, MCB4:

- Initiated and supported the inclusion of 75 Supportive Housing apartments to be a component of the Slaughterhouse site redevelopment at 495 11th Avenue
- Supported inclusion of 23 Supportive Housing apartments (for LGBT homeless and seniors) as part of the preservation of the Hartley House settlement house at 413 West 46th Street
- Supported the preservation of 454 West 35th Street, (currently 55 Supportive Housing apartments) and an addition of 14 more units, for a total of 69 Supportive Housing apartments serving senior citizens including the homeless, the mentally ill and community residents.¹²
- Supported Inclusionary Housing at five sites containing 568 affordable apartments ranging from 40% to 125% AMI, the majority, 353 units or 62%, are at below 60% AMI.¹³

MCB4 continues to welcome a diversity of incomes and those with social service needs, as long as developments are thoughtfully and carefully sited in consultation with the community. The consensus of community feedback was that the City was not living up to either the letter or the spirit of the agreement to provide middle/moderate income housing for the community.

As HPD knows, MCB4 developed one of the most comprehensive, far-sighted, achievable, affordable housing plans in the entire city. The Board and the community on its own have identified affordable housing sites and worked with City agencies until they became a reality. For example, MCB4 and the community identified the Slaughterhouse site on West 39th Street and Eleventh Avenue and pressed for almost a decade for it to become a 100% affordable housing development with hundreds of low-, moderate-, and middle-income units.

HPD must also recognize that the Special Clinton District was created “to preserve and strengthen the residential character of a community bordering Midtown and maintain a broad mix of incomes.”¹⁴ Development has produced market-rate housing and low-income housing through Inclusionary Bonuses. However, this community and this city needs to serve those New Yorkers in the middle who are left out, with the production of moderate- and middle-income housing.

¹² Appendix C. New Supportive Housing Projects Supported by the MCB4—2019 to 2021

¹³ Appendix D. Inclusionary Housing Sites in MCD4 from 2018-2021

¹⁴ [Special Clinton District Zoning Resolution](#), 96-00 General Purposes section.

Modified AMI Mix and Homeless Set Asides

AMI Mix

The Board requests that the Development Team redistribute the 25% of apartments, 40 units, currently at 50% AMI among the 80%, 120% and 130% AMI bands. That action would make income mix more consistent with the terms of WRY POA. MCB4 understands that reallocation of income bands may require additional capital financing from HPD. To accomplish that aim, MCB4 asks the HPD and the Development Team to access a portion of the \$40 million cited and allocated in the City capital budget as part of the WRY POA.¹⁵

Homeless Set Asides and Unit Distribution

HPD should be aware that Hell’s Kitchen has one of the densest concentrations of formerly homeless residents, homeless shelters, homeless temporary shelters, and supportive housing in the entire City. Within the immediate vicinity of the proposed development — on West 46th, West 47th, West 48th, West 49th, and West 50th Streets — there are several permanent residences (164 units) and social service facilities (80 units) for homeless individuals and families. Furthermore, the Skyline Hotel, on 49th and Tenth Ave, housed homeless families until the City precipitously moved out 63 families and replaced them with 300 single men from congregate shelters without adequate social service support. Nevertheless, MCB4 supports the inclusion of 23 homeless set asides for family households.

While the proposed project meets the mandated 15% homeless set aside, the initial homeless set aside apartment locations were presented as segregated in certain apartment lines and concentrated in studios and one-bedrooms. Furthermore, the majority of those apartments faced the interior courtyard, rather than the street or the 10th Avenue DEP Owned, Parks Department Operated, Public Open Space with views that allow for greater light and air.

For the homeless set aside, MCB4 requests that apartment be reserved for family households in one and two-bedroom apartments, instead of studios for individuals.

Further, MCB4 requests that Homeless apartments should be distributed throughout the building, on all street, courtyard and park exposures, instead of concentrated in a single apartment line to promote integration of those households into the new building’s community.

MCB4 requests that HPD and the Development Team to detail the referral protocol for homeless apartments.

DEP Site ULURP Actions

The Land Use Actions needed to facilitate the proposed development will require approval of the following Proposed Land Use Actions:

¹⁵ Appendix A. Western Railyards Points of Agreement - December 10, 2009, page 2

- Special Permit Pursuant to ZR Section 74-681 (Development Within or Over a Railroad or Transit Right-Of-Way or Yard)
- Special Permit Pursuant to a new ZR Section 96-112
- Zoning Text Amendment to Establish a new City Planning Commission Special Permit
- Disposition of Negative Easement on the DEP Owned, Parks Department Operated, Public Open Space Area; and Disposition of City Owned Property (Light and Air Easement)

ULURP #C220337ZSM– Zoning Special Permit, ZR §74-681

Community supports this action in a modified version.

City’s Proposal

Special Permit pursuant to ZR § 74-681 (Development within or Over a Railroad or Transit Right-of-Way or Yard) to develop the Proposed Development over an Amtrak rail cut and right-of-way.

City’s Stated Reason

The City is proposing to completely cover an existing and operational below-grade railroad right-of-way on the site with a platform and to include the completely covered area in the lot area for the Proposed Development on the site. Amtrak has reviewed the schematic designs of the Proposed Development and takes no exception to the concept embodied by the Proposed Development.

Community Response

Community supports this action modified to include the needed rear yard waiver.

ULURP #C220338ZSM– Zoning Special Permit, pursuant to ZR § 96-112

Community supports this action in a modified version.

City’s Proposal

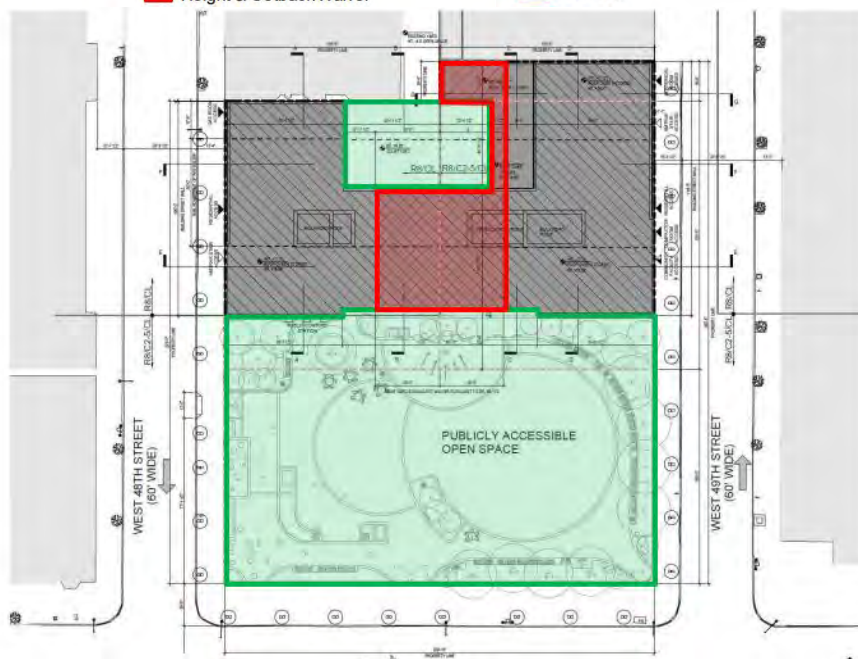

Height, Setback & Rear Yard Waivers

Special Permit pursuant to ZR § 96-112, as established by the proposed Text Amendment to:

- Modify height and setback regulations set forth in ZR § 96-104 (Height and Setback Regulations) on the Development Site; and
- Modify rear yard equivalents as set forth in ZR § 96-103 (Yard Regulations) on the Development Site.

■ Height & Setback Waiver ■ Waivers

■ Rear Yard Waiver ■ Proposed Inner Courtyard / Publicly Accessible Open Space

City's Stated Reasons

Height & Setback Waivers

To construct Rialto West as currently designed, ZR § 96-104 requires a maximum of 66 feet beyond 100 feet from a wide street in the Special Clinton District. The Proposed Development will be constructed to a height of 77 feet (eight stories) with an approximately one-foot setback above the sixth floor along both the West 48th Street and West 49th Street facades to create visual continuity with the adjacent buildings. The Proposed Development height modification adds 11 feet to the maximum building height permitted as-of-right and is below the maximum 99-foot

height permitted by the special permit. The proposed height aligns with the stated priorities of the Western Railyard Rezoning Points of Agreement.

Rear Yard Waiver

The siting of the affordable housing is directly due to the presence of the existing public infrastructure, namely the maintenance shaft way for Water Tunnel No. 3, and the planned DEP Owned, Parks Department Operated, Public Open Space of approximately 25,000 SF on the eastern portion of the site. With that parameter, the proposed new building's bulk is concentrated on the western portion of the Project Area, where a rear yard equivalent would be required on the through-lot portion of the site.

Therefore, a waiver of rear yard equivalent requirements is needed due to the location of existing public infrastructure. Without the rear yard waiver, there would be a loss of approximately 35 units, making the proposed affordable housing project financially infeasible.

Community Response

Height & Setback Waivers

MCB4 supports the height and setback waivers as proposed, however under the current text of 96-104, not the proposed newly created Section 96-112.

Rear Yard Waivers

This rear yard waiver can be accomplished under Special Permit pursuant to ZR § 74-681 (Development within or Over a Railroad or Transit Right-of-Way or Yard). MCB4 has reviewed and approved 505-513 West 43rd Street, PS51 Affordable Housing Site (W. 44th St & 11th Ave), 505 West 47th St, and Clinton Green (51-53rd Streets, West of Tenth Avenue at 500, 502, 506-510 West 53rd Street), under that Special Permit above the Amtrak cut west of Tenth Avenue from West 43rd to West 53rd Streets. Given that the City Planning Commission has granted waivers in the past under this Special Permit for height, setback and street wall compliance for building over a rail right of way, MCB4 would support a similar rear yard waiver under ZR § 74-681 for this development.

ULURP #N220339ZRM – Zoning Text Amendment to establish a new City Planning Commission Special Permit ZR Section 96-112)

The community does not support this action.

City's Proposal

Zoning Text Amendment to establish a new City Planning Commission ("CPC") Special Permit section (ZR Section 96-112) to consolidate the existing special permit provision under 96-104 for height and setback and additional allowance for other bulk modifications applicable to the Development Site.

City's Stated Reason

The City proposes to consolidate existing CL height and setback waiver into a single section (ZR § 96-112), in order to add a provision to allow CPC to modify, by Special Permit, bulk regulations (except FAR) for development subject to CL Preservation Area regulations.

Zoning lot must meet three conditions to qualify for bulk waivers:

1. Be at least 40,000 SF;
2. Front on a wide street; and
3. Contain existing public infrastructure.

Only two sites meet these conditions: the DEP site and the MTA site.

The text amendment creates four findings:

1. Difficulties in complying with bulk regulations;
2. Not obstructing access to light and air;
3. Scale and placement relates harmoniously with surrounding area; and
4. Reasonable in relation to difficulties on the site.

Background on Proposed Special District Rezoning & Text Changes

After the New York City Convention Center¹⁶ had been announced in 1972, the area was subject to major developer speculation, vacating of tenants from fully occupied residential buildings and demolition. As a result of those actions to protect and preserve the Clinton / Hell's Kitchen residential neighborhood, the City of New York established the Special Clinton District in 1973 to preserve existing housing and prevent the commercialization of the Clinton/Hell's Kitchen District. In the General Purposes section of the New York City Zoning Resolution, Section 96-00, Special Clinton District, one of the main goals stated is to: "(a) to preserve and strengthen the residential character of the community."¹⁷

In consideration that these proposed changes were under review for a minimum of 6-8 months in preparation for an Environmental Impact Assessment and the Uniform Land Use Review Procedure (ULURP) process, it is unconscionable that DCP and HPD would brief MCB4 in December, only weeks before a proposed ULURP Certification. That lack of briefing and collaboration, in itself, on proposed rezoning and Special Clinton District text changes, breaks precedent in the DCP's 48-year collaborative and working relationship with MCB4.

The Special Clinton District is a carefully crafted zoning document that has been the bulwark of neighborhood preservation of the Clinton/Hell's Kitchen area for decades. Private and public sector developers have always met in advance and discussed proposed changes to the Special Clinton District, 9-12 months prior to making actual proposals. The DCP, developers and the Community Board would then hash out the details of any proposed changes, working together to severely limit their applicability to enable development of a site without creating district-wide precedent.

When public sites have been involved, whether they be small-scale, such as a Fountain House residence, at 441 West 47th Street, requiring a text change for community facility use or large-

¹⁶ Originally sited for the West Side piers between West 43rd to West 47th Streets.

¹⁷ [Chapter 6 - Special Clinton District \(CL\)](#)

scale, such as the development of the Gotham West project at 592-608 11th Avenue, 507-553 West 44th Street, and 508-558 West 45th Street, nearly an entire city block, creating 1,250 units DCP has always met with Board for months in advance. In those meetings, DCP has always worked with the Board to arrive at an agreement for the minimal changes needed for rezoning and/or text changes. MCB4 has always been exceptionally flexible with text changes needed to develop permanently affordable housing.

Proposed Clinton Special District Zoning Text Changes

Since 1973, there have been only three types of Special Permits allowed in the Clinton Special District:

- Under Section 96-104 for height and setback in the Preservation Area
- Under Section 96-108 for demolition of buildings in the Preservation Area
- Under Section 96-23 for changes to height and setback in the Perimeter Area

The Special Permits under Section 96-104 and 108 have existed since the initial adoption in 1973, and Section 96-23 since 2011. In the District's 48-year history, there has been one application for demolition under Section 96-108, three applications under Section 96-104 for height and setback, and only two granted. There have been no applications under Section 96-23.

The application of a Special Permit under Section 96-104 for increase in height and setback, at both the DEP and MTA affordable housing sites was the subject of serious community controversy at the time of the WRY Rezoning and a compromise regarding limitations to those permits was reached and embodied in the WRY POA. MCB4 continues to support the use of those permits at the DEP and MTA Sites.

The proposed text changes seek to consolidate the existing special permit provision under 96-104 for height and setback and additional allowance for other bulk modifications applicable to the Development Site. These proposed changes would apply for the entire Preservation Area from West 43rd to West 56th Streets, 100 feet west of Eighth Avenue, to an irregular boundary west of Tenth Avenue. The proposed text changes are far reaching and create an ability for more density and less light and air on surrounding blocks.

Community Response

MCB4 does not agree with the establishment of a Preservation Area-wide Special Permit provision, the result of which would be to undercut that long-stated zoning requirement to preserve light and air for residents. The current zoning text provisions of height and setback and for bulk modifications should not be modified.

Community Proposed Alternative Action

Create extremely limited zoning text amendments to **ZR § 96-104 for height and setback** with restrictive language, except for portions of publicly owned zoning lots adjacent to a mass transit or water supply support facility conveyed to private entity for a publicly financed affordable

housing development (Appendix F).

ULURP #C220340HAM – Urban Development Action Area designation of the Project Area and Urban Development Action Area Project approval of the Proposed Project

Community supports this action.

City’s Proposal

Designation of an Urban Development Action Area and Approval of an Urban Development Action Area Project.

City’s Stated Reason

The Project Area consists of underutilized property, which tends to impair the development of the surrounding community, with or without tangible physical blight. The Project Area is therefore eligible to be an Urban Development Action Area and the Proposed Project is therefore eligible to be an Urban Development Action Area Project pursuant to Article 16 of the General Municipal Law.

Community Response

Community supports this action.

Disposition of Negative Easement on the DEP Owned, Parks Department Operated, Public Open Space Area and Light and Air for the Proposed Development

Community supports this action in a modified version.

City's Proposal

The disposition of a negative easement on the DEP Owned, Parks Department Operated, Public Open Space Area.

Disposition of a permanent easement on the DEP Owned, Parks Department Operated, Public Open Space Area for the benefit of the Development Site to for the purposes of light and air for the Proposed Development.

City's Stated Reason

The City seeks to dispose of a negative easement to allow the approximately 39,590 square feet of unused development rights from the DEP Owned, Parks Department Operated, Public Open Space Area to be used by the Proposed Development on the Development Site, and to restrict the City from constructing any permanent structures on the Open Space Area within thirty (30) feet of the Development Site to provide light and air for the Proposed Development.

History--DEP Owned, Parks Department Operated, Public Open Space Commitment

Since 1994, when the Third Water Tunnel West 48th Access Shaft site at 705 Tenth Avenue was announced, MCB4 has advocated for permanent use of the entire DEP Owned space as public open space. DEP vacated the Third Water Tunnel Access Shaft access site in October 2016 and since then has been working with MCB4 and Department of Parks to develop the site.

This site requires special consideration for the security of the City's water, including continuous access to the underground access shaft facility by DEP personnel. The 100 feet by 60 feet (0.58 acre) portion of block front on Tenth Avenue will be developed and will function as a public park, remaining DEP Owned and Parks Department Operated. The Public Open Space will not be mapped as a public park due to DEP's access requirements for water tunnel maintenance.

In June 2017, MCB4 requested a permanent easement for unobstructed light and air from the DEP water access tunnel site to the east of the affordable housing development, which is included by reference in the Clinton/Hell's Kitchen RFP at 806 9th Avenue and 705 10th Avenue for Permanent Affordable Housing and Open Space.¹⁸ There is, however, still no current or proposed mechanism to ensure the entire DEP Owned, Parks Department Operated, Public Open Space is maintained in perpetuity as public open space.

Comfort Station & Maintenance Room

Both Hell's Kitchen Park, diagonally southeast of the DEP Site, and the future DEP Owned, Parks Department Operated, Public Open Space lack the basic amenity of a comfort station. Due

¹⁸ [MCB4 Clinton/Hell's Kitchen RFP Requirements](#) and [HPD Clinton/Hell's Kitchen RFP \(April 2018\)](#)

to DEP water tunnel access requirements, no structures may be built on the site that typically service public open spaces.

Community Response

That easement is not enough to protect and preserve the DEP Owned, Parks Department Operated, Public Open Space. The proposed easement action protects only light and air for the proposed building, not for the DEP Owned, Parks Department Operated, Public Open Space. It does not ensure permanent public open space protection.

In addition to adequate building separation for light and air, **the entire DEP Site, being developed as a 25,000 square foot DEP Owned, Parks Department Operated, Public Open Space must have deed restriction to limit its use as permanent public open space.**

Furthermore, that deed restriction must also define a maximum square footage and height for any DEP service structures anticipated or planned in the future.

Public DEP Owned, Parks Department Operated, Public Open Space Amenities

MCB4 supports the proposed to include a public restroom as well as a small support space, including a janitor's sink and electricity, for NYC Parks Department staff in the proposed affordable housing building. That facility will be accessible from the DEP Owned, Parks Department Operated, Public Open Space.

The full Public Open Space Easement must be settled and agreed as part of this ULURP.

Non ULURP Development Matters

Facade Design

MCB4 supports the façade design. The Board appreciates that the Development Team has sought to integrate the building into its surroundings, rather than making a design statement based on current trends. The developer has integrated surrounding Hell's Kitchen industrial vernacular of large, punched window openings and historic use of red brick found in many industrial and factory buildings west of Tenth Avenue.

Ground Floor Community Facility Space

The community facility space will be approximately 6,130 SF. The Actor's Fund will integrate arts and culture into the community by creating a long-term cultural asset. IndieSpace, will be the Community Facility tenant. Their mission is to create permanent real estate solutions for the independent theater community by delivering affordable creative space for diverse performing artists along with supportive programming.

Non ULURP Operational Matters

Amenities

The proposed Project's amenities include a laundry, fitness room, children's playroom, and bike room. A 2,750 SF landscaped inner courtyard will be accessible to all tenants. MCB4 supports these amenities.

Social Services—Homeless Households

The community recognizes that the development will contain 23 apartments for homeless set aside. Households coming from DHS shelters need social services to reclaim their lives, integrate into the community and maintain stability. The Actor's Fund stated there are no on-site services planned. MCB4 request the Actors Fund and the Development Team develop and present a Social Service Plan to MCB4 to provide essential services to those households, including staffing, to ensure those families success in our community.¹⁹

Conclusion

MCB4 notes the above recommendations and comments reflect the complex, detailed and long history of the proposed affordable housing development on the DEP Site. MCB4 yet again seeks compromise in bringing this project to fruition. Our positions are taken, not in isolation, but in the context of the entire community and reflect 13 years of negotiation to secure economically diverse affordable housing on a prominent site on our community's main street, Ninth Avenue. For decades, MCB4 has supported and will continue to support both Low-Income and Supportive Housing.

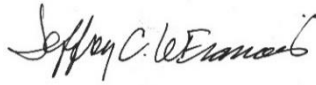

The DEP site is but one component of 11 affordable housing sites agreed to be preserved or constructed as part of the WRYPOA. In negotiating affordable housing mitigation for the Hell's Kitchen community as part of a major upzoning of the Western Railyards, MCB4 sought to preserve economic diversity in affordable housing throughout the District with both off and on-site preservation and construction. Those affordable housing sites range from West 23rd to West 56th Streets. The result of that negotiation was embodied in an enumerated, detailed letter dated December 10, 2009, to then City Council Speaker Quinn signed by then Deputy Mayor Robert Lieber and Jay Cross, Vice President of the Related Companies.

Commitments made cannot be commitments discarded. The residents of neighborhoods, such as Hell's Kitchen, have put their trust in City government, and their elected officials, working in good faith and seeking compromise, often painful, to balance the greater good of the City and the effect on the local neighborhood.

MCB4 asks the City of New York to uphold its written commitments in that 2009 letter and embody them in the final approval of these ULURPs.

¹⁹ The Actor's Fund stated a portion of the proposed community facility space could be used for on-site social service program needs; this matter needs to be agreed to in this ULURP process.

Honorable Christine Quinn
Speaker
New York City Council
City Hall
New York, N.Y. 10007

Re: Western Rail Yard Rezoning Plan- City Council ULURP Actions

Dear Speaker Quinn:

Please find attached to this letter a "Points of Agreement" reflecting recent discussions among the City Council, the Administration and the Related Companies, representing the interest of RGWRY LLC, regarding the City Council's review of the Western Rail Yard Rezoning, a project which encompasses both the rezoning of the Western Rail Yard site itself as well as the provision of off-site affordable housing at two locations.

In addition to items which reflect modifications made by the City Council with respect to the ULURP actions and the associated restrictive declaration, a number of the items set forth in the "Points of Agreement" reflect commitments to future action by the Administration, while others reflect commitments to future action by the Related Companies. The Administration and the Related Companies are each providing you with this letter in acknowledgment of their respective commitments.

With respect to certain of the items described in the "Points of Agreement", implementation is subject to further review under applicable procedures, including land use and environmental review, and the receipt of additional approvals. In other cases, implementation is contingent upon the availability of funding and financing support or determinations by State or federal agencies. In all such cases, the Administration and the Related Companies, with respect to their respective commitments, will work diligently with your cooperation to achieve the goals stated in this "Points of Agreement".

We look forward to continuing to work with you and your colleagues as this project progresses towards the transfer of the Western Rail Yard site from the MTA to the Related Companies, and implementation of all the items in the "Points of Agreement" associated therewith.

Sincerely,

POINTS OF AGREEMENT
Western Rail Yard Rezoning
December 10, 2009

I. ANTI-DEMOLITION COMMITMENTS

- (a) Anti-demolition Language: The Administration and the City Council recognize that with the construction of the Number 7 Line Subway underway and scheduled for completion by 2014, and completion of the Hudson Yards Park and Boulevard, scheduled for completion by 2014, the conditions will be in place for the substantial development forecasted in the 2004 Hudson Yards FGEIS and the 2005 West Chelsea FEIS to occur. The Administration and the City Council acknowledge the community's concerns that the growth forecasted for the Hudson Yards and adjacent areas, should it occur, could result in development pressures that may affect tenement housing that has historically provided an affordable housing resource for residents. To address these concerns, additional measures are warranted to facilitate the preservation of existing housing stock. For this purpose, the Administration agrees to support a zoning text amendment for Subareas D4 and 5 of the Special Hudson Yards District, Preservation Area P-2 of the Special Garment Center, and the Special West Chelsea District (the " Zoning Text Amendment"), in the form annexed hereto as Exhibit I.
- (b) Referral of Zoning Text Amendment: The Department of City Planning ("DCP") commits to refer the Zoning Text Amendment for public review by no later than July 1, 2010. Council Member Quinn agrees to support the Zoning Text Amendment in the form annexed hereto as Exhibit I.

2. AFFORDABLE HOUSING COMMITMENTS: WESTERN RAIL YARD ("WRY") AND EASTERN RAIL YARD ("ERY")

- (a) Related commits to build a minimum of 265 permanently affordable rental units ("Affordable Units") on the WRY and an additional minimum of 166 Affordable Units on either the WRY or ERY, in either rental or condominium buildings, for a total of 431 Affordable Units combined, contingent upon:
- (i) Availability of a tax abatement program comparable to existing tax abatement programs for either rental units or condominiums, including 20 year abatement for condominium with 20% Affordable Units;
 - (ii) Availability of tax-exempt bonds to fully finance the construction of the 80/20 rentals that Related chooses to develop to fulfill its commitment; and,
 - (iii) At the expiration of the initial real estate tax program, WRY & ERY Affordable Units will convert to permanent affordability to households at an average income of up to 90% AMI, not to exceed 125% AMI, provided that there are incentives, programs, exemptions, credits or abatements available

that will reduce the real estate taxes for the 80/20 buildings to a level consistent with real estate taxes paid prior to any phase out of the real estate tax abatement in the initial 421-a program for the building. No restrictions shall apply to the market rate units as rentals or as a conversion to condominiums after the initial 421-a real estate tax exemption period.

- (b) With respect to the distribution of Affordable Units within any 80/20 rental component of a building, Related commits to the following:
 - (i) A maximum of 50% Affordable Units on any floor; and,
 - (ii) At least one Affordable Unit on 80% of the floors included within the 80/20 rental components (assuming there are enough Affordable Units planned for at least one per floor, otherwise one per floor for as many floors as there are Affordable Units).

3. AFFORDABLE HOUSING OFF-SITE COMMITMENTS

- (a) The Department of Housing Preservation and Development (“HPD”) commits to issuing Requests for Proposals (“RFPs”) for the development of affordable housing on the City-owned sites at West 54th Street and 9th Avenue, which is under the leasehold control of the Metropolitan Transportation Authority (“MTA”), and West 48th Street and 10th Avenue, currently occupied by the Department of Environmental Protection (“DEP”) in connection with the construction of Water Tunnel No. 3. The City reiterates its commitment to propose, and Council Member Quinn reiterates her commitment to support, the provision in the City capital budget of the sum of \$40 million to construct or otherwise create new affordable housing units off-site.

HPD’s RFPs will contain the following requirements:

- (i) A height cap restriction that the local Council Member and Community Board 4 (“CB4”) understand will result in the creation of an estimated 267 units. Without the height cap restrictions, these sites would generate 312 units. The height on the DEP site will not exceed 77 feet. The height on the MTA site will not exceed 85 feet on 9th Avenue, and 99 feet on the midblock;
 - (ii) An AMI mix of 165% or under;
 - (iii) 50% two or more bedroom units; and,
 - (iv) Permanent affordability.
- (b) HPD will share the program overview with CB4 before releasing the RFPs for the off-site housing developments.
 - (c) The Administration agrees that the MTA and DEP sites will not generate an Inclusionary Zoning bonus under NYC Zoning Resolution Section 23-90, and

acknowledges that they cannot serve as the Cure for Anti-Harassment under NYC Zoning Resolution Section 96-110.

- (d) The Administration, in the attached letter from Deputy Mayor Edward Skyler dated December 10, 2009 and annexed hereto as Exhibit 2, commits to make a best effort to vacate the Department of Sanitation (“DSNY”) facilities located at 136-140 West 20th Street with a goal of completing the relocation by December 31, 2011. If DSNY is relocated from its West 20th Street facilities, HPD commits to develop the site for affordable housing at a range of incomes up to 165% AMI. In the event that DSNY is not relocated, the local Council Member and CB4 acknowledge that HPD will not be expected to make up for those units anywhere else.
- (e) SRO Preservation: HPD will work with the local Council Member and CB4 to preserve up to 150 units of privately owned SRO housing. The Council Member and CB4 acknowledge the difficulties inherent in and lengthy timeframe needed to accomplish these private acquisitions. To the extent that such acquisition(s) can be negotiated, HPD will use its programs to acquire and rehabilitate these SRO units.
- (f) HPD commits to providing CB4 with quarterly updates on the affordable housing developments that were committed as a part of the Hudson Yards and West Chelsea rezonings.
- (g) Related commits that it will seek two extensions of federal rental subsidy to its existing Mark Up to Market Project Based Section 8 HUD Contracts (or a comparable successor program) for a period of no less than 40 years from City Council approval of the WRY rezoning, for its properties known as Terrific Tenements (at 525 West 47th Street and 425 West 48th Street) and the French Apartments (at 330 West 30th Street). Related will apply for the initial extension no later than March 31, 2010. The current maximum extension is a 20 year period, and if granted, will expire in 2030. Related will then seek additional extensions totaling an additional 20 year period. Related will diligently pursue all necessary approvals to seek such extensions, provided:
 - (i) All necessary Department of Housing and Urban Development (“HUD”) and investor approvals are obtained; and,
 - (ii) The relevant financing and tax programs, including applicable real estate tax abatement programs, currently available for Section 8 housing are made available to effectuate the extensions. Related will commit to pursue extending Section 8 benefits at these properties and will diligently pursue all necessary approvals. The period of each extension will be the maximum period allowed under the program.
- (h) Related Off-site 80/20s: Related commits to guaranteeing that all existing affordable rental units in the Westport (at 500 West 56th Street) and the Tate (at 535 West 23rd Street) in Community District 4 will remain permanently affordable to

households at an average income of up to 90% AMI, not to exceed 125% AMI, provided that there are incentives, programs, exemptions, credits or abatements available that will reduce the real estate taxes for the 80/20 buildings to a level consistent with real estate taxes paid prior to any phase out of the real estate tax abatement in the initial 421-a program. No restrictions shall apply to the market rate units as rentals or as a conversion to condominiums after the initial 421-a period. This commitment is contingent on obtaining lender and investor approvals, which Related will diligently pursue.

- (i) A summary chart of the affordable housing commitments is annexed hereto as Exhibit 3.

4. WRY SCHOOL COMMITMENTS

- (a) Community Notification: Related agrees that copies of an amended Letter of Intent with the School Construction Authority (“SCA”) regarding school site selection, modified to reflect the commitments in paragraph (b) will be provided to CB4, the local school district, the Manhattan Borough President, and the local Council Member.
- (b) School Site Selection: Related commits that it will offer SCA approximately 120,000 square feet of space at Site 6 for a public school and that Site 6 will be one of the first three buildings to be built. The SCA commits that it will initiate the site selection process for the public school at Site 6 no later than July 1, 2010. Related shall only be required to offer Site 6 to the SCA and no alternate sites. In the event that the SCA rejects Site 6, for whatever reason, Related's obligation to provide space for the public school under Section 3.04 of the Restrictive Declaration (“Declaration”) is terminated.

5. COMMUNITY AND CULTURAL SPACE COMMITMENTS

- (a) Related agrees to make available a minimum of 16,000 gross square feet of space for local cultural institutions or other local arts not-for-profits.
- (b) The cultural space will be provided in at least two facilities.
- (c) Related commits to constructing the core and shell of the cultural spaces, including the distribution of base building systems to the cultural spaces, in accordance with Section 2.04(d) of the Declaration, as modified by the City Council.

6. OPEN SPACE COMMITMENTS

- (a) Related agrees to replace the member appointed by the President of the Hudson Yards Development Corporation to serve on the Open Space Advisory Board established under Section 2.02(e) of the Declaration with a member appointed by the Manhattan Borough Commissioner of the Department of Parks and Recreation (“Parks Dept”).

(b) Related agrees to change the timing of the open space payments required under Section 3.04(b)(i) of the Declaration to two payments of \$1 million each, with the 1st payment triggered by the TCO for the 2nd residential building, provided that the 2nd residential building results in a total of 500 or more units, and the 2nd payment triggered by the TCO for the 4th residential building. In the event that the 1st and 2nd residential buildings produce less than 500 total units, then the 1st payment will be triggered by the TCO for the 3rd residential building and the 2nd payment will be triggered by the TCO for the 5th residential building.

(c) Greening and Neighborhood Opens Space Development:

(i) Street Tree Planting: The Administration agrees to work with the City Council to review and modify, as necessary, the Parks Dept's street tree planting program to ensure that the Hudson Yards area of CB4 has an appropriate allocation of street trees. In addition, the Administration will work with Con Edison on a master plan for the appropriate location of street trees and infrastructure vaults. The Parks Dept will seek to plant trees at all viable street tree locations.

(ii) Port Authority Sites: The Administration will continue working with the City Council, the community and the Port Authority of NY & NJ ("Port Authority") toward creating open space on Port Authority sites within the blocks bounded by West 34th and West 41st Streets, between 9th and 10th Avenues.

(iii) The Administration agrees to establish an Open Space Task Force to review and advise on the creation of open space within the blocks described above. The Task Force will be comprised of representatives from the Department of Transportation ("DOT"), the Parks Dept, and the Hudson Yards Community Advisory Committee. The Administration will invite the Port Authority to participate on the Task Force.

a. The Administration, in coordination with the Port Authority, agrees to use the Greenstreets Program to green the "canoe" traffic island on the north side of West 36th Street, between 9th Avenue and the Lincoln Tunnel Expressway, subject to and in accordance with the following:

i. The Administration will allocate new funding to the Greenstreets Program for this greening;

ii. The Parks Dept, DOT and the Port Authority will work together to establish a plan to address greening, sidewalk and safety requirements;

iii. The nature and extent of the greening will depend upon subsurface conditions, including utilities, and infrastructure issues

at or adjacent to the canoe traffic island, which will be examined as part of the planning process;

- iv. DOT will relocate the NYPD vehicles currently parked on this island; and,
- v. The Administration will use all reasonable efforts to expedite the implementation of these plans.

(iv) Sidewalk ADA Compliance: The Administration agrees to work with the Port Authority to improve sidewalks along Dyer Avenue, between West 34th and West 36th Streets in order to upgrade to ADA standards, subject to any public safety concerns identified by either the Administration or the Port Authority with respect to any particular location. The Administration will use all reasonable efforts to achieve these upgrades.

(d) DEP Open Space Funding:

- (i) Provided that the open space proposed for the site currently occupied by DEP at 10th Avenue, between West 48th Street and West 49th Street is not mapped as park land, upon completion of Water Tunnel No. 3 DEP will fund the design of the open space and will make a capital contribution to the construction of the open space.
- (ii) DEP will not be responsible for making any contributions to the maintenance or operation of the proposed open space. A maintenance and operations plan will be created as part of the design process.

The proposed open space is identified on the map annexed hereto as Exhibit 4 as that area occupying the northeast corner of the DEP site, bounded to the north by West 49th Street, to the east by 10th Avenue, to the south by the horizontal line demarking the "Fenced Area For DEP Operations" and to the west by the solid black line identified in the map legend as an "Easement Line" and running in a north to south direction.

At an appropriate time following completion of Water Tunnel No. 3, a metes and bounds survey will be conducted to establish the boundaries of the proposed open space consistent with the description of the open space boundaries contained in the map annexed hereto as Exhibit 4.

7. DAY CARE COMMITMENTS

Related agrees to provide the Administration for Children's Services ("ACS") with additional opportunities to exercise the option for 10,000 square feet of ground floor space suitable for use as a child care center. Under Section 3.04(c) of the Declaration, as modified by the City Council, ACS may trigger the requirement for Related to offer space following the issuance of a TCO or PCO for any new building on the WRY

containing residential rental units. In that event, Related shall offer space located either in a new building on the WRY or at a nearby off-site location, provided that Related shall have no obligation to offer space in new buildings on the WRY other than Sites 1, 2 and 4. In the event that ACS accepts a space at an off-site location, Related shall have no further obligations under Section 3.04 to offer space, whether on or off site.

8. FIRE PROTECTION ASSESSMENT COMMITMENTS

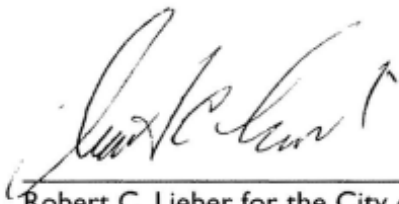

To address the potential need for new Fire Department (“FDNY”) facilities in the Hudson Yards district, if the City Council requests in 2014, the FDNY will commence a review of the fire protection needs of the district beginning January 1, 2015, and at the City Council’s request every five years thereafter, until such time as all projected development has been completed.

9. ZR SECTION 93-06 AND RESTRICTIVE DECLARATION

- (a) Modification of ZR Section 93-06: Under Section 93-06 of the Zoning Resolution, as modified by the City Council, the execution and recordation of a Restrictive Declaration including the modifications described in (b)- (e) below shall be required for any development or enlargement on the WRY pursuant to the zoning amendments.
- (b) City Council Approval of Modifications: Under Section 4.04 of the Declaration, as modified by the City Council, any future modifications to the provisions of the Declaration pertaining to Affordable Housing (Sec. 2.01); Public Access Areas (Sec. 2.02 (a)-(e) and (h); Arts and Cultural Space (Sec. 2.04); the Public School, Open Space, and Day Care Mitigations (Sec. 3.04 (a)-(c)), Modification and Amendment (Sec. 4.04(a)), and the Construction Consultation Process Committee and Liaison (Sec. 6.01), that would diminish or alter the obligations of Related, shall be subject to the approval of the City Council.
- (c) Independent Monitor: Under Sections 3.07(a) and 6.01 of the Declaration, as modified by the City Council, the Independent Monitor shall prepare a quarterly report summary of activities for distribution to any Construction Consultation Process Committee established under Section 6.01 of the Declaration.
- (d) Wind Analyses: Under Section 3.02(c) of the Declaration, as modified by the City Council, Related agrees to provide copies of all final Wind Conditions Reports to Manhattan Community Board 4, the local Council Member, the Manhattan Borough President, and any Construction Consultation Process Committee established pursuant to Section 6.01 of the Declaration.
- (e) Construction Consultation Process Committee: Under Section 6.01 of the Declaration, as modified by the City Council, Related agrees that, upon request of the Construction Consultation Process Committee, Related’s designated liaison shall address, on a regular basis, the questions and concerns of the Committee about construction related issues beginning at the time of issuance of the first Foundation Permit for a New Building on the WRY.

10. LANDMARKS

The Landmarks Preservation Commission (“LPC”) will conduct a preliminary review of the historic districts proposed by CB4 in their letter dated November 20, 2009 and annexed hereto as Exhibit 5, by the end of Fiscal Year 2010. During that period the LPC will also complete an evaluation of the 11 sites proposed for landmark designation by CB 4 in their letter dated November 20, 2009 and annexed hereto as Exhibit 6, to determine whether they should be considered further for landmark status.

Appendix F. Proposed Alternate Zoning Text Amendments to SCD 96-104

96-104 Height and setback regulations

LAST AMENDED 12/10/2013

(c) ***Building*** height

Within 100 feet of a ***wide street***, the ***street wall*** of a ***building or other structure*** shall rise without setback to a minimum height of 50 feet or the height of the ***building***, whichever is less, and a maximum height of 66 feet. A setback shall be provided for all portions of ***buildings*** that exceed a height of 66 feet. Such setbacks shall be provided at a height not lower than 50 feet and not higher than 66 feet, and shall have a minimum depth of 10 feet, measured from any ***street wall*** facing a ***wide street***, and a minimum depth of 15 feet, measured from any ***street wall*** facing a ***narrow street***. No ***building or other structure*** shall exceed a height of 85 feet. Beyond 100 feet of a ***wide street***, no ***building or other structure*** shall exceed a height of seven ***stories*** or 66 feet, whichever is less.

However, the City Planning Commission, by special permit, may modify the special height and setback regulations set forth in this Section. In order to grant such special permit, the Commission shall find that the distribution of ***bulk*** permits adequate access of light and air to surrounding ***streets*** and properties and that the maximum height does not exceed 99 feet beyond 100 feet of a ***wide street***, and 115 feet within 100 feet of a ***wide street***, except for portions of publicly owned zoning lots adjacent to a mass transit or water supply support facility conveyed to private entity for a publicly financed affordable housing development.

Re: fence at 48th and 10th DEP Site recreation area

To Whom It May Concern,

Manhattan Community Board 4 (MCB4) thanks you for the update about the design for this new recreation area at its February 11th Waterfront, Parks & Environment Committee meeting. You

have taken suggestions we have offered and the site design is coming along very nicely. We look forward to being able to use it.

We understand that some of the changes you presented were required because of the constraints the water tunnel site placed on possible uses of the above ground area. We believe the community will be well served by what will become a passive recreation area. Primarily we are pleased with the changes to the water feature, the tree planting, the storage box for gardeners' tools (better would be the ability to roll carts into the box rather than having to lift them to put them in from the top), and bathroom access (we'd prefer a five degree walkway rather than steps and a steeper ramp, but understand there may be constraints making that difficult).

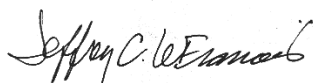

However, we remain incensed that both DEP and Parks are insisting on a fence that can easily be scaled permitting easy access to the space after hours. MCB4 has long insisted on minimum fence heights of seven feet to make those illegal entry and misuse of the park more difficult, and at its March 3rd Full Board meeting, voted by 41 in favor, 0 opposed, 0 abstaining, and 0 present but not eligible to vote, to reiterate this request. The feedback the Waterfront, Parks and Environment Committee has received from local block associations, community groups, and park gardeners support fences around local parks that may be less user friendly but that serve the community better after hours by preventing inappropriate night time activities. We have made this strong suggestion before¹ and have the definite feeling that it has been ignored or worse, rejected by your agency.

We strongly request a change to the design that provides for a seven-foot fence.

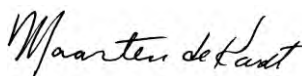

Sincerely,

Lowell Kern

Louise Carroll
Commissioner
NYC Housing Preservation & Development
100 Gold Street
New York, NY 10038

Re: 705 Tenth Avenue, 48th to 49th Streets, aka the DEP Project

Dear Commissioner Carroll,

On November 24, 2020, at Manhattan Community Board 4’s (MCB4) Clinton/Hell’s Kitchen Land Use Committee meeting, the Department of Housing Preservation and Development (HPD), Douglaston Development and the Actor’s Fund (the Development Team), presented a pre-ULURP review of its proposed development at 705 Tenth Avenue, also known as the DEP (Department of Environmental Protection) project (the “Project”). The presentation was given to solicit feedback from the community.

The proposed mixed-use, eight-story building would provide approximately 158 permanently affordable units, a community arts and culture facility, and a public comfort station accessible from the DEP Open Space/Park.

HPD and the Development Team proposed the following unit breakdown:

AMI Tier	Income Range (family of four)	Percentage of Units	Number of Units
Homeless Referrals	\$0 - \$45,480	15%	24
47-50% AMI	\$53,439 - \$56,850	25%	39
77-80% AMI	\$87,549 - \$90,960	20%	32
100-120% AMI	\$113,700 - \$136,440	40%	63
		Total	158

With that breakdown, only 40% of the units would be middle/moderate income housing, or less than half of what the Board and the Hell's Kitchen community had negotiated in the 2009 Western Railyard Points of Agreement ("WRY POA")¹ agreed to between the Mayor and the City Council.

At its December 2, 2020, regularly scheduled full board meeting, MCB4 with 36 in favor, 0 opposed, 2 abstaining, and 0 present but not eligible, voted to recommend the project **not go forward** unless:

- The Board and the Hell's Kitchen community, and HPD agree upon AMI levels to substantially reflect the WRY POA.
- The revised AMI bands have no gaps from 80% to 165%.
- The homeless referral units be set aside for families, not individuals
- That adequate funding for supportive services and a supportive service provider is identified for those families.

By coming to agreement on these matters, only then, can trust be restored between the City and the Hell's Kitchen community.

MCB4 urges HPD and the Development Team to engage with the Board and the Hell's Kitchen community to resolve these issues as soon as possible so the project can proceed.

PROPOSED PROJECT

The proposed Project is in an R8 zone (with a C2-5 overlay) and would be built primarily above the Amtrak railroad cut between West 48th and West 49th Streets just west of Tenth Avenue. It would face the proposed Department of Parks and Recreation open space on the DEP site off Tenth Avenue between 48th and 49th Streets. The maximum building height in the Preservation Area part of the Special Clinton District is 66-feet. The 2009 WRY POA agreed to the grant of a Special Permit under ZR Section 96-104 (c), which would allow the building height to rise to 77 feet.

The Land Use Actions needed to facilitate the proposed development will require approval of four Proposed Land Use Actions:

- Special Permit Pursuant to ZR Section 74-681 (Development Within or Over a Railroad or Transit Right-Of-Way or Yard);
- Special Permit Pursuant to ZR Section 96-104 (c) (Height and Setback Regulations);
- Zoning Text Amendment to ZR Section 96-103 (Yard Regulations); and,
- Disposition of City Owned Property (Light and Air Easement).

¹ [Western Railyard Rezoning Points of Agreement](#)

Unit Mix

The 2009 WRY POA stated that 50% of the units would accommodate two- and three-bedroom units². The Project's proposed unit mix is consistent with that agreement:

Unit Type	Percentage of Units	Number of Units
Studio	22%	35
1-Bedroom	27%	42
2-Bedroom	41%	65
3-Bedroom	10%	16
	Total	158

MCB4 supports the proposed unit mix.

Homeless Set Aside

The Mayor's Office has mandated that 15% of new housing on City-owned sites be set aside for homeless referrals. The Board and the Hell's Kitchen community fully understand the compelling need for such housing. Hell's Kitchen is a community that prides itself on its acceptance, concern, and compassion for all New Yorkers.

While the Mayor's Office may be oblivious to the facts on the ground, HPD should be aware that Hell's Kitchen has one of the densest concentrations of formerly homeless residents, homeless shelters, homeless temporary shelters, and supportive housing in the entire City. *Within the immediate vicinity* of the proposed development — on West 46th, West 47th, West 48th, West 49th, and West 50th Streets, there are several permanent residences (164 units) and social service facilities (80 units) for homeless individuals and families.³

In fact, the Skyline Hotel, on 49th and Tenth Ave, housed homeless families until the City in its ill-managed response to Covid-19, precipitously moved out 63 families and replaced them with 300 single men from congregate shelters without adequate social service support.

Amenities

The proposed Project's amenities include a laundry, fitness room, children's playroom, and bike room. MCB4 supports those amenities.

Ground Floor Community Facility Space

The Actor's Fund informed the Board it is committed to integrating arts and culture into community and deliver a long-term asset. Spaceworks, its original choice, was forced to close down in the early months of the Pandemic. The Actor's Fund is now in the process of identifying and securing a new cultural tenant.

² [Western Railyard Rezoning Points of Agreement](#), page 3: "HPD's RFPs will contain the following requirements: . . . 50% two or more bedroom units . . ."

³ See Appendix A. MCD4 - Homelessness and Social Services Summary and Appendix B. Map of Homeless Social Service Facilities and Homeless Supportive Housing

The Actor’s Fund stated it will welcome recommendations from the community and from MCB4 regarding arts and cultural organizations in need of space. Further, the Actor’s Fund agrees to consult with the Board prior to selecting a new tenant.

HISTORY

In 2009, as part of the Western Rail Yards Rezoning, the City committed to develop affordable housing on two city-owned sites: the Metropolitan Transportation Authority (MTA) site (Ninth Avenue at 54th Street) and the Department of Environmental Protection (DEP) site (Tenth Avenue, 48th-49th Streets).

This commitment was achieved through robust negotiations among the community, MCB4, the City Council, and the City.

Vital Need for Moderate & Middle-Income Housing

The vast majority of the affordable units produced under the Hudson Yards Points of Agreement (“HY POA”)⁴, through Inclusionary Housing, have been for low-income households.⁵ In the Hudson Yards and Western Railyard Rezoning⁶, the community’s concern was to maintain economic integration. Therefore, both the HY POA and the WRY POA⁷ contained commitments to produce affordable housing for a range of incomes: low, moderate, and middle. In fact, the Harborview NYCHA site, the Studio City site (now known as Gotham West), Site M (commitment now transferred to the Slaughterhouse site), and in the WRY POA, the DEP, MTA, and West 20th Street site (commitment now transferred to the Slaughterhouse site), all note a range of incomes up to 60-165% AMI.

Under those agreements, and through discussion with HPD during the development of the RFP for the DEP and MTA sites, MCB4 held public meetings and adopted recommendations for the income mix at both sites. MCB4’s presentation regarding these sites was included as a link for all prospective developers to review.⁸

AMI Tier	Income Range (family of four)	Percentage of Units	Number of Units
77% - 80% AMI	\$87,549 - \$90,960	20%	32
81% - 125% AMI	\$90,961 - \$136,440	40%	63
126% - 165% AMI	\$136,441 - \$187,605	40%	63
		Total	158

Honoring the WRY POA Still Expected

The agreed upon AMI mix was stated and re-stated in multiple MCB4 letters to HPD from 2015 – 2017⁹, as well as in MCB4's Affordable Housing Plan.¹⁰ MCB4 and HPD worked together to develop the provisions in HPD's Requests For Proposals for the DEP and MTA sites. MCB4's presentation regarding these sites was included as a link for all prospective developers to review.¹¹

Approximately a year ago, HPD, with no notice or discussion with the Hell's Kitchen community or MCB4, breached the agreement, announcing the DEP site would include a majority of low- and very-low-income units, with a substantial homeless component. In March of 2020, the Speaker of the City Council was informed by Board leadership that this was unlikely to be acceptable to the community. The Board reiterated that it expected the City to honor its 2009 commitment.

FEEDBACK

At the Clinton/Hell's Kitchen Land Use Committee meeting on November 24, 2020, HPD proposed that the majority of the units would not provide housing for moderate/middle income levels as promised. The feedback from the community was clear: the revised AMIs were unacceptable.

"Disingenuous, Opportunistic, Condescending, Insulting, Insincere, Deceitful"

The consensus of the community was that the City was not living up to either the letter or the spirit of the agreement to provide middle/moderate income housing for the community. There was considerable dismay, about not only breaking the agreement, but also violating the trust between the community and the City. One long-term community resident characterized HPD's volte-face as "disingenuous, opportunistic, condescending, insulting, insincere, and deceitful."

Umbrage was also taken to what appeared to be a condescending lecture from HPD on the necessity of developing more low-income housing in the community. This community and MCB4, has been in the forefront of developing affordable housing for very-low, low-, moderate-, and middle-income housing for decades. We have identified, fought for, and secured low-income housing throughout our District and we welcome with open arms New Yorkers of all incomes. We do not need a sermon on its vital importance.

As HPD knows, MCB4 developed one of the most comprehensive, far-sighted, achievable, affordable housing plans in the entire city. The Board and the community on its own have identified affordable housing sites and pushed and pushed City agencies until they became a

⁹ [MCB4 Letter re: ULURP Nos. 090422HAM, N090429ZRM, 090423HAM and 090430ZMM. July 27, 2009;](#)

reality. For example, MCB4 and the community identified the Slaughterhouse site on West 39th Street and Eleventh Avenue and fought for almost a decade for it to become a 100% affordable housing development with hundreds of low-, moderate-, and middle-income units.

HPD must also recognize that the Special Clinton District was created “to preserve and strengthen the residential character of a community bordering Midtown and maintain a broad mix of incomes.”¹² Development has produced market-rate housing and low-income housing through Inclusionary Bonuses. However, this community and this city needs to serve those New Yorkers in the middle who are left out, with the production of moderate- and middle-income housing.

Conclusion

MCB4 is cognizant of the exemplary work your agency has done for the City of New York and appreciative of HPD’s partnership with the Hell’s Kitchen community and MCB4. We want that successful partnership to continue. But it can only continue if the community has the confidence that agreements will be kept, that efforts are made to develop housing for all income levels, and that a level of respect is paid to the local community’s deep understanding of what it needs to thrive. We look forward to working with you to make this project succeed.

Appendices

Appendix A. MCD4 - Homelessness and Social Services Summary

MCD4, comprised of Chelsea, Hudson Yards and Clinton/Hell's Kitchen, is an area that has long welcomed both social services, homeless facilities, and supportive housing. We have never taken a NIMBY approach to such needs. MCD4 has however, been probing and thorough with social service agencies to ensure the proposed facilities or housing sites are well designed, managed and integrated successfully into the community. These permanent facilities and housing include:

Re: Open Space at DEP Site – 705 10th Avenue (48/49)

To Whom It May Concern,

Manhattan Community Board 4 (MCB4) appreciates your comprehensive presentation of the new design for the Department of Environmental Protection (DEP)/Parks Open Space site at 48th Street and Tenth Avenue at the Waterfront, Parks and Environment Committee meeting on December 12, 2019. The Waterfront, Parks and Environment Committee was very pleased with the changes made to the design that was first presented in September 2019. MCB4, at its January 2nd Full Board meeting, by a vote of 37 in favor, 0 against, 0 abstaining, and 0 present but not eligible to vote, voted to support the new open space design with the following comments:

- We appreciate your elimination of the gravel and its replacement with a unified permeable paving pattern. We are concerned as damage to the pavers occur that they be replaced by new pavers and ask that shortcuts to repair damaged pavers, like the use of cement or asphalt, will not be used.
- Thank you for softening the above ground infrastructure by using planting beds. We ask that you consider raising the plantings nearest to the south east corner on Tenth Avenue to permit trees at that location.

- We appreciate you taking into consideration the water feature that was requested in our previous discussion in the form of a spray shower. We would like its installation to conform as much as possible to a passive recreation design.
- The new design shows an increase in the fence height from 4' to 5'. Manhattan Community Board 4 continues to recommend a 7' fence.
- Thank you for including signage about the city's water supply system, a feature we have asked for. We look forward to your maintaining and updating those signs as they age.
- Thank you for informing us that events may be held in this open space. We appreciate that DEP must consent to events at this location. However, in addition, we would like MCB4 and the block association to be included in vetting potential events.
- We hope you will consider including solar wind features to this site to demonstrate the advantages of this form of energy production.

In addition:

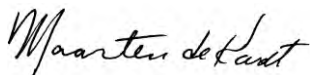

- We appreciate the additional planting and benches on the south side as well as carrying the curvilinear forms to the south side
- Thank you for adding a gardeners' storage box and designating the location of public restrooms.
- We believe you showed us lighting that is directed downward so as not to disturb nearby residents.
- We also believe you indicated that local volunteers would be welcomed to participate in planting and maintenance of the plantings.

We look forward to continued coordination of the operation of this open space between Parks, DEP, HPD and MCB4 with a focus on assuring the community that the site remain open as future nearby construction occurs.

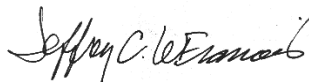

Sincerely,

Re: Proposed Park Design for 705 Tenth Avenue “DEP Site”

Dear Commissioner Silver,

Manhattan Community Board 4 (MCB4) appreciates your staff’s July 11th presentation to the Waterfront, Parks, and Environment Committee (WPE) at which plans for the park to be built on the Department of Environmental Protection’s (DEP) Third Water Tunnel Site between 48th and 49th Streets on Tenth Avenue were described. A park on this approximately one-half acre site has long been promised to the Hell’s Kitchen Community. MCB4 would like to particularly commend Steve Simon, Chief of Staff to the Manhattan Borough Commissioner, Allan Scholl, Landscape Architect, and George Bloomer, Senior Landscape Architect.

We object to the current design and ask the Parks Department to continue to work with the community on a revised design. At its July 24th Full Board meeting, MCB4 voted by 35 in favor, 0 against, 0 abstaining and 0 present but not eligible to vote, to oppose the design presented at the WPE meeting.

DEP has left a practically unobstructed surface at ground level now that the work on the water tunnel at this location has been completed. We understand that the Department of Parks and Recreation (Parks) was charged with creating a park catering to passive recreation. This is an ideal use as the site is just across Tenth Avenue from the already existing Hell’s Kitchen Park and playground.

The design shared with us shows a large open circular right-of-center space covered with an artificial grass-like cover. The left-of-center space is to be covered with concrete, permeable pavers. The reason for this unattractive choice, we were told, is DEP requires 24/7 access and that there will be periodic trucks moving among the water tunnel access points in this section of the proposed park. The site is to be surrounded with trees and a year-round pallet of vegetation. It is to be a dog free site. The proposed lighting seemed adequate. The entire site is to be

surrounded with Park's standard 4-foot fence on the three street sides and an 8-foot steel fence between the site and a building yet to be constructed.

The site immediately west of the proposed park is scheduled to be developed into an affordable housing development and a DEP facilities management building. As such, there is the opportunity to provide a public restroom facility into this project and immediately adjacent to the proposed park. Such a restroom would serve the DEP Park as well as Hell's Kitchen Park. We are pleased that the restroom, a welcome addition, is promised. We hope there will be coordination between the building of the park and its adjacent DEP building.

We understand that with the assistance of Speaker Corey Johnson approximately \$3.7 million has been allocated for the construction of this facility. As explained by your staff it is not likely that the current design would cost that much. We appreciate the hard work that has gone into the design of the proposed park and the difficulties of interagency coordination that the design encountered.

Not only did we find the proposed park esthetically unpleasing, we were distressed to learn about the restrictions being placed on inclusion of innovative elements this park should have.

This is a site like no other as it requires consideration for the security of the City's water, of the site itself and it requires continuous access to the underground facility by DEP personnel. These constrictions present an opportunity for both agencies to exercise design originality. The plan we saw does not come close to this potential. On several occasions in our discussion the Committee was told a particular request could not be accomplished because DEP would not permit it. Frankly, the Committee was unable to discern whether the resistance to our suggestions (some that your staff acknowledged it had heard before) was coming from DEP or Parks or both.

We were told that there could be no superstructures on this park including: no sheds for storage of gardeners' equipment, no water facilities, and no electricity for events. We also learned small and large scale events will not be permitted.

The restriction on superstructure items led Parks to reject any storage shed for gardeners' tools. The same restriction was the reason there could be no water elements on the surface of this space. We find it difficult to believe the construction of the DEP facility below ground is so flimsy as to necessitate prohibition of elements like these on the surface. MCB4 would ask that Parks investigate whether a use such as composting station can be added to the design.

We found the cement pavers on the left side of the park particularly unattractive. They do not invite passive use of this section of the space. It would be much better if this section of the space were also covered by a green cover that could be used for lounging, thus promoting the passive use of the entire park. Your staff offered two objections to our requests: 1. DEP would not permit it (no reason given) and 2. Infrequent truck traffic would destroy any type of cover other than pavers. We find it difficult to believe DEP has a valid reason for objecting to a green cover over this section of the park. We also find it difficult to believe that there is no eco-friendly green cover that would both be comfortable to lounge on and that would withstand periodic vehicle crossings.

The conversation about the use of the section of the park requiring truck access led us to understand a serious safety defect in the plans for the park whether the left element is green or

not. There seems to be no in-place protocol for the safety of park users when DEP trucks need to enter and leave. There also seems to be a lack of an overall security design for this park focusing on the safety of users and of the facility below.

We understand the underground facility is an important element of the Third Water Tunnel and as such any breach jeopardizes the City's drinking water supply. We therefore agree that no large scale events should occur on this site. However, we do not understand why small parties would be inappropriate. To help facilitate small events, Parks should overcome its prohibition of usable electricity and include it in its design.

The site contains several structures that jet above the surface. Both as a protection for them and to enhance the esthetics of the site, we'd like to see some design mitigation of their starkness.

Parks is proposing its standard 4-foot fence along the street sides of the park. MCB4 has long argued for 7-foot fences in other parks in our district to discourage after hours misuse of parks. While MCB4 understands the 4-foot fence is Parks current policy we strongly believe the 4-foot fences do not discourage these often disruptive uses and should not be used here.

This park has the potential to be a wonderful addition for our community, yet the apparent design restrictions placed on this park limits its potential. In addition, DEP is missing an opportunity to educate the public in the build out and operation of this park by including water elements along with appropriate signage describing the breadth and complexity of the City's drinking water delivery system. Furthermore, this park provides the City's environmental watch dog the opportunity to offer education about solar energy by including small windmills or solar collectors in the park's design.

Thank you again for the presentation. We look forward to continuing this conversation with you.

Maria Torres-Springer
Commissioner
NYC Department of Housing Preservation & Development
100 Gold Street
New York, NY 10038

**Re: DEP (705 10th Avenue) and MTA (806 9th Avenue)
Affordable Housing Sites**

Dear Commissioner Torres-Springer,

On February 14, 2018, the Clinton/Hell's Kitchen Land Use Committee was presented with an update by the Department of Housing and Preservation (HPD) on the forthcoming Request For Proposal (RFP) for two future affordable housing development projects ("Projects") on two publicly-owned parcels — the Metropolitan Transportation Authority site at 806 Ninth Avenue between West 53rd and West 54th Streets ("MTA Site") and the Department of Environmental Protection site at 705 Tenth Avenue between West 48th and West 49th Streets ("DEP Site") — which the City committed to develop as affordable housing as part of the Western Rail Yards Points of Agreement (WRY POA) on December 10, 2009.

On March 7, 2018, following the counsel of its Clinton/Hell's Kitchen Land Use Committee, Manhattan Community Board 4 (MCB4) by 35 in favor, 0 opposed, 0 abstaining, and 0 present but not eligible, voted that the recommendations in this letter and the attached Power Point Presentation (Attachment A) be included with the RFP in order to inform responding applicants of the community's and the Board's requirements for developing these Projects.

MCB4 RECOMMENDATIONS

Through MCB4's substantial engagement with the community and sustained consultation with HPD, the following recommendations have been developed. They must be implemented to insure optimal development on both the MTA and the DEP Sites.

1. One Developer

There should be one developer for both Sites.

2. No Inclusionary Housing Bonus

A restrictive declaration must be filed stating that the site cannot generate an inclusionary housing bonus or be used to satisfy the Special Clinton District Harassment Cure requirements pursuant to ZR 96-110.

3. Height Restrictions

DEP Site: The maximum height is 77 feet.

MTA Site: The maximum height along the Ninth Avenue frontage is 85 feet. Along West 54th Street, beginning 50 feet east of Ninth Avenue and through the mid block and backing against the existing MTA Control Center, the maximum height is 99 feet.

4. Income Bands

MCB4 requests that a restrictive deck establish that HPD Financing for both Projects will follow HPD's M² (Mixed-Middle-Income Program) to achieve MCB4's required income band mix: 20% of units will be affordable at 80% Area Median Income (AMI); 40% will be affordable at 125% AMI, and 40% will be affordable at 165% AMI. (HPD's M² Program funds the new construction of multi-family rental housing affordable to low-, moderate-, and middle-income families up to 165% of Area Median Income.)

5. Size and Number of Units

Both Projects combined should generate an estimated total of 267 permanently affordable units. At least 50% of the residential units in both Projects must contain two bedrooms or more.

For the DEP Site, MCB4's Affordable Housing Plan preliminary analysis proposed the following breakdown: 38 units at 80% AMI; 46 units at 125%; and, 59 units at 165%.

For the MTA Site, the Affordable Housing Plan proposed: 38 units at 80% AMI; 40 units at 125%; and 46 units at 165%.

6. Permanent Affordability

All units in both Projects must be permanently affordable.

7. No Commercial Space at the DEP Site

No retail or commercial use should be allowed on either the West 48th Street or the West 49th Street portion of the DEP Site. Twelve liquor-serving establishments already exist within 75 feet of the Site. Any additional establishment would exacerbate the problems of bars and clubs on residential blocks. And eliminating the need for commercial space on the ground level, hence reducing the ground floor-to-floor height, allows for more affordable units in the building.

8. Public Restroom and Parks Support Space on DEP Site

The block front on Tenth Avenue will be developed as public open space ("Open Space") with the function of a public park. (The Open Space will not be mapped as a public park due to DEP's

access requirements for water tunnel maintenance, but will be maintained by the New York City Parks Department.) Both Hell's Kitchen Park, diagonally southeast of the DEP Site, and the future Open Space lack the basic amenity of a comfort station. An ADA accessible public restroom must be included in the affordable housing development and accessible from the Open Space.

The building must also have a small support space, including a janitor's sink and electricity, for NYC Parks Department staff. It will be accessible from the Open Space. Parks or open spaces with comfort stations should have fixed post staff to address constituents' concerns, provide security, and perform routine maintenance.

9. Supermarket Instead of Office Space on MTA Site

Two decades ago, Ninth Avenue had three supermarkets between West 43rd and West 54th Streets. Today, there are none. With its large enough footprint, this publicly owned site is the district's sole opportunity for a supermarket which could serve the Ninth Avenue core of the Hell's Kitchen neighborhood. Allowing MTA office space in the development precludes that possibility. MCB4 will continue to work with the MTA and HPD to relieve the Project of burden to create 30,000 square feet of MTA office space.

10. No Garage on MTA Site

The site has been used by the MTA for surface parking for its employees for nearly two decades without any permit or Certificate of Occupancy. The MTA request for a garage for 15 MTA parking spaces for the site must be reconsidered. The Board notes that there is already a garage in the MTA building (directly across the street from 351 West 54th) with a "24-Hour, Active Driveway."

11. Design Recommendations

Both the MTA and DEP sites are in the Clinton Special District (CSD) in the historic Hell's Kitchen neighborhood. The majority of the buildings in the CSD are tenements, built between 1880 and 1920, often in groupings with some design variations, with facades comprised of brick and masonry. In keeping with the context of the district, the facades of the proposed buildings on the DEP and the MTA Sites should include predominantly brick and masonry with punched windows and avoid glass and panel systems.

MTA Site: The building at the MTA site should have landscaped tenant open space at the roof and the setback levels.

DEP Site: The building on the DEP Site should have windows facing north, south, and east. On the east, the building should relate to the Open Space but also provide privacy for ground floor units. The windows facing the Open Space should be noise attenuating. Balconies are not recommended.

Both ends of the building, on West 48th and West 49th Streets, should be enlivened by street trees and substantial tree beds. And the building at the DEP site should have landscaped tenant open space at the roof and the setback levels.

12. Feral Cats, DEP Site

A small population of feral cats lives on the rail cut on West 48th Street. The cats are cared for by a coalition of volunteers from the New York City Feral Cat Initiative, a program overseen by the Mayor's Alliance for NYC Animals. The volunteers trap, neuter, vaccinate, and return the cats to their territory of origin (TNR (Trap, Neuter, Return) Program). Before construction begins on platforming over the rail cut at the DEP Site, HPD must coordinate with the NYC Feral Cat Initiative to safely remove the cats.

The Board would like both Projects to have a pet-friendly policy.

13. Construction Task Force

MCB4 will form a Task Force to resolve complaints or issues arising from the construction of the buildings. The Task Force will include representatives from the local block association, business owners, the developer, City Councilmember, and MCB4.

BACKGROUND

The MTA Site, located at 806 Ninth Avenue between West 53rd Street and West 54th Street, was formerly a bus depot built in 1906. It was demolished in 1996. The site is currently a vacant lot.

The DEP site, at 705 Tenth Avenue, between West 48th Street and West 49th Street, is a Third Water Tunnel Access Shaft site. As of October 2016, the site has been vacated. DEP is now working with the City to allow for the development of affordable housing by HPD and public open space to be designed and maintained by the New York City Department of Parks and Recreation on the site.

Both sites are located within the Special Clinton District — a special district created to preserve and strengthen the residential character of a community bordering Midtown, maintain a broad mix of incomes, and insure the community is not adversely affected by new development. The community and MCB4 has long worked toward the goal of preserving affordability through restrictions on residential demolitions as well as planning for the development of new affordable units.

Western Rail Yards Points of Agreement

Executed in 2009, the Western Railyards Points of Agreement (WRY POA) specifically outline the MTA and DEP sites as affordable housing commitments from the City. The WRY POA stated that HPD would issue Requests for Proposals (RFPs) for the development of both sites. And such RFPs would be reviewed by MCB4 before being released (see Attachment B)

ULURP

As part of the development process, both sites went through the Uniform Land Use Review Process (ULURP) with the New York City Planning Commission. In its July 2009 letter to the Department of City Planning, MCB4 took a number of positions on ULURP Nos. 090422HAM, N090429ZRM, 090423HAM and 090430ZMM. (Attachment C)

MCB4 Affordable Housing Plan

The development of both sites was contingent upon Related's closing title on the Western Railyards, which would allow the MTA site to be transferred to HPD. The site transferred on October 13, 2016. At that point, MCB4 began requesting that an RFP be issued for the two sites.

In 2015, MCB4 released an Affordable Housing Plan, which outlines the development of affordable housing units within our district. That Plan includes both the MTA and DEP sites. Under the plan, the proposed AMI distribution was consistent with the 2009 MCB4 letter regarding the ULURP.

CONCLUSION

HPD plans to release the RFP this month (March 2018) and to begin receiving submissions this June. Proposals will be selected in the winter of 2018/2019.

MCB4 thanks HPD for its long and productive engagement with MCB4 on these important affordable housing developments. We look forward to working with HPD and with the developer to ensure that these Projects honor the commitments made in the Western Rail Yards Points of Agreement.

Sincerely,

Burt Lazarin

POWER POINT PRESENTATION

Clinton/Hell's Kitchen RFP

806 9th Avenue & 705 10th Avenue

Permanent Affordable Housing & Open Space

Manhattan Community Board 4

Clinton/Hell's Kitchen RFP

The Clinton/Hell's Kitchen RFP is comprised of two permanent affordable housing sites:

- MTA Site – located at 806 9th Avenue
- DEP Site – located at 705 10th Avenue

Both sites were commitments in the Western Rail Yards Points of Agreement, an agreement between the New York City Council and the Mayor's Office regarding the Hudson Railyards rezoning, which was executed on December 10, 2009.

Western Rail Yards Points of Agreement

POINTS OF AGREEMENT

**Western Rail Yard Rezoning
December 10, 2009**

3. AFFORDABLE HOUSING OFF-SITE COMMITMENTS

- (a) The Department of Housing Preservation and Development ("HPD") commits to issuing Requests for Proposals ("RFPs") for the development of affordable housing on the City-owned sites at West 54th Street and 9th Avenue, which is under the leasehold control of the Metropolitan Transportation Authority ("MTA"), and West 48th Street and 10th Avenue, currently occupied by the Department of Environmental Protection ("DEP") in connection with the construction of Water Tunnel No. 3. The City reiterates its commitment to propose, and Council Member Quinn reiterates her commitment to support, the provision in the City capital budget of the sum of \$40 million to construct or otherwise create new affordable housing units off-site.

HPD's RFPs will contain the following requirements:

- (i) A height cap restriction that the local Council Member and Community Board 4 ("CB4") understand will result in the creation of an estimated 267 units. Without the height cap restrictions, these sites would generate 312 units. The height on the DEP site will not exceed 77 feet. The height on the MTA site will not exceed 85 feet on 9th Avenue, and 99 feet on the midblock;
 - (ii) An AMI mix of 165% or under;
 - (iii) 50% two or more bedroom units; and,
 - (iv) Permanent affordability.
- (b) HPD will share the program overview with CB4 before releasing the RFPs for the off-site housing developments.
- (c) The Administration agrees that the MTA and DEP sites will not generate an Inclusionary Zoning bonus under NYC Zoning Resolution Section 23-90, and

Western Rail Yards Points of Agreement

Requirements for RFP

- Height cap of 77 feet for the DEP site and 85 feet on 9th Avenue and 99 feet on the midblock for the MTA site
- 267 permanently affordable units
- An AMI mix of 165% or under
- 50% two or more bedroom units

Process

- HPD to share program overview with MCB4 before releasing RFPs

MCB4 Revised Approval Conditions—June 2017

MTA Site

Height, Bulk, and Use

- Setting a height limit of 85 feet along the 9th Avenue frontage and of 99 feet on West 54th Street, beginning 50 feet east of 9th Avenue and through the midblock backing against the existing MTA Control Center.

Affordability Bands

- A restrictive declaration that 20% of units will be affordable at 80% AMI; 40% will be affordable at 125% AMI, and 40% will be affordable at 165% AMI
- At least 50% of the residential units contain two bedrooms or more

MTA Use

- The elimination of the 30,000 square feet reserved for the MTA office/training space
- The elimination the 15 MTA parking spaces planned for the site
- The RFPs to select a developer for this site must be developed in consultation with MCB4

Other Considerations

- A restrictive declaration that the site cannot generate an Inclusionary Housing bonus or be used to satisfy the SCD District Harassment Cure requirements pursuant to ZR § 96-110

MCB4 Revised Approval Conditions—June 2017

DEP Site

Height, Bulk, and Use

- Setting the height limit for the site at 77 feet
- No retail and/or commercial use allowed on the West 49th Street portion of the DEP site, as such an addition would exacerbate the problems of bars and clubs on residential blocks

Affordability Bands

- A restrictive declaration that 20% of units will be affordable at 80% AMI; 40% will be affordable at 125% AMI, and 40% will be affordable at 165% AMI
- At least 50% of the residential units contain two bedrooms or more

Relationship to DEP/Parks Open Space

- A permanent easement for unobstructed light and air from the DEP water access tunnel site to the east
- Comfort stations for public use in conjunction with the DEP open space must be included in the affordable housing development
- Parks Department has agreed to a landscape architect to design the open space

Other Considerations

- The RFPs to select a developer for this site must be developed in consultation with MCB4
- A restrictive declaration that the site cannot generate an Inclusionary Housing bonus or be used to satisfy the SCD District Harassment Cure requirements pursuant to ZR § 96-110

MTA Site – 806 9th Avenue

 Residential

MTA Site – 806 9th Avenue

DEP Site – 705 10th Avenue

- Residential
- Open Space

DEP Site – 705 10th Avenue

View from 10th Avenue facing west

MCB4 Approval Conditions– MTA Site

March 7, 2018

Building Design & Program

- Height not to exceed 85 feet on 9th Avenue and 99 feet in the midblock (50 feet east of 9th Avenue)
- Façade to be predominantly brick and masonry with punched windows
- Architecture should relate to surrounding context of 4 to 6 story brick and masonry tenements
- Landscaped tenant open space to be developed at roof and setback levels
- Commercial space to be a supermarket for the community
- MCB4 will continue to work with MTA to relieve project of burden to create 30,000 square feet of MTA office space

Neighborhood Context – MTA Site

MCB4 Approval Conditions – DEP Site

March 7, 2018

Building Design & Program

- Height not to exceed 77 feet
- Façade to include predominantly brick and masonry with punched windows
- Architecture should relate to surrounding context of 4 and 5 story brick and masonry tenements
- Building to have windows facing south, north, and east
- No commercial space at first floor¹
- HPD Design Guidelines be modified to create both a lower ground floor and slightly lower floor to floor heights to create another floor within height limit
- With an additional floor, the unit count can be increased
- Landscaped tenant open space to be developed at roof and setback levels

¹ Current zoning includes C1-5 commercial overlay at first floor. However, midblock commercial use is not compatible with context of block

MCB4 Approval Conditions – DEP Site

March 7, 2018

Building's Relation to Open Space

- Public open space to include an ADA Accessible public restroom and support space for Park staff
- Building design to relate to open space on 10th Avenue but also provide privacy to ground floor apartments along east façade facing open space

Neighborhood Context – DEP Site

MCB4 Unit Affordability and Size Approval Conditions

Clinton/Hell's Kitchen RFP

AMI Distribution

AMI	Percent
80% AMI	20%
125% AMI	40%
165% AMI	40%

Affordability Mix

- Production of between 200 and 230 permanently affordable apartments
- AMI mix of 80 %, 125% & 165% with no income eligibility gaps
- The HPD M² program funding be used to achieve community desired AMI mix

Apartment Distribution

- 50% of the units to be two or more bedroom units

WRYP OA Commitments

- Neither site to generate an Inclusionary Housing bonus
- Neither site to satisfy a Cure for Harassment

Appendix

MCB4 Documents Pertaining to MTA & DEP Sites

MCB4 requests that all respondents to the Clinton/Hell's Kitchen RFP, in order to better understand background, context, and project sites, please review the following documents and MCB4 letters:

WESTERN RAIL YARDS
POINTS OF AGREEMENT

THE CITY OF NEW YORK
OFFICE OF THE MAYOR
NEW YORK, N.Y. 10007

December 10, 2009

Honorable Christine Quinn
Speaker
New York City Council
City Hall
New York, N.Y. 10007

Re: Western Rail Yard Rezoning Plan- City Council ULURP Actions

Dear Speaker Quinn:

Please find attached to this letter a "Points of Agreement" reflecting recent discussions among the City Council, the Administration and the Related Companies, representing the interest of RGWRY LLC, regarding the City Council's review of the Western Rail Yard Rezoning, a project which encompasses both the rezoning of the Western Rail Yard site itself as well as the provision of off-site affordable housing at two locations.

In addition to items which reflect modifications made by the City Council with respect to the ULURP actions and the associated restrictive declaration, a number of the items set forth in the "Points of Agreement" reflect commitments to future action by the Administration, while others reflect commitments to future action by the Related Companies. The Administration and the Related Companies are each providing you with this letter in acknowledgment of their respective commitments.

With respect to certain of the items described in the "Points of Agreement", implementation is subject to further review under applicable procedures, including land use and environmental review, and the receipt of additional approvals. In other cases, implementation is contingent upon the availability of funding and financing support or determinations by State or federal agencies. In all such cases, the Administration and the Related Companies, with respect to their respective commitments, will work diligently with your cooperation to achieve the goals stated in this "Points of Agreement".

We look forward to continuing to work with you and your colleagues as this project progresses towards the transfer of the Western Rail Yard site from the MTA to the Related Companies, and implementation of all the items in the "Points of Agreement" associated therewith.

Sincerely,

Handwritten signature of Robert C. Lieber in black ink.

Robert C. Lieber for the City of New York
(with respect to Points of Agreement
Sections: 1, 3 (a) – (f), 4 (b), 6 (c) & (d),
8, and 10)

Handwritten signature of Jay Cross in black ink.

(a) & (b), and 7)

POINTS OF AGREEMENT
Western Rail Yard Rezoning
December 10, 2009

I. ANTI-DEMOLITION COMMITMENTS

- (a) Anti-demolition Language: The Administration and the City Council recognize that with the construction of the Number 7 Line Subway underway and scheduled for completion by 2014, and completion of the Hudson Yards Park and Boulevard, scheduled for completion by 2014, the conditions will be in place for the substantial development forecasted in the 2004 Hudson Yards FGEIS and the 2005 West Chelsea FEIS to occur. The Administration and the City Council acknowledge the community's concerns that the growth forecasted for the Hudson Yards and adjacent areas, should it occur, could result in development pressures that may affect tenement housing that has historically provided an affordable housing resource for residents. To address these concerns, additional measures are warranted to facilitate the preservation of existing housing stock. For this purpose, the Administration agrees to support a zoning text amendment for Subareas D4 and 5 of the Special Hudson Yards District, Preservation Area P-2 of the Special Garment Center, and the Special West Chelsea District (the " Zoning Text Amendment"), in the form annexed hereto as Exhibit I.
- (b) Referral of Zoning Text Amendment: The Department of City Planning ("DCP") commits to refer the Zoning Text Amendment for public review by no later than July 1, 2010. Council Member Quinn agrees to support the Zoning Text Amendment in the form annexed hereto as Exhibit I.

2. AFFORDABLE HOUSING COMMITMENTS: WESTERN RAIL YARD ("WRY") AND EASTERN RAIL YARD ("ERY")

- (a) Related commits to build a minimum of 265 permanently affordable rental units ("Affordable Units") on the WRY and an additional minimum of 166 Affordable Units on either the WRY or ERY, in either rental or condominium buildings, for a total of 431 Affordable Units combined, contingent upon:
- (i) Availability of a tax abatement program comparable to existing tax abatement programs for either rental units or condominiums, including 20 year abatement for condominium with 20% Affordable Units;
 - (ii) Availability of tax-exempt bonds to fully finance the construction of the 80/20 rentals that Related chooses to develop to fulfill its commitment; and,
 - (iii) At the expiration of the initial real estate tax program, WRY & ERY Affordable Units will convert to permanent affordability to households at an average income of up to 90% AMI, not to exceed 125% AMI, provided that there are incentives, programs, exemptions, credits or abatements available

that will reduce the real estate taxes for the 80/20 buildings to a level consistent with real estate taxes paid prior to any phase out of the real estate tax abatement in the initial 421-a program for the building. No restrictions shall apply to the market rate units as rentals or as a conversion to condominiums after the initial 421-a real estate tax exemption period.

- (b) With respect to the distribution of Affordable Units within any 80/20 rental component of a building, Related commits to the following:
 - (i) A maximum of 50% Affordable Units on any floor; and,
 - (ii) At least one Affordable Unit on 80% of the floors included within the 80/20 rental components (assuming there are enough Affordable Units planned for at least one per floor, otherwise one per floor for as many floors as there are Affordable Units).

3. AFFORDABLE HOUSING OFF-SITE COMMITMENTS

- (a) The Department of Housing Preservation and Development (“HPD”) commits to issuing Requests for Proposals (“RFPs”) for the development of affordable housing on the City-owned sites at West 54th Street and 9th Avenue, which is under the leasehold control of the Metropolitan Transportation Authority (“MTA”), and West 48th Street and 10th Avenue, currently occupied by the Department of Environmental Protection (“DEP”) in connection with the construction of Water Tunnel No. 3. The City reiterates its commitment to propose, and Council Member Quinn reiterates her commitment to support, the provision in the City capital budget of the sum of \$40 million to construct or otherwise create new affordable housing units off-site.

HPD’s RFPs will contain the following requirements:

- (i) A height cap restriction that the local Council Member and Community Board 4 (“CB4”) understand will result in the creation of an estimated 267 units. Without the height cap restrictions, these sites would generate 312 units. The height on the DEP site will not exceed 77 feet. The height on the MTA site will not exceed 85 feet on 9th Avenue, and 99 feet on the midblock;
 - (ii) An AMI mix of 165% or under;
 - (iii) 50% two or more bedroom units; and,
 - (iv) Permanent affordability.
- (b) HPD will share the program overview with CB4 before releasing the RFPs for the off-site housing developments.
 - (c) The Administration agrees that the MTA and DEP sites will not generate an Inclusionary Zoning bonus under NYC Zoning Resolution Section 23-90, and

acknowledges that they cannot serve as the Cure for Anti-Harassment under NYC Zoning Resolution Section 96-110.

- (d) The Administration, in the attached letter from Deputy Mayor Edward Skyler dated December 10, 2009 and annexed hereto as Exhibit 2, commits to make a best effort to vacate the Department of Sanitation (“DSNY”) facilities located at 136-140 West 20th Street with a goal of completing the relocation by December 31, 2011. If DSNY is relocated from its West 20th Street facilities, HPD commits to develop the site for affordable housing at a range of incomes up to 165% AMI. In the event that DSNY is not relocated, the local Council Member and CB4 acknowledge that HPD will not be expected to make up for those units anywhere else.
- (e) SRO Preservation: HPD will work with the local Council Member and CB4 to preserve up to 150 units of privately owned SRO housing. The Council Member and CB4 acknowledge the difficulties inherent in and lengthy timeframe needed to accomplish these private acquisitions. To the extent that such acquisition(s) can be negotiated, HPD will use its programs to acquire and rehabilitate these SRO units.
- (f) HPD commits to providing CB4 with quarterly updates on the affordable housing developments that were committed as a part of the Hudson Yards and West Chelsea rezonings.
- (g) Related commits that it will seek two extensions of federal rental subsidy to its existing Mark Up to Market Project Based Section 8 HUD Contracts (or a comparable successor program) for a period of no less than 40 years from City Council approval of the WRY rezoning, for its properties known as Terrific Tenements (at 525 West 47th Street and 425 West 48th Street) and the French Apartments (at 330 West 30th Street). Related will apply for the initial extension no later than March 31, 2010. The current maximum extension is a 20 year period, and if granted, will expire in 2030. Related will then seek additional extensions totaling an additional 20 year period. Related will diligently pursue all necessary approvals to seek such extensions, provided:
 - (i) All necessary Department of Housing and Urban Development (“HUD”) and investor approvals are obtained; and,
 - (ii) The relevant financing and tax programs, including applicable real estate tax abatement programs, currently available for Section 8 housing are made available to effectuate the extensions. Related will commit to pursue extending Section 8 benefits at these properties and will diligently pursue all necessary approvals. The period of each extension will be the maximum period allowed under the program.
- (h) Related Off-site 80/20s: Related commits to guaranteeing that all existing affordable rental units in the Westport (at 500 West 56th Street) and the Tate (at 535 West 23rd Street) in Community District 4 will remain permanently affordable to

households at an average income of up to 90% AMI, not to exceed 125% AMI, provided that there are incentives, programs, exemptions, credits or abatements available that will reduce the real estate taxes for the 80/20 buildings to a level consistent with real estate taxes paid prior to any phase out of the real estate tax abatement in the initial 421-a program. No restrictions shall apply to the market rate units as rentals or as a conversion to condominiums after the initial 421-a period. This commitment is contingent on obtaining lender and investor approvals, which Related will diligently pursue.

- (i) A summary chart of the affordable housing commitments is annexed hereto as Exhibit 3.

4. WRY SCHOOL COMMITMENTS

- (a) Community Notification: Related agrees that copies of an amended Letter of Intent with the School Construction Authority (“SCA”) regarding school site selection, modified to reflect the commitments in paragraph (b) will be provided to CB4, the local school district, the Manhattan Borough President, and the local Council Member.
- (b) School Site Selection: Related commits that it will offer SCA approximately 120,000 square feet of space at Site 6 for a public school and that Site 6 will be one of the first three buildings to be built. The SCA commits that it will initiate the site selection process for the public school at Site 6 no later than July 1, 2010. Related shall only be required to offer Site 6 to the SCA and no alternate sites. In the event that the SCA rejects Site 6, for whatever reason, Related's obligation to provide space for the public school under Section 3.04 of the Restrictive Declaration (“Declaration”) is terminated.

5. COMMUNITY AND CULTURAL SPACE COMMITMENTS

- (a) Related agrees to make available a minimum of 16,000 gross square feet of space for local cultural institutions or other local arts not-for-profits.
- (b) The cultural space will be provided in at least two facilities.
- (c) Related commits to constructing the core and shell of the cultural spaces, including the distribution of base building systems to the cultural spaces, in accordance with Section 2.04(d) of the Declaration, as modified by the City Council.

6. OPEN SPACE COMMITMENTS

- (a) Related agrees to replace the member appointed by the President of the Hudson Yards Development Corporation to serve on the Open Space Advisory Board established under Section 2.02(e) of the Declaration with a member appointed by the Manhattan Borough Commissioner of the Department of Parks and Recreation (“Parks Dept”).

(b) Related agrees to change the timing of the open space payments required under Section 3.04(b)(i) of the Declaration to two payments of \$1 million each, with the 1st payment triggered by the TCO for the 2nd residential building, provided that the 2nd residential building results in a total of 500 or more units, and the 2nd payment triggered by the TCO for the 4th residential building. In the event that the 1st and 2nd residential buildings produce less than 500 total units, then the 1st payment will be triggered by the TCO for the 3rd residential building and the 2nd payment will be triggered by the TCO for the 5th residential building.

(c) Greening and Neighborhood Opens Space Development:

(i) Street Tree Planting: The Administration agrees to work with the City Council to review and modify, as necessary, the Parks Dept's street tree planting program to ensure that the Hudson Yards area of CB4 has an appropriate allocation of street trees. In addition, the Administration will work with Con Edison on a master plan for the appropriate location of street trees and infrastructure vaults. The Parks Dept will seek to plant trees at all viable street tree locations.

(ii) Port Authority Sites: The Administration will continue working with the City Council, the community and the Port Authority of NY & NJ ("Port Authority") toward creating open space on Port Authority sites within the blocks bounded by West 34th and West 41st Streets, between 9th and 10th Avenues.

(iii) The Administration agrees to establish an Open Space Task Force to review and advise on the creation of open space within the blocks described above. The Task Force will be comprised of representatives from the Department of Transportation ("DOT"), the Parks Dept, and the Hudson Yards Community Advisory Committee. The Administration will invite the Port Authority to participate on the Task Force.

a. The Administration, in coordination with the Port Authority, agrees to use the Greenstreets Program to green the "canoe" traffic island on the north side of West 36th Street, between 9th Avenue and the Lincoln Tunnel Expressway, subject to and in accordance with the following:

i. The Administration will allocate new funding to the Greenstreets Program for this greening;

ii. The Parks Dept, DOT and the Port Authority will work together to establish a plan to address greening, sidewalk and safety requirements;

iii. The nature and extent of the greening will depend upon subsurface conditions, including utilities, and infrastructure issues

at or adjacent to the canoe traffic island, which will be examined as part of the planning process;

- iv. DOT will relocate the NYPD vehicles currently parked on this island; and,
- v. The Administration will use all reasonable efforts to expedite the implementation of these plans.

(iv) Sidewalk ADA Compliance: The Administration agrees to work with the Port Authority to improve sidewalks along Dyer Avenue, between West 34th and West 36th Streets in order to upgrade to ADA standards, subject to any public safety concerns identified by either the Administration or the Port Authority with respect to any particular location. The Administration will use all reasonable efforts to achieve these upgrades.

(d) DEP Open Space Funding:

- (i) Provided that the open space proposed for the site currently occupied by DEP at 10th Avenue, between West 48th Street and West 49th Street is not mapped as park land, upon completion of Water Tunnel No. 3 DEP will fund the design of the open space and will make a capital contribution to the construction of the open space.
- (ii) DEP will not be responsible for making any contributions to the maintenance or operation of the proposed open space. A maintenance and operations plan will be created as part of the design process.

The proposed open space is identified on the map annexed hereto as Exhibit 4 as that area occupying the northeast corner of the DEP site, bounded to the north by West 49th Street, to the east by 10th Avenue, to the south by the horizontal line demarking the "Fenced Area For DEP Operations" and to the west by the solid black line identified in the map legend as an "Easement Line" and running in a north to south direction.

At an appropriate time following completion of Water Tunnel No. 3, a metes and bounds survey will be conducted to establish the boundaries of the proposed open space consistent with the description of the open space boundaries contained in the map annexed hereto as Exhibit 4.

7. DAY CARE COMMITMENTS

Related agrees to provide the Administration for Children's Services ("ACS") with additional opportunities to exercise the option for 10,000 square feet of ground floor space suitable for use as a child care center. Under Section 3.04(c) of the Declaration, as modified by the City Council, ACS may trigger the requirement for Related to offer space following the issuance of a TCO or PCO for any new building on the WRY

containing residential rental units. In that event, Related shall offer space located either in a new building on the WRY or at a nearby off-site location, provided that Related shall have no obligation to offer space in new buildings on the WRY other than Sites 1, 2 and 4. In the event that ACS accepts a space at an off-site location, Related shall have no further obligations under Section 3.04 to offer space, whether on or off site.

8. FIRE PROTECTION ASSESSMENT COMMITMENTS

To address the potential need for new Fire Department (“FDNY”) facilities in the Hudson Yards district, if the City Council requests in 2014, the FDNY will commence a review of the fire protection needs of the district beginning January 1, 2015, and at the City Council's request every five years thereafter, until such time as all projected development has been completed.

9. ZR SECTION 93-06 AND RESTRICTIVE DECLARATION

(a) Modification of ZR Section 93-06: Under Section 93-06 of the Zoning Resolution, as modified by the City Council, the execution and recordation of a Restrictive Declaration including the modifications described in (b)- (e) below shall be required for any development or enlargement on the WRY pursuant to the zoning amendments.

(b) City Council Approval of Modifications: Under Section 4.04 of the Declaration, as modified by the City Council, any future modifications to the provisions of the Declaration pertaining to Affordable Housing (Sec. 2.01); Public Access Areas (Sec. 2.02 (a)-(e) and (h)); Arts and Cultural Space (Sec. 2.04); the Public School, Open Space, and Day Care Mitigations (Sec. 3.04 (a)-(c)), Modification and Amendment (Sec. 4.04(a)), and the Construction Consultation Process Committee and Liaison (Sec. 6.01), that would diminish or alter the obligations of Related, shall be subject to the approval of the City Council.

(c) Independent Monitor: Under Sections 3.07(a) and 6.01 of the Declaration, as modified by the City Council, the Independent Monitor shall prepare a quarterly report summary of activities for distribution to any Construction Consultation Process Committee established under Section 6.01 of the Declaration.

(d) Wind Analyses: Under Section 3.02(c) of the Declaration, as modified by the City Council, Related agrees to provide copies of all final Wind Conditions Reports to Manhattan Community Board 4, the local Council Member, the Manhattan Borough President, and any Construction Consultation Process Committee established pursuant to Section 6.01 of the Declaration.

(e) Construction Consultation Process Committee: Under Section 6.01 of the Declaration, as modified by the City Council, Related agrees that, upon request of the Construction Consultation Process Committee, Related's designated liaison shall address, on a regular basis, the questions and concerns of the Committee about construction related issues beginning at the time of issuance of the first Foundation Permit for a New Building on the WRY.

10. LANDMARKS

The Landmarks Preservation Commission (“LPC”) will conduct a preliminary review of the historic districts proposed by CB4 in their letter dated November 20, 2009 and annexed hereto as Exhibit 5, by the end of Fiscal Year 2010. During that period the LPC will also complete an evaluation of the 11 sites proposed for landmark designation by CB 4 in their letter dated November 20, 2009 and annexed hereto as Exhibit 6, to determine whether they should be considered further for landmark status.

District Manager

July 27, 2009

Director Amanda M. Burden
Department of City Planning
22 Reade Street
New York, New York 10007

**Re: ULURP Nos. 090422HAM, N090429ZRM, 090423HAM and 090430ZMM
West 48th and 49th Streets, west of 10th Avenue and 806 Ninth Avenue
Off-site Affordable Housing sites a/k/a DEP site and MTA site, respectively**

Dear Director Burden:

At the recommendation of its Clinton/Hell's Kitchen Land Use Committee, Manhattan Community Board 4 (CB4), having held a duly noticed public hearing on ULURP application numbers 090422HAM, N090429ZRM, 090423HAM and 090430ZMM adopted the following resolution by roll call vote at its meeting on July 22, 2009 with 23 in favor, 10 opposed, 0 abstaining and 1 present but not eligible to vote). The resolution recommends **denial** of each Application **unless certain conditions are met**.

OVERVIEW

The above applications contemplate the disposition, zoning text and map changes, and zoning map changes relating to two off-site affordable housing developments, at 806 Ninth Avenue and West 48th Street and West 49th Street, west of Tenth Avenue. These Off-site Actions ("Off-site Actions") are related actions to the larger proposed redevelopment ("Proposed Actions") of the Western Rail Yards ("WRY"), located from West 30th Street to West 33rd Street between 11th and 12th Avenues.

Both sites are located in the Special Clinton District ("SCD") and are publicly-controlled by the Department of Environment Protection ("DEP") and the Metropolitan Transit Authority ("MTA") respectively. The off-site affordable housing development sites were identified in a Memorandum of Understanding ("MTA MOU") between the Metropolitan Transportation Authority ("MTA") and the Mayor of the City of New York dated July 11th, 2007. The goals of MTA MOU were acknowledged in a letter from Councilmember Quinn to the Deputy Mayor Dan Doctoroff also dated July 11th, 2007 (Attachments A and B).

The Proposed Actions include the adoption of zoning map and text amendments to the New York City Zoning Resolution ("ZR") and related land use action to permit the

development of the WRY as a mixed-use community with new commercial, residential and open space, including approximately:

- 5.7 million square feet of total development;
- 1.14 million square feet of commercial space;
- 4.56 million square feet of residential;

The resultant changes will encompass, *inter alia*, zoning map and text amendments and accessory parking special permits pursuant to ULURP; the leasing of, with option to purchase, development rights over the WRY, establishment of new legal grades on West 33rd Street between 11th and 12th Avenues; site selection by NYC School Construction Authority (“SCA”) for an elementary/intermediate public school; and the disposition and construction of two off-site affordable housing buildings, the subject of the above referenced ULURP applications.

GENERAL COMMENTS

At the outset, Manhattan Community Board 4 (“CB4”) celebrates its economic diversity and welcomes development of affordable housing for all income levels. However, the development of the two off-site affordable projects has been the subject of an ongoing spirited debate within the community with widespread community consensus against that part of the special permit seeking height increases beyond what is now permitted within the SCD.

The applications for these two publicly owned sites, located between West 48th and West 49th Street west of Tenth Avenue (“DEP Site”) and 806 Ninth Avenue (“MTA Site”), contemplate the construction of a combined 312 affordable units. While the Off-site Actions are currently limited to a zoning text and district map amendment and a zoning map amendment, the ultimate development of these sites is predicated upon future land use actions.

DEP Site

Current Actions

- 1) Disposition of City Owned Property and UDAAP designation for Manhattan Block 1077, Lot 29 for development as affordable housing.
- 2) Text Amendment to the Special Clinton District Map to map Other Area on Block 1077, Lot 29 to facilitate the development of the site as affordable housing.

Future Actions

- 3) The request for the grant of a Special Permit pursuant to ZR § 96-104 to increase the height from 66 feet to 99 feet.
- 4) The request for the grant of a Special Permit pursuant to ZR § 74-681 to build over the below grade Amtrak railroad right of way.

MTA Site

Current Actions

- 5) Disposition of City Owned Property and UDAAP designation for Manhattan Block 1044, Lot 3 for development as affordable housing.
- 6) Zoning Map Amendment on Block 1044, Lot 3, to include a C1-5 overlay to facilitate the development of the site as affordable housing.

Future Actions

- 7) The request for the grant of a Special Permit pursuant to ZR § 96-104 to increase the height from 85 feet (as-of-right) to 115 feet along Ninth Avenue at the MTA site.
- 8) The request for the grant of a Special Permit for General Large Scale Development on the MTA site to facilitate the development of the site as affordable housing.

Community members were outspoken against granting any Special Permits pursuant to ZR § 96-104 in the Preservation Area of the SCD. Such a Special Permit would allow developments in the midblock a maximum height of 99 feet from the as of right height of 66 feet, and developments on the avenues up to 115 feet from the as of right height of 85 feet. Community members were very wary of granting such permits given the strong commitment to preserve both the existing fabric of the community and overall quality of life. In the 38-year history of the SCD, only two such applications have been approved in the Preservation Area.¹ Both of these applications were opposed by CB4 as neither successfully argued that the public benefit outweighed the goals of the SCD in preserving its unique residential character.

At the same time however, the community supports the proposed housing programs for each site and welcomes securing affordable housing for the hard-to-reach 80%/125%/165% AMI (moderate and middle income) bands (Attachment C). However, many residents believe that these projects should proceed at the as-of-right heights of 66 feet and 85 feet respectively. Instead of granting the Special Permit pursuant to ZR § 96-104 to allow the requested increased height on these buildings as proposed, the community would like to see more affordable housing incorporated on-site at the WRY.

Although CB4 has previously taken a position to support Special Permits at these sites (Attachment D), our current position has now been modified to reflect the goal to balance the community's need to maximize affordable housing while at the same time preserve the residential and low-rise character of our neighborhood.

The off-site development of affordable units as mitigation for the WRY cannot take the place of a realistic plan to develop affordable units as part of the on-site development. CB4 is emphatic in its desire to see that this project integrates units affordable to those of low, moderate, and middle incomes. The WRY on-site plan must also include a firm commitment that at least 20% of all on-site residential units be developed as affordable, in perpetuity.

¹ 360 West 43rd Street and 404 West 54th Street

AFFORDABLE HOUSING

The Need for a Commitment to a Comprehensive Affordable Housing Plan.

CB4 has strongly articulated a policy for future housing growth affordable to a full range of incomes. We cannot and will not support any WRY development plan that does not provide the amount and type of permanent affordable housing the community needs to retain its diversity. We disagree with the DEIS conclusion that “*the Proposed Actions would not significantly alter or substantially accelerate the study area’s long-term trend toward increasing residential development, affluence and residential desirability.*” The City should be mitigating the market trend through public policy initiatives and commitment of resources to ensure affordability for all New Yorkers, not just those with the highest incomes. The Proposed Actions present an opportunity to mitigate and balance that trend to promote inclusiveness for all New Yorkers, not to rationalize creating a high income exclusive community on the Westside. The construction of a great number of market-rate housing units balanced only by the small number of low-income housing that may be created under existing programs, e.g., 80/20 and inclusionary bonuses, does not achieve the community’s goal and is unacceptable.

CB4 has consistently advocated that 30% of the residential development on this public site known as the WRY must be allocated to permanent affordable housing for low-, moderate- and middle-income families. This message was strongly reinforced by the community’s comments in reviewing each of the proposals by the respondents to the Request for Proposal’s (“RFP”). The New York Times concurs with this position and ran an editorial in March 2008 identifying the need for more affordable housing on the Far West Side. (Attachment E) Yet the RFPs required only that any rental housing be built using New York State Housing Finance Agency’s (“HFA”) 80/20 program. Condominium or cooperative units are exempt from any affordable housing requirement, and none of the rental units are required to be permanently affordable.

Public land is one of the few places where government can require that development address the housing needs of a broad range of New Yorkers. ***The WRY is the largest publicly owned development site left in Manhattan.*** While the MTA has a corporate responsibility to maximize the value it gets for the property, it is also a public entity; it is appropriate that the MTA’s drive for financial gain be tempered by standards of public responsibility that would not apply to either a privately held corporation or a private land owner.

It is astounding that between 6,000,000 to 7,000,000 square feet will be developed for market-rate and commercial interest in the WRY, yet a just and adequate plan has not yet been fully developed to provide permanent affordable housing for New Yorkers of all incomes, particularly at a time when the need for affordable housing is so critical. CB4 cannot support the Proposed Actions in the absence of a permanent and realistic affordable housing program.

The DEIS states that only 379-390 units out of a total of 4,624 to 5,762 residential units will be affordable. How can this number be considered inclusive? It is simply unacceptable. Furthermore, the temporarily affordable units will only be for those households earning <60% AMI, with no provisions for moderate and middle income families. Such a mix will create a polarized household income range on the WRY and exclude moderate and middle income households, the backbone of our city.

After many productive discussions during the 2005 Hudson Yards rezoning process, the City and CB4 were able to achieve 28% permanent affordability that included provisions for production of moderate income housing through both a modified Inclusionary Housing Bonus and development of off-site publicly-owned land. Although the WRY proposal includes a special on-site Inclusionary Bonus, given the inherent difficult site conditions - with the extreme density proposed on such a limited lot area, CB4 is doubtful the development team will be able to access that housing bonus. CB4 appreciates and welcomes the proposed off-site moderate and middle income developments with a projected 312 affordable apartments. ***However, the plan for the WRY, even including those moderate and middle income off-site affordable developments, falls far short of the commitment achieved in the Hudson Yards rezoning with less than 4.5% of the square feet dedicated for the development of permanently affordable apartments.***

Moreover, this new neighborhood will not be a healthy neighborhood unless it includes the broadly diverse population that is this City's hallmark. CB4's response and comments to the proposed off-site housing at the DEP site, 505 West 48th Street, and the MTA site, 806 Ninth Avenue, are in our related letter.

REQUESTS FOR AFFORDABLE HOUSING MITIGATION

1. *Not less than 20% of all residential units constructed on-site in the WRY must be permanently affordable.*²
2. *Identify additional publicly owned off-site affordable housing sites in CB4 for either construction or preservation of permanently affordable housing to achieve an overall goal of 30% affordability in the WRY development. Commit the use of this existing publicly owned land to develop and construct affordable housing (Attachments F and G). In particular, CB4 recommends the sites below for consideration:*
 - 136 West 20th Street (DSNY)
 - 415 West 40th Street (PANY/NJ)
3. *Preserve existing affordable housing within CB4 subject to subsidy expiration. (Attachment H) Specifically, those properties currently owned by the applicant, RG WRY LLC, an affiliate of The Related Companies:*

² Permanently affordable shall mean that apartments are so designated by deed restriction, regulatory agreement or other legal instrument and may not be converted to market rate units after a given expiration date of a mortgage, tax incentive or any other government program. These specific units shall remain affordable in perpetuity.

- 425 West 48th Street
 - 525 West 47th Street
4. *Establish a dedicated fund within existing resources to preserve Single Room Occupancy units in CB4 as mitigation of the anticipated loss of SRO units as a result of the Proposed Actions.* (Attachment I) There are over 1000 SRO units noted to be at risk in the WRY study area, CB4 requests preservation of existing SRO housing with at least a 60% community resident requirement.
 5. *Implement the 2005 commitments to apply the Demolition Restrictions of the SCD in both the Hudson Yards Special District and West Chelsea Special District to preserve existing housing.*
 6. *Conversion over time of on-site low income units to moderate and middle income units.* At the expiration of affordability restrictions for the on-site affordable units built under the 80/20 financing program and upon the vacancy of the tenant and legal successor(s), make those units permanently affordable to households tenants with a range of moderate and middle incomes as follows:
 - 20% of the affordable units shall be available to people with incomes up to 80% of the Area Median Income (AMI);
 - 50% of the affordable units shall be available to people with incomes up to 125% of AMI; and
 - 30% of affordable units shall be available to people with incomes up to 165% of AMI.

Accomplish this conversion overtime through deed restriction and regulatory agreement to supplement the bond covenants, similar to the extended use restrictions on Low Income Housing Tax Credit developments.

7. *Affordable housing distribution within mixed income developments.* Eighty% of the floors of any mixed income building should have at least one affordable unit and there should be no more than 33% affordable units on any floor.
8. *Affordable housing must become available to the real estate market at a similar rate to the market rate housing.* The Restrictive Declaration should model such language from the existing Restrictive Declaration used in the Riverside South development in the West 60's.
9. *Developments of affordable housing on- or off-site units should require of at least 50% two-bedroom or greater units.*
10. *The administering agent should be an independent non-profit organization.*

THE ULURP APPLICATIONS

In light of the above enumerated concerns, CB4 has carefully reviewed these ULURP applications; our comments and recommendations follow.

1) ULURP No. 090422HAM--Disposition of City Owned Property and UDAAP designation for Manhattan Block 1077, Lot 29 for development as affordable housing (DEP Site)

CB4 recommends denial of the City Owned Property and UDAAP designation for Manhattan Block 1077, Lot 29 for development as affordable housing (DEP Site) ULURP No. 090422HAM, unless the following conditions are met:

The Affordable Housing Component

- A restrictive declaration be filed that restricts development of the site for affordable housing in perpetuity as follows:
 - 20% of the units be affordable to those earning 80% Area Median Income;
 - 40% of the units be affordable to those earning 125% Area Median Income; and
 - 40% of the units be affordable to those earning 165% Area Median Income.
- At least 50% of the developed units must be family-sized i.e. two bedrooms or larger.
- A permanent easement is granted for unobstructed light and air from the DEP water access tunnel site to the east. Because of the peculiarities of this development site, fronted by a park and/or undeveloped DEP water tunnel access along its eastern border and being situated over the railroad cut, CB4 is not opposed to a future special permit to reduce the lot coverage requirement and to reduce the rear yard depth. However, light and air, including operational windows along the eastern façade cannot be obstructed by the DEP water tunnel structures or subsequent security measures.
- Any future action at this site for a Special Permit pursuant to ZR § 96-104, seeking to increase building height, must not exceed a proposed 76 feet total in height. CB4 arrived at the 76 foot height limitation as a compromise between the City and the strongly held principles of community residents who care deeply about both maximizing affordable housing opportunities while preserving the residential, low-rise character of the neighborhood (Attachment J).
- No retail and/or commercial use shall be included in the development. The community strongly opposes the proposed use to include street level retail on West 49th Street. Retail commercial uses on the residential side streets are a growing problem now exacerbating an already problematic bar/club use on residential blocks, which is negatively impacting the character of the neighborhood.
- DEP release the portion of the site not being used by DEP (that portion over the rail cut and a strip of terra firma to the west) by 2010 in order to allow affordable housing development to proceed prior to 2013.

- The City’s prior commitment to use public funds to develop this project must be codified in a Follow-Up Corrective Actions (“FUCA”) memorandum of understanding that is executed simultaneously with the rezoning action for the WRY.
- A restrictive declaration be filed stating that the site cannot generate an inclusionary housing bonus or be used to satisfy the SCD District Harassment Cure requirements pursuant to ZR § 96-110.
- Comfort stations for public use in conjunction with the DEP open space be included in the affordable housing development. and
- The RFPs to select a developer for this site be developed in consultation with CB4.

The Open Space Component

Finally, as part of a negotiated agreement between the City, DEP and CB4, the area immediately east of the affordable housing site shall be developed as open space and shall be used as a park with programming for young children. Currently, CB4 ranks 58th among 59 Community Districts throughout the city.

More than a decade ago, the use of the land fronting Tenth Avenue between West 48th and 49th Streets was committed for public open space. In the Negative Declaration dated May 25, 1993, DEP assured CB4 that the site was “to be used for occasional tunnel maintenance and that shaft would be 5 feet by 3 feet with a 14 inch diameter” (Attachment K). By letters dated February 28, 2005 from Adrian Benepe of the New York City Department of Parks (“NYCDP”) and dated September 7, 2006 by Deputy Commissioner Alfonso R. Lopez from DEP to Manhattan Borough President Scott Stringer (Attachments L and M), both city agencies restated their commitment for public open space on the balance of this site. At that point, even the area that DEP needed for access was intended to be accessible to the public as a park extension. ***We learned only late last week , on July 16th, 2009, that the West 49th Street site is now intended to serve as the main west side access point to the water tunnel and that security and maintenance needs will result in the full half-block being paved and fenced and that ownership will remain with DEP; therefore:***

- Resolution of the exact dimensions of the publicly-accessible open space in relation to the portion of the site needed by DEP for access to the water tunnel, **must be codified in writing by DEP.**
- A clear written timeline for acquisition and development of this open space must be included in the overall WRY development plan and **be codified in writing by DEP.**
- The identification by the Mayor’s office of a DEP or other agency controlled site for replacement open space to be located within a sub-area of CB4 (West 34th to West 57th Streets and West of 8th Avenue), equal to that open space lost due to

DEP's expanded site usage for water tunnel maintenance ((currently approximated at 120 by 200 feet in dimension).

- A written commitment from DEP for the hiring of a landscape architect to plan the landscaping and use of both the undisputed northern portion of open space and the southern portion maintenance area. A further written commitment for the funding of such open space improvements with the agreement to continue to include CB4 and the surrounding community in its development process.

2) ULURP No. N090429ZRM--Text Amendment to the Special Clinton District Map to map Other Area on Block 1077, Lot 29 to facilitate the development of the site as affordable housing

The proposed Zoning Text Amendment seeks to move the boundaries of the Preservation Area of the SCD to the east so that the proposed development falls within the Other Area, which has less stringent rear yard requirements and overall greater lot coverage. This proposed action, reducing the Preservation Area, is in direct contravention with CB4's longstanding policy to expand the Preservation Area. It is also inconsistent with the Department of City Planning's ("DCP") own framework for the 11th Avenue Rezoning that will extend the boundaries of the Preservation Area westward to within 100 feet of 11th Avenue.

This site is unique. It is situated over a rail cut with open space and the DEP access for the water tunnel extends the full length of its eastern façade. The proposed building form makes best use of the site, maximizes the number of affordable units, and has adequate light and air, given the open space to the east. However, we strongly believe that the regulations are best modified through text amendments governing rear yard requirements and permitting greater lot coverage.

CB4 recommends denial of the Zoning Text Amendment for Manhattan Block 1077, Lot 29 (DEP Site) for development as affordable housing), ULURP No. N090429ZRM, unless the following conditions are met:

- The boundaries of the Preservation Area are not changed and that modifications as necessary to expand both rear yard requirements and lot coverage are accomplished through subsequent text amendments.

3) ULURP No. 090423HAM, Disposition of City Owned Property and UDAAP designation for Manhattan Block 1044, Lot 3 for development as affordable housing (MTA Site)

CB4 recommends denial of the City Owned Property and UDAAP designation for Manhattan Block 1044, Lot 3 for development as affordable housing (MTA Site) ULURP No. 090423HAM, unless the following conditions are met:

- A restrictive declaration be filed that restricts development of the site for affordable housing, in perpetuity, as follows:
 - 20% of the units be affordable to those earning 80% Area Median Income;
 - 40% of the units be affordable to those earning 125% Area Median Income; and
 - 40% of the units be affordable to those earning 165% Area Median Income;
- At least 50% of the units developed must be family-sized i.e. two bedrooms or larger.
- The elimination of the 30,000 square feet reserved for the MTA office/training space; additional MTA needs can be accommodated at the existing MTA Control Center (“Control Center”) to the east or on the 7,000,000 square feet to be developed on-site at the WRY. It is outrageous to expect MTA needs to be accommodated within the small lot area dedicated to affordable housing.
- Any future action at this site for a Special Permit pursuant to ZR § 96-104, seeking to increase building height, must maintain a building height of 85 feet along Ninth Avenue frontage, and on West 54th Street, beginning 50 feet east of Ninth Avenue and through the midblock backing against the existing MTA Control Center, the building height must be no greater than 99 feet. CB4 arrived at the 85 and 99 foot height limits at this site as a compromise between the City and strongly held principles of community residents who care deeply about both maximizing affordable housing opportunities while preserving the residential, low-rise character of the neighborhood (Attachment N).
- Eliminate the 15 MTA parking spaces planned for the site.
- ***MTA release the city owned site from the NYCTA master lease upon approval of the WRY ULURP by the City Council, not a release contingent upon construction start at the WRY.*** The off-site housing is mitigation under the DEIS for the Proposed Actions, namely the rezoning from an FAR of 2.0 to an FAR of 10.0. Therefore, when the zoning is approved the mitigation is required.
- The RFP to select a developer for this site be developed in consultation with CB4.
- The City’s prior commitment of public financing to develop this project be codified in a FUCA memorandum of understanding that is executed simultaneously with the rezoning action for the WRY.
- A restrictive declaration be filed stating that the site cannot generate an inclusionary housing bonus or be used to satisfy the CSD District Harassment Cure requirements pursuant to ZR § 96-110.
- The designation of two potential landmarks identified in the WRY DEIS: (Attachments O, P and Q)
 - *St. Benedict the Moor Church, 342 West 53rd Street* – NYCL- and S/NR-eligible: Erected in 1869 and designed by R.C. McLane & Sons, the church has seen various congregations and parishioners over its more than 100-year history, yet most famously served as the first black Roman Catholic Church north of the Mason Dixon line. In 1921, due to African American migration to the north, the congregation moved to Harlem and the church was reassigned to the Spanish Order of Franciscans in 1954 who have occupied the site ever since. The church stands as a vestige of

the days when the neighborhood of Clinton/Hell's Kitchen was a thriving African-American neighborhood.

- *Tenement Blockfront (781-795 9th Avenue)* – S/NR-eligible

This collection of Hell's Kitchen tenements serves as a reminder of the late 19th century residential character of Ninth Avenue. The Renaissance-inspired stone, brick, terra cotta, and metal ornamentation and largely extant cornices present a valuable collection of tenement architecture.

4) ULURP No. 090430ZMM—Zoning Map Amendment to Block 1044, Lot 3, to include a C1-5 overlay to facilitate the development of the site as affordable housing

This requested Zoning Map change seeks to cover the entire zoning lot with a C1-5 overlay thus permitting a future action that will include a Large Scale Development Plan reducing rear yard requirements and relaxing lot coverage restrictions. Similar to the DEP site, we believe that the proposed building form makes best use of the site, maximizes the number of affordable units and has adequate light and air. However, we are concerned by the wider latitude granted to a developer in a Large Scale Development Plan and the unforeseen consequences. In the history of the SCD, a Large Scale Development plan has never been used. To permit one now on this site would set a precedent for the entire Special District. Similar to the DEP site, we strongly believe that the rear yard and lot coverage regulations are best modified through text amendments.

This proposed action also anticipates a future action for a Special Permit to increase the building height along Ninth Avenue to 115 feet. At the conclusion of the well attended and very engaged public debates on the two off-site developments, we delicately balanced the concerns of the community and arrived at an overall compromise to maximize the affordable units and to preserve community character.

Accordingly, CB4 recommends denial of Zoning Map Amendment ULURP No. 090430 ZMM, unless the following conditions are met:

- C1-5 map amendment covering the entire zoning lot be denied; the City and/or future developers commit to not filing a Large Scale Residential Plan for the site and instead accomplish desired modifications as necessary to rear yard requirements and lot coverage through subsequent text amendments. If a C1-5 map amendment is approved against our objections then the commercial FAR be limited to one (1) FAR.

NOW, THEREFORE, BE IT RESOLVED that Manhattan Community Board 4 recommends denial of **ULURP Nos. N 090429ZRM, 090430ZMM, N090423HAM, 090422HAM** unless the above enumerated conditions are met.

Sincerely,

John Weis, Chair

New York, NY 10038

**Re: Affordable Housing RFP's
MTA & DEP Sites (806 9th Avenue & 705 10th Avenue)
Western Railyards Points of Agreement**

Dear Commissioner Torres-Springer,

Manhattan Community Board 4's (CB4) would like to welcome and congratulate you to your new role as Commissioner of Department of Housing and Preservation (HPD). We look forward to working with you and your exceptional staff on advancing the development and preservation of affordable housing with in Community District 4.

With that goal in mind CB4 writes to follow up on it's 2015 request to Department of Housing Preservation and Development (HPD) to move ahead with a singular RFP for both the **806 9th Avenue** at West 54th Street (Block 1044, Lot 3) MTA owned site and the **705 10th Avenue** at West 48th Street (Block 1077, Lot 29) DEP owned site¹.

These two publicly-owned sites were committed by the City to be developed as affordable housing as part of the Western Railyards Points of Agreement (WRYPOA)². The Western Railyards closing with Related Companies occurred on April 10, 2013. Furthermore, both sites

¹[CB4 Letter to HPD re MTA & DEP Site Status](#)

²[Western Railyards Points of Agreement](#)

are priorities in CB4' Affordable Housing Plan³ and have the full support of Council Member Corey Johnson.

The MTA Site, a former bus depot that was demolished in 1996, is currently a vacant lot used for MTA parking. The proposed building will contain approximately 124 affordable units, its height not exceeding 85 feet. The permanently affordable units will be a mix of 165% AMI or under, with 20% of the units being 80% AMI, 40% being 125% AMI, and 40% being 165% AMI. Additionally, 50% of the building's units will have 2 or more bedrooms. Under the New York City Zoning Resolution Section 23-90, the site will not generate an Inclusionary Zoning bonus.

The DEP site, a Third Water Tunnel Access Shaft site, as of October of 2016 has been vacated and DEP is now working with the administration to transfer the property to both HPD and the Department of Parks to develop separate affordable housing and public open space projects.

The proposed building will contain approximately 143 affordable units, its height not exceeding 77 feet. The permanently affordable units will be a mix of 165% AMI or under, with 20% of the units being 80% AMI, 40% being 125% AMI, and 40% being 165% AMI. Additionally, 50% of the building's units will have 2 or more bedrooms. Under the New York City Zoning Resolution Section 23-90, the site will not generate an Inclusionary Zoning bonus.

The Community Board requests to meet and begin the issuance of the Affordable Housing RFP for these two sites.

Sincerely,

Delores Rubin
Chair

**Re: Affordable Housing RFP's
MTA & DEP Sites (806 9th Avenue & 705 10th Avenue)
Western Railyards Points of Agreement**

Dear Commissioner Been,

At the September 17, 2015 meeting of Manhattan Community Board 4's (CB4) Housing, Health and Human Services Committee reviewed the Board's Affordable Housing Plan. In its review, the Committee extensively discussed the following affordable housing sites:

806 9th Avenue (Block 1044, Lot 3) -- MTA Site, East side of 9th Avenue and West 54th Street

705 10th Avenue (Block 1077, Lot 29) --DEP Site, West side of 10th Avenue between West 48th & West 49th Street

These two publicly-owned sites were committed by the City to be developed as affordable housing as part of the Western Railyards Points of Agreement (WRYPOA), copy attached. The Western Railyards closing with Related Companies occurred on April 10, 2013. CB4 requests HPD now move ahead with RFP process for these sites. The Board further requests one RFP be issued for both sites, similar to the Elliot-Chelsea/Fulton Houses NYCHA/HPD RFP in 2006.

The MTA Site, a former bus depot that was demolished in 1996, is currently a vacant lot used for MTA parking.

The proposed building will contain approximately 124 affordable units, its height not exceeding 85 feet. The permanently affordable units will be a mix of 165% AMI or under, with 20% of the units being 80% AMI, 40% being 125% AMI, and 40% being 165% AMI. Additionally, 50% of the building's units will have 2 or more bedrooms. Under the New York City Zoning Resolution Section 23-90, the site will not generate an Inclusionary Zoning bonus.

The DEP site, a Third Water Tunnel Access Shaft site, comprises:

- The Access Shaft Site

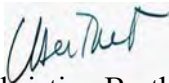

- Vacant land currently used for construction staging and parking for contractors working on accompanying distribution water mains
- Air rights over the Amtrak rail cut (the majority of the footprint of the entire site)
- Vacant land used for DEP parking

While the DEP work will continue for another 2 to 3 years, the RFP and development process can move ahead concurrently with the completion of the DEP water main work and the transfer of a portion of the land to become a park.

The proposed building will contain approximately 143 affordable units, its height not exceeding 77 feet. The permanently affordable units will be a mix of 165% AMI or under, with 20% of the units being 80% AMI, 40% being 125% AMI, and 40% being 165% AMI. Additionally, 50% of the building's units will have 2 or more bedrooms. Under the New York City Zoning Resolution Section 23-90, the site will not generate an Inclusionary Zoning bonus.

The Community Board requests to meet and begin discussions with HPD regarding the issuance of the Affordable Housing RFP's for these two sites.
