SECURITY PLAN

Visitors will be registered by the hosting BlackRock employee or team. Upon arrival to the building a guest will check in at the lobby desk, present a individualized QR code that will populate the person's information. Upon verification by BlackRock staff, the guest will be presented with a visitor badge that will provide access to the turnstiles. After entry into the turnstiles the guest will be directed to a specific reception floor where the BlackRock employee will meet their guest. It is required that the BlackRock host then escorts visitors to their specific meeting location and then to the exit upon completion of their engagement. Visitors do not need to return guest badges as they are only active for that specific day and unique to that individual visitor. Visitor processing and protocols in the lobby.

BlackRock will maintain a 24/7 presence in the building with hired security. The building features a 24/7/365 Security Command Center that is outfitted with video surveillance and access control capabilities. The SCC will also serve as the base of command for daily security rounds and the BlackRock Incident Command Post during the event of any emergency scenario. Guards will be staffed at fixed posts at the main lobby reception desk, the event desk, and at critical locations on executive floors. A roving guard as well as a medically trained (EMT) first responder will also be present during high traffic hours and during special events. Staffing will increase during scheduled large events or as needed. Land Lord building security will also have a presence and can be called upon in the event of a large scale emergency.

500 Foot Law Statement

- A. The granting of this liquor license will have no negative impact on the neighborhood, as service of alcoholic beverages will not be available to the general public. All alcoholic beverage service will only be for private catered events, thus having no impact on vehicular traffic and parking within the surrounding neighborhood as most patrons of the applied for premises will already be present at BlackRock.
- B. Prior to operation of the premise, all necessary licenses and permits will be obtained.
- C. Because recorded music will be kept at a background-level volume, the noise level will not increase at the location.
- D. The granting of this liquor license will allow for a more high-end form of catered events to occur at BlackRock, thereby enhancing the prestige of such firm.

This report is for informational purposes only in aid of identifying establishments potentially subject to 500 and 200 foot rules. Distances are approximated using industry standard GIS techniques and do not reflect actual distances between points of entry. The NYS Liquor Authority makes no representation as to the accuracy of the information and disclaims any liability for errors.
