Using This Form

This online form provides you with a consolidated framework to describe both your district's prioritized needs and requests for funding from City agencies.

Navigating: Use the navigation panel to the left of the page to navigate between pages and policy areas, or navigate between pages by clicking "Back" or "Next" at the bottom of each page. You can only use "Next" when all required fields (marked with: *) on a page are completed. Use the navigation panel if you have not completed filling out the page but you want to move to a different page.

Autosave: Autosave is enabled and activated when users enter a text box or make changes to selections. We strongly encourage you to periodically click on the "Save" icon at the bottom of each page. If you are idle for more than 10 minutes, a notification will appear for you to resume working or log-off.

Print: To share and review your progress, select the "Print" icon above. Printing will generate a draft report that allows users to select fields they want to download into a PDF. Select specific sections, information, and narratives you would like to download into a PDF.

For a detailed walk through of how to navigate and complete the online submission form, view the Community District Priorities Website User Manual and additional resources listed below.

Needs and Budget Requests

[**FY 2023 Budget Requests Guide \(Linked\)**](#)

Your Statements of CD Needs describe the current conditions and evolving future needs of your district, providing agencies, and other key stakeholders, unique local perspective when considering your community board's budget priorities during planning, outreach and decision making.

Please describe your district needs within the separate policy areas listed below and found in the left navigation panels. Within each policy area, you can identify agency specific needs, as well as add budget requests that align with each of the related needs.

The budget requests guide linked above provides you with an overview of all potential budget requests community boards can make to the City through the online submission form. The budget requests contained in the guide can be found within their corresponding policy area, included in the "Needs and Budget Requests" section.

If you believe a request for a particular agency is missing within the form drop down menus, please contact us for support. For offices or departments that are not contained within a specific policy area, such as the Taxi and Limousine Commission or the Mayor’s Office of Media and Entertainment, please consider utilizing the “Other Agencies and Needs” section.

Policy Areas and Relevant Agencies

| Policy Area | Responsible Agencies |

District Overview and Most Pressing Issues**Community District Overview and Narrative**

The Community District Overview section should be used to summarize the unique characteristics, prevailing trends and associated needs of your community district this year.

Your District Overview is an opportunity to highlight both significant changes, and persistent challenges facing your district over the last year, including prevailing trends and associated needs related to COVID-19. You may consider incorporating some or all of the following in your narrative:

- Overall, what are the greatest challenges facing your district and how have they changed since your last submission?
- Is your district growing or shrinking?
- Are there demographic shifts in certain population groups (e.g., more school-aged children or more seniors)?
- What are the current land use and/or development trends (e.g., housing, businesses, community facilities)?
- Did the pandemic highlight particular vulnerabilities of the underlying infrastructure, or city services within your community?
- What have been the most significant 'on the ground' changes within your District?
- How did the City's COVID-19 response affect your district?
- What programs or services are most essential for your district to continue recovery and move forward from challenges brought on by COVID-19?

Below is a list of general guidelines to ensure your narrative is complete:

- District overviews and narratives typically range from three to five paragraphs, about 500 to 1,500 words
- Reference relevant research, citing figures and current or most recent available data.
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within the narrative
- Specific locations (if applicable) should be clearly defined and stated within the narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Manhattan Community District 4

Manhattan Community District 4 ("MCD4") is comprised of three neighborhoods on the west side of Manhattan: Chelsea, Clinton/Hell's Kitchen and Hudson Yards bounded by 14th Street in the south, West 59th Street in the north, Sixth Avenue south of West 26th Street and Eighth Avenue north of 26th Street as its eastern border and Hudson River to the west. Portions of several well-known and economy-driven areas exist within MCD4's boundaries, including the Garment District, the Flower District, the Gansevoort Market Historic District, the Ladies' Mile Shopping District, the West Chelsea Historic District and the Theater District. Other notable sites in MCD4 include: Restaurant Row, The High Line,

Columbus Circle, the Intrepid Sea, Air & Space Museum, the Farley Building/Moynihan Station, the Lincoln Tunnel, the Port Authority Bus Terminal, the Javits Center, the Manhattan Cruise Ship Terminal, Bella Abzug Park, Manhattan West, the Vessel and The Shed at Hudson Yards, the Circle Line, the Rubin Museum, Chelsea art galleries, Maritime Piers 56-99, and the northern half of Hudson River Park.

Community District 4 Trends

In addition to acute challenges induced by the pandemic and the migrant crisis, our district was already undergoing tremendous shifts. Since 2010, the population of MCD4 has grown over 27%(1). This comes on the heels of a 20% growth between 2000 and 2010, much of it concentrated in recently rezoned areas. This rate of growth is four times faster than New York City's. The rapid increase in land value accelerated the displacement of many long- time tenants and small business owners, while the new benefits of new development are slow to materialize. Members of MCD4 have strived for balance between the redevelopment of these areas with the preservation and expansion of the district's residential neighborhoods. A major priority, highlighted by the pandemic, is ensuring that new development helps produce more permanently affordable housing. To add to the dwindling affordable housing stock is the City's lack of oversight and enforcement of building neglect by landlords. This includes illegal demolition and demolition by neglect.

Overall, the rezonings and subsequent construction has contributed to the deterioration of the quality of life of MCD4 residents. This mass of new construction is exacerbated by the development of large-scale proposals within MCD4, including Hudson Yards, Manhattan West, the Port Authority Bus Terminal, Amtrak's Gateway Tunnel proposal, and the conversion of the Farley Post Office into the new Moynihan Train Station. City Agencies' planning divisions, such as Sanitation, NYPD, and others, are slow to react to these trends and, consequently, our services and infrastructure are deficient for our rapidly growing population.

A consequence of the increased development coupled with the injection of a large migrant population is the enormous pressure put on existing public service systems in the area. Our schools and teachers are overburdened, our shelters are overflowing and our street landscape has quickly become incredibly unsafe due to unregulated electric and motorized vehicles.

Within the last couple of years, MCD4 has seen a drastic jump in street crime, much due in much to the overall economic situation as well as changes in crime prevention and enforcement. A contributing factor is the siting of homeless facilities and social other service facilities with no planning or coordination with the community. For these reasons, for the third year in a row, public safety was far and away reflected as the top priority in our district-wide survey. The city must recognize the critical need for our requested programs making our streets and neighborhoods safer, including the value of police out of their cars and walking their neighborhoods.

Contributing to our unhealthy environment, the drastic DSNY COVID cuts from the past administration has not been fully restored resulting in litter filling the district's streets and litter bins overflowing on corners. Trash collection continues to be a process unchanged since the 19th Century, filling sidewalks with garbage and taking space from pedestrians. It is incompatible with the new residential zoning of

the surrounding neighborhoods and more needs to be done to improve public transportation in both frequency and capacity.

Our district area is consistently recorded as having some of the worst air quality in New York City. The three main factors contributing to that dubious honor is our constant building and construction, traffic congestion of diesel fuel vehicles and, most blatantly, the cruise ship emission from vessels docked at the Manhattan Cruise Terminal. The city can make great strides in curbing two of those three with immediate action our MCD4 is requesting. There is urgency in developing public electric vehicle charging lots to encourage the elimination of gas-power vehicles on our roads. And MCD4 has long been on record for the conversion to electric shore power at the Manhattan Cruise Terminal.

Community District 4 - Immediate Issues

For decades, MCB4 has been a strong advocate for affordable housing at a range of incomes. Our community believes that socioeconomic diversity and integration are the only way to keep Clinton/Hell's Kitchen, Hudson Yards and Chelsea the thriving neighborhoods they are today. This constant principal frames virtually all district need discussions and is also reflected in our Statement of District Needs priority list.

Migrant Crisis & Neighborhood Effects: Layering onto our considerable challenges resulting from Covid-19 cuts, the city has placed an exceptional amount of recent asylum seekers in our District. AS of the writing of this report, MCD4 is the final destination for approximately 40 buses a week and has been the home for one intake center, one multi-service center and six temporary shelters housing migrant populations. This comes immediately after the city relocated a disproportionately high number of single, male homeless shelter residents, many with acute needs for social service, in our district. These overlapping populations have put an inordinate strain on our District's resources, including our public schools, parks and social services. Our neighborhoods are eager to embrace our new guests and we need the financial attention to do so properly.

Illegal Cannabis Shops: The long delay between cannabis legalization and the State's issuance of the first dispensary licenses resulted in a robust industry of illegal smoke shops developing across New York City. Taking advantage of the lack of education around legal cannabis, a number of these smoke shops are operating as unlicensed cannabis stores. As of the Spring of 2023, more than 50 such shops have opened in the MCD4 area with the majority of these stores along Eighth and Ninth Avenues from 50th Street to 34th Street. These unregulated, unlicensed, cash-based cannabis stores have already demonstrated they present a danger to public safety. Robberies and gun violence have

occurred at several illegal cannabis shops this year. Additionally, unapproved products sold at unlicensed stores present a health risk to customers, particularly to minors. The majority of cannabis stores do not check for identification to ensure customers are over 21 and they implement images and neon signage which attract young people. Lack of clarity around enforcement has allowed many of these stores to continue to operate and gain a customer base. This puts at risk the success of legal dispensaries and the potential tax revenue that should be generated from a robust, legal cannabis market. MCB4 was one of the first Community Boards to identify the scope of the issue and as early as July 2022. The City will need to provide resources for education and enforcement to combat the rise of unlicensed cannabis stores and the risk they pose to our community.

***E-Bikes & Moped Use:* In MCD4 the sheer volume of cyclists, pedestrians, delivery requests and delivery workers creates a growing hazard for the community. The rapid growth of delivery cyclists also called “deliveristas” is driven by the COVID era behavior of ordering products instead of picking them up at the store. This coincides with incredible growth of the app based delivery market. In the last three months of 2021, zip code 10019 in Manhattan district 4, ranked second highest in New York City for online deliveries. Zip code 10001 also in District 4 ranked very high. Neither our infrastructure nor our institutions have been adjusted to this new reality. Senior citizens and people with disabilities are most at risk as there are many cyclists, including Citibike cyclists, who ride on the sidewalk. The increased use of e-bikes and mopeds as modes of transportation have heightened the risks to all populations. Additionally this practice is a contributing factor to increased use of plastic containers and accumulation of garbage within our district.**

To combat these issues, resources are needed for both enforcement and education, particularly for the asylum seekers that are housed within our community and are actively engaged in the gig economy as “deliveristas.” While this is a new phenomenon, the number of fatalities and injuries of pedestrians and cyclists due to vehicular collisions is at its highest in years and also requires additional resources in street design and enforcement.

***Continued Deteriorating Street Life Conditions:* Policy changes and budget cuts implemented during the onset of the pandemic have resulted in an increase in open drug use, street homelessness, shoplifting, rats and overflowing litter baskets still prevalent in our district today. The reductions in policing,**

sanitation, DOB enforcement coupled with the disproportionate placement of shelter residents and asylum seekers has noticeably changed the character of our neighborhoods. Our large numbers of vulnerable populations have attracted predators which has taken parts of our neighborhoods back to earlier eras where homelessness and drug use overwhelmed our streets. And while some funding was ultimately restored for a number of city-wide enrichment and social service programs, MCD4 still faces significant public safety challenges, a high rate of commercial vacancies and unsanitary street conditions. Though office foot traffic has changed considerably since the pandemic, MCD4 encompasses significant tourist attractions and economic generators for the whole of New York City. For the opportunity to fully recover from the economic blow due to COVID-19, the City will need to recognize the accumulative effect of these issues and apply a comprehensive approach to applying resources.

Manhattan District 4's Priorities Include:

- **Ensuring safe surroundings that allows all - residents, visitors, and businesses -- to thrive, feel secure and live in a fear-free environment;**
- **Prioritizing public safety with crime prevention resources including “street beat” NYPD presence; Preserving affordable housing and creating additional affordable housing for people making a broad range of incomes (including Very Low, Low, Middle and Moderate);**
- **Maintaining neighborhood character and preventing displacement and eviction of residents and small businesses including checks of bad-faith landlords and illegal demolition;**
- **Providing adequate trash & recycling pick up service and policies and keeping our streets in clean and healthy conditions;**
- **Providing education, registration and enforcement regarding E-bike and moped use;**
- **Providing education and enforcement to combat the proliferation of illegal cannabis shops;**
- **Maintaining the stability of a long-standing local retail presence in our communities and preserving affordable commercial space for businesses, community, arts and cultural groups;**
- **Developing a coherent safe, reliable, accessible, affordable and connected transportation infrastructure for our district, including increasing public safety in transportation, strengthening, and improving public bus and rapid transit systems and fostering a better balance in street usage between pedestrians, bicycles and vehicles, particularly buses, all with the goal of improving connectivity and efficiency;**
- **Building new elementary and middle schools, to combat overcrowding and accommodate the rapidly increasing (+30%) school-age population;**
- **Provide requisite staff including bilingual support, and facility space for our public schools;**
- **Renovating and creating additional green spaces, including electric charging hubs, to combat the lack of parkland and green infrastructure;**

- **Increasing services to the homeless, seniors, people with disabilities, and youth; Addressing the quality of life issues associated with construction and outdoor dining;**
- **Working with the City to ensure its commitments generated by previous rezoning actions (affordable housing, parks, arts spaces,) are completed within a timeframe that addresses the looming threats of gentrification.**

Top 3 Most Pressing Issues Overall

Please indicate the three most pressing issues facing your district and provide a narrative for each issue detailing the needs within your district.

Consider the following general guidelines to ensure your narrative is complete:

- Narratives for each issue typically range from one to three paragraphs, about 250 to 1,000 words
- Check to ensure your narratives refer to the issue selected
- Within each narrative, explain the issue and/or what is lacking in the district, and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each narrative

- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

What are the three most pressing issues facing your district? Please select three.

Affordable housing

For decades, Community District 4 has lost thousands of affordable housing units because of quickly increasing rates and weak regulation. This includes demolition restrictions, illegal hotel conversion and harassment of tenants by landlords. Only recently have state laws been strengthened to preserve and protect the existing affordable housing stock. This stock has also been confronted by a tremendous increase in the development of new market rate and luxury housing. Of continued significant importance is the preservation and creation of affordable housing at all income bands. With our middle and working class dwindling, affordable units across the board are essential to our district. We also strongly advocate for a much greater amount of multi-bedroom units to keep families in place and family living affordable. Recently, our Community Board released our Affordable Housing Plan detailing our trends and needs. Meanwhile, we must all commit to implementing the NYCHA working group recommendations for Harborview, Elliot Chelsea, and Fulton Houses NYCHA developments.

Crime and public safety

In our recent district-wide survey, public safety was far and away the number one concern in our area. Our Community Board continues to hear public outcry over the state of their streets and subways. The still lingering effects of COVID and subsequent policies has dramatically increased the prevalence of theft and severity of substance abuse related issues, as well as homelessness, in MCD4. Additional support for mental health outreach, more funding for increased foot patrols and overall improved coordination with MCD4 stakeholders is needed in the district. We request more officers be patrolling the streets by foot at regular intervals and be visible to the population; an additional goal is to reduce the response time for complaints and to improve coordination with the community. Some of this illicit activity is occurring in our parks therefore, we also request more Park Enforcement Patrol (PEPs officers) to help keep our parks clean and safe.

Trash removal & cleanliness

Trash removal & cleanliness Sanitation/Quality of Life: "Make sanitation dept. budget a super priority, quality of life issues will improve" was one of many like-minded comments that appeared in our district survey responses. Since our drastic COVID related sanitation cuts, our neighborhood hasn't been the same. Dirty and unhealthy conditions including overflowing trash bins, increased rodent activity, garbage and syringe-strewn streets and a general lack of attention has sharply deteriorated the quality of life in our district. This environment is not just unsightly, it's hazardous. MCD4 is the gateway into NYC for many travelers. Our street conditions are hindering our economy and livability. We prioritize the clean up of our district, including a greater DSNY presence, organics collection and corner basket recycling, and ask the city pay special attention to the quality of life issues that make our spaces habitable.

Health Care and Human Services**Most Important Issue: Health Care and Human Services****Please identify the most important Health Care and Human Services issue your district is facing.**

Under your selection please explain why this issue more important than other Health Care and Human Services issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data

Most Important Issue:

Services to reduce or prevent homelessness

Services to reduce or prevent homelessness Homelessness became a major issue in MCD4 over the last several years, having been significantly exacerbated by the COVID-19 pandemic. The large number of emergency hotel shelter sites, social services sites and large transportation hubs located within MCD4, including the Port Authority Bus Terminal and Moynihan Train Hall, mean that the district has natural gathering places for unsheltered individuals and others with social services needs. MCD4's location and built environment results in a large number of people with high social services needs, including mental health and substance abuse needs with insufficient support or treatment options. Though the COVID-19 emergency is now over, MCD4 is one of the major recipients of migrants needing emergency temporary shelter. This year, MCD4 became a drop-off, intake and housing point for a large portion of the hundred thousand of asylum seekers traveling to New York City with no notice. While MCB4 acknowledges the emergency nature of the current asylum seeker crisis, moving forward, it is vital to work with the community to plan appropriate locations, sizes and other considerations for future facilities.

Needs for Health Care and Facilities

Health Care: The city has placed an exceptional number of recent asylum seekers in our District. MCD4 is the destination for approximately 40 buses a week and has been the home for one intake center, one multi-service center and six temporary shelters housing migrant populations, in particular families with children. The local community health clinic are overburdened and need both capital and expense funding to provide the needed family health care.

HIV/AIDS: The number of people living with HIV/AIDS in the Clinton\Hell's Kitchen and Chelsea neighborhoods continues to be disproportionately high compared to other neighborhoods. The recent re-opening of the Chelsea Sexual Health Clinic along with long-standing community partners in our district, i.e., Ryan-Chelsea Clinton Community Health Center, Callen-Lorde, and Gay Men's Health Crisis, are crucial partners in this fight, but more resources are needed for the efforts to make PrEP, PEP, and rapid HIV testing more accessible to all members of our community district. Public awareness campaigns around safe sex and sexual health should also be expanded.

Needs for Older NYs

According to the US Bureau of the Census, as of 2020, there are 17,000 individuals (12.9%) over 65 years of age living in the Chelsea/Clinton Neighborhoods. The number of people over age 65 began to increase substantially beginning in 2011 as the oldest members of the baby-boom generation reach the 65-year mark. The number of people age 65 or older will nearly double between 2000 and 2030. To better understand the growing needs of our seniors, in 2013, the MCD4 partnered with The Actors Fund (a human service organization for the performing arts with many constituents living in MCD4), the Visiting Nurse Service of New York and the Rodney Kirk Center of Manhattan Plaza (a 1700 unit Section 8 building with over 1100 seniors) to conduct a survey of seniors residing in MCD4. The survey identified several main priorities: Education/Outreach to seniors about the increase of SCRIE A campaign to identify and promote Age Friendly local business Expansion of affordable mental health services for seniors and medical home visit programs Support services for caregivers of the frail elderly A housing agenda for older New Yorkers. Additionally, the Community Needs Assessment completed in 2020 also concluded that seniors were one of the groups needing additional support specifically related to housing, finances, technology, transportation needs, translation services, and community space. Additional needs for people with disabilities According to the 2010 Census there has been an 8.3 percent growth in our district of people with disabilities. The Committee identified several main priorities: Affordable Housing: Increase the proportion of affordable housing units in the community for people with disabilities. Tenant Education: Making sure residents living with disabilities know federal, state, and local housing laws and property owners' responsibilities to provide ADA access and accommodations. Additional city agencies must make all sidewalks and city owned facilities accessible.

Needs for Homeless

Homelessness has become a major issue in MCD4 over the last several years and is among the most frequently raised issues since the start of the pandemic. Large public facilities located within MCD4,

such as the Port Authority Bus Terminal and Penn Station are a natural gathering places for people without homes. Many of the homeless population need social services specifically around substance use and mental health treatment. The presence of very large homeless shelters, such as BRC, and drug rehabilitation centers has also brought major stress to the community. MCB4 are open to homeless shelters in our district, however, significant consideration should be given to the location and size of any shelter opening in our community.

Needs for Low Income NYs

According to the NYU Furman Center, MCB4 represents the interests of the neighborhoods with one of the highest levels of income inequality in New York City. Our district is also home to three large public housing developments: the Chelsea-Elliot Houses, the Robert Fulton Houses, and Harborview Terrace. MCB4's 2020 Community Needs Assessment found that families living in public housing or rent controlled units need affordable retailers such as grocery stores. As stated in an October 2017 letter, the Board is deeply concerned there are only four vendors in our district who participate in the Supplemental Nutrition Program for Women, Infants, and Children (WIC), all who happen to be small businesses. More resources are needed to help MCB4 residents access WIC providers and help more grocery stores become authorized WIC vendors.

Youth, Education and Child Welfare

Most Important Issue: Youth, Education and Child Welfare

Please identify the most important Youth, Education, and Child Welfare issue your district is facing.

Under your selection please explain why this issue more important than other Youth, Education, and Child Welfare issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Most Important Issue:

Educational attainment

Student achievement citywide has improved since last year. Math scores have increased from 37.9 percent in 2022 to 49.9 percent in 2023 while ELA proficiency has risen from 49 percent to 51.7 percent. In Schools District 2 (which includes CB4) enrollment is up 7% with many schools meeting or exceeding their enrollment targets. The student in temporary housing population has increased from 500 to an estimated 1,700 to 1,900 with a large number of these students residing in CB4 shelters. Our schools and families responded quickly to the waves of families seeking asylum to meet their basic needs and now a shift is being made to provide these students with a strong educational foundation. There is a continued need for teachers and teaching assistants who have language skills in Spanish, Ukrainian, and Arabic to serve our growing diverse population of English language learners as well as a need for free after school programming in all elementary schools. In addition, many of our schools buildings are suffering from crumbling infrastructure. Roofs are leaking water into classrooms; bathrooms need updating; more safe water fountains are needed; many buildings are still not completely ADA accessible; and many need technology upgrading. Students need laptops and tablets to do their homework and to have language access and support when not in school in order to meet their basic educational standards.

Needs for Youth Education

In addition to most students struggling academically and many experiencing the effects of disruption to their social-emotional development, our board has also heard from the community about other major challenges the public school system is working to address the growing number of immigrants and asylum seekers recently coming to New York City. There is an enormous need for more afterschool programming as well as spanish speaking social workers and teachers. Accessing student transportation is an ongoing struggle for many families, especially those in temporary housing. Changes to housing accommodations often cause several days of delay before students are able to be scheduled for regular bus pickups, leading to loss of school days. The current number of existing and planned schools in MCD4 is not meeting the demand for seats of school-age children who are currently living in our community and the expected increase in students from all the newresidential developments. As development continues, more children will enter our district schools, impacting schools already operating at full and at over capacity. Funds need to be allocated to both acquire space for new schools and upgrade existing facilities. A great number of our school buildings are suffering from crumbling infrastructure. Roofs are leaking into classrooms; bathrooms need updating; some buildings are still not completely ADA accessible; and many need tech upgrading.

Needs for Youth and Child Welfare

Students living in temporary shelters have specific needs that require supportive social services from the city. Their schools need to have permanent on-site social workers to help address the challenges they and their families are experiencing. Our students could also benefit from workforce development programs and educational programs that promote socioeconomic mobility. As our district's population continues to become more diverse, continued effort should be made to further diversify the educator workforce in our school's teaching and administrative staff, which research has shown will improve academic outcomes, improve attendance and decrease suspensions. Our students with thinking and learning differences must be provided with additional support and all students should have test preparation available to them. Our priority is to provide each of our students with access to the resources that will enable them to perform at the level they are capable of academically and develop the skills they will need for success in continuing education and the 21st century workplace.

Public Safety and Emergency Services

Most Important Issue:

General crime

While the City experienced a spike in violent crime over the past few years, our district has been fortunate to see most major crime down across MCD4 precincts. However, the impact of increased open drug use, shoplifting, pickpocketing, package theft and traffic infractions including two-wheeled vehicles has increased. Many of these issues fall under 'quality of life' concerns, but in aggregate these infractions threaten the sense of safety for residents and visitors alike. One exception is Midtown South which has one of the highest numbers of narcotics arrests in all of New York City. Many of those that are arrested are recidivists that continue to find our communities a comfortable place to operate. Required resources to help improve these conditions are increased staffing for "beat cops" and improved EBike/moped enforcement. Relatedly, support for Midtown Court so they could operate at full strength has been an effective tool against recidivism.

Needs for Public Safety

With the development of the Hudson Yards, a 50% growth in population in the last 20 years, the addition of tens of thousands of residents, high traffic tourist destinations (the Vessel, Bella Abzug Park, Whitney Museum, High line) and commuter flows (#7 subway, Lincoln tunnel and Bus terminal), increased deliveries (Whole Foods/Amazon, USPS, FedEx and UPS distribution centers in our districts) and schools (Avenues, Success Academy, PS 33) our current precincts are stretched to the limit. The four distinct precincts that service our district creates barriers to resolving public safety issues across our communities and MCB4 has long advocated for reorganizing the precinct footprints to better serve the district. The significant increase of residential and commercial populations along with the increase in crime in the district require a better distribution of resources and a more nimble structure. The consideration of a substation 10th Precinct NYPD facility, particularly in the Hudson Yards area, will provide better coordination and service across the entire district.

Needs for Emergency Services

As the Westside of Manhattan has become more residential with larger and larger residential buildings being built, additional FDNY/EMS and NYPD facilities and services are needed in this growing area. These new facilities will need to be more streamlined, energy efficient and overall more accessible.

Core Infrastructure, City Services and Resiliency

Most Important Issue: Core Infrastructure, City Services and Resiliency

Please identify the most important Core Infrastructure and City Services issue your district is facing.

Under your selection please explain why this issue more important than other Core Infrastructure and City Services issues in your district. Please limit your explanation to about 500 words (3,000 characters).

Consider the following general guidelines to ensure your narrative is complete:

- Check to ensure responses refer to the issue selected
- Within each need narrative, explain the need and/or what is lacking in the district and advocate for what is needed to address the issue
- Reference research and figures and be sure to use current or the most recent available data
- Avoid using abbreviations or acronyms and spell out or define references to specific programs, neighborhoods, and projects within each statement
- Specific locations (if applicable) should be clearly defined and stated within each narrative
- Be sure to review and edit your submissions, entries will appear in the report as submitted

Most Important Issue:

Cleanliness/trash collection

Some of the most obvious and visible neighborhood deterioration relates to DSNY and the deleterious conditions of our streets and curbsides. The profound amount of trash overflowing corner bins, stacked up on sidewalks and scattered all across our public spaces is unacceptable. This is resulting in

uninviting, unhealthy and sickening conditions. Poor garbage storage and pickup has led to a serious pest control problem and increased litter making its way into streets, waterways, and parks. Sites for commercial garbage storage must be developed wherever possible off-street to be used until shortly before pick-up. MCD4 prioritizes rectifying these repulsive conditions with more frequent corner basket collection, corner basket recycling and an overall commitment to getting our city clean again. We also highlight the increased sightings of used syringes and drug vials in parks, streets, sidewalks and tree beds. The need to restore a robust syringe collection unit is critical. In addition, MCB4's Sanitation Planning Working Group produced a report with a number of recommendations to streamline the storage and management of residential trash and recycling. MCB4 Sanitation Planning Working Group Recommendations:

Needs for Water, Sewers, and Environmental Protection

The entire coastline of MCD4 and portions of the West Chelsea Historic District is categorized as High-Risk Flood Zones. As climate change brings greater threats to the city and our coastline, more of MCD4 will be at higher risk. Our antiquated sewer and water system with combined sewer overflows needs updating, as climate change inundates the system and forces raw sewage into the streets and basements of buildings. Upgrading the sewer system is a decades-long undertaking. MCD4 is especially concerned about the southern and western areas of MCD4 and the entrances to the Lincoln and Amtrak tunnels. According to the New York City Department of Health and Mental Hygiene, this community suffers the second highest incidents of chronic lung disease of any community in Manhattan south of Harlem. Given the proximity of the Chelsea and Clinton/Hell's Kitchen neighborhoods to the Lincoln Tunnel, the Port Authority Bus Terminal and the Manhattan Cruise Terminal, MCD4 is at particular risk from unhealthy air. Another major cause of air pollution in MCD4 is carbon emissions from buildings still using "dirty boilers" that burn heating oil #4 and #6. Many of the buildings using these dirty boilers are rent-regulated and cannot (or will not) pay for the cost of converting to cleaner alternatives. Noise complaints from MCD4 consistently rank among the highest registered by DEP and are rising, especially at night. Unchecked conditions of outdoor dining have exacerbated the problem of street noise, pollution, rats and pedestrian space. With the increase in restaurants in the district, accompanying sidewalk obstructions (multiple sandwich boards, menus stands, plants, etc.) have appeared on the sidewalk making it nearly impossible for pedestrians to navigate on the sidewalk on Ninth Avenue, north of 34th Street and on 8th Avenue. Increased enforcement is required to ensure a safe pedestrian experience.

Needs for Sanitation Services

The board is very concerned with the frequency of pick-up of garbage in the public wastebaskets that are often overflowing and attracting rodents. This situation has worsened and seen no improvement from previous years and needs immediate attention. With the increase in restaurants in the district, accompanying sidewalk obstructions (multiple sandwich boards, menus stands, plants, etc.) have appeared on the sidewalk making it nearly impossible for pedestrians to navigate on the sidewalk on Ninth Avenue, north of 34th Street and on 8th Avenue. Increased enforcement is required to ensure a safe pedestrian experience.

Housing, Economic Development and Land Use**Most Important Issue: Housing, Economic Development and Land Use**

Most Important Issue:

Affordable housing creation

Increased pressures from re-zoning and development have diminished existing affordable housing stock. In addition, through illegal demolition, illegal hotel conversion, and harassment, affordable housing stock has shrunk. The commitments to create new affordable housing continue to be unmet. As a result, more permanently affordable units for individuals and families of different income bands are necessary for our community. The MCD4 Affordable Housing Plan offers a roadmap for fulfilling and developing more affordable housing units to all income bands, as do plans for mixed use and commercial conversion. In particular, MCB4 calls on the Department of City Planning and the Department of Housing Preservation and Development to work with MCB4 to stop the demolition of residential units in the special districts within our boundaries and support the rezoning of 11th Avenue from West 34th street to West 41st Street to allow for more residential units to be built.

<https://cbmanhattan.cityofnewyork.us/cb4/wp-content/uploads/sites/10/2020/01/Affordable-Housing-Plan-Summary-of-Sites-12.15.22.pdf>

Needs for Land Use

Years after both Hudson Yards and West Chelsea in 2005 and the Western Rail Yards in 2009, construction is in full swing, but many City commitments remain unfilled. Several items agreed to by the developers, the Administration, and the City Council await completion, including many affordable housing units. They need the commitment of financial resources from both the expense and capital budgets to support staff and implementation from the Department of City Planning, Economic Development Corporation, Housing Preservation and Development, and other relevant agencies.

Needs for Housing

MCD4's Affordable Housing Plan states that affordable housing within the district is critical to the diverse population of artists, students, minimum wage, earners, and seniors. This mixed population includes many of the frailest and isolated members of our community and the backbone of the service and cultural economy essential to NYC. The City must free up subsidies to replenish the inventory of affordable housing units in Chelsea & Hell's Kitchen. MCD4 has developed a detailed plan to generate and preserve almost 10,000 units in our district. Unfortunately, MCD4 stands to lose a significant amount of affordable housing due to expiring use in the immediate future. In addition, our district has been plagued by the illegal demolition of buildings that were "protected" by zoning enacted mainly due to the efforts of this Community Board. We have been fighting against these illegal demolitions, but the City needs to step up and do its part. It is unacceptable that 150 affordable housing units have already been lost because of dishonest landlords and inactive agencies. MCD4 faces additional problems from being home to the City's second greatest amount of illegal bed and breakfast conversions. Such usage is prevalent in rent-regulated housing and buildings that benefit from tax abatement programs such as 421- and J-51. The largest concentration of SRO housing in our community lies between 8th and 9th Avenues from W. 42nd to W. 57th Streets. In that area, 62 buildings contain nearly 2,200 SRO units. West 51st Street alone includes 12 buildings with a total of 574 units. West 46th Street has 21 buildings with 289 units.

<https://cbmanhattan.cityofnewyork.us/cb4/wp-content/uploads/sites/10/2020/01/MCB4-Affordable-Housing-Plan-Summary-of-Sites-10.26.22.pdf> NYCHA and Chelsea NYCHA Working Group From the Fall of 2019 through the Spring of 2021 MCB4 participated in the Chelsea NYCHA Working Group. The Group included tenant representatives from the two NYCHA developments in the Chelsea area (Elliot Chelsea and Fulton Developments). The Group included a Deputy Mayor, the Chair of NYCHA, NYCHA administration, local Elected Officials, local stakeholders and both NYCHA tenant associations. The Group's goal was to devise and agree on a future development & financing plan to ensure the two developments had the capital resources needed to restore the building and preserve the long term affordability for the tenants while providing opportunities for additional development. The Group produced a report which laid out a detailed plan and delivered it to the NYCHA and the City (see enclosed). NYCHA issued an RFP for renovation, refinancing and new development with the NYCHA residents part of the selection process to choose the developer. MCB4 feels confident that this plan and process will result in resolving long standing capital and expense needs for both NYCHA and the tenants of Eliot Chelsea and Fulton Houses. For these reasons, MCB4 did not include a budget request for Chelsea Elliot and Fulton Houses.

Needs for Economic Development

More than a decade after the rezoning of the Hudson Yards (2005) and West Chelsea (2007), and nearly a decade after the rezoning of the Western Rail Yards (2009), buildings have been built; residents have moved in. Businesses have opened, but the much-promised resources for housing and infrastructure have not been delivered: many of the City's commitments remain unfulfilled. New York City is struggling compared to other big US cities to recover from the economic impact of the pandemic. footnote: <https://www.bloomberg.com/news/articles/2021-11-23/nyc-s-recovery-trails-other-u-s-cities-as-tourism-loss-weighs> Remote work and the increase of crime, particularly in our transit system are impacting businesses of every size throughout our District. Measures need to be taken to support local businesses, reduce empty storefronts and increase workforce development programs to retrain workers for the jobs that are available.

Transportation and Mobility

Most Important Issue:

Pedestrian safety

Pedestrian safety (safer crossings, sidewalk management, etc.) Vehicular traffic has significantly increased on our avenues. Traffic of electric bikes and mopeds has exploded. Speed cameras should be installed on all avenues and rumble strips on bike lanes to make sure vehicles and motorcycles respect the 25 MPH speed limit. Split phase signals must be installed at every left turn movement. Green phase of signals should be adjusted so that gridlock is reduced and a green wave for cyclists and pedestrians to reduce the running of red lights by cyclists. Trucks and buses are a looming presence on residential streets. Due to sidewalk obstructions, including delivery bikes that do not have any parking, pedestrians are forced to compete with each other for every inch of walkable sidewalk and are often forced to walk in traffic, bike corrals should be installed in parking lanes and sidewalks widened. Bus service continues to deteriorate, and more dedicated bus lines are needed on 9th and 10th Avenue. There is less and less space for charter bus parking and it is urgent to build the garage that was promised during the Hudson Yards rezoning. The current on-street facilities for buses and commuter vans are inadequate, and

environmental pollution is a constant quality of life complaint and threat to public health.

Needs for Traffic and Transportation Infrastructure

Pedestrian safety continues to be a dominant concern that is still not properly addressed. Speed cameras, split phase signals and proper crossing times must be installed as well as cameras to deter gridlock. Due to insufficient capacity and sidewalk obstructions, pedestrians are forced to compete for every inch of walkable sidewalk and are often forced to walk in traffic. Compounding the issue, pedestrian ramps are poorly maintained. Trucks and buses are a looming presence on residential streets. The current on-street facilities for buses and commuter vans are inadequate, and environmental pollution is a constant quality of life complaint and threat to public health. There is less and less space for charter bus parking and it is urgent to build the garage that was promised during the Hudson Yards rezoning. It is impossible to discuss transportation infrastructure without stressing the need to use and install necessary green methods. All projects to better our streets and thoroughfares must use “green friendly” materials such as bioswales and permeable, porous substances. In addition, we request the city’s swift action in providing public access to level 3 electric vehicle charging stations in order to enable the conversion of vehicles fleets to electric (private, public and commercial vehicles). Incentives should be used to accelerate the creation of this essential electric infrastructure.

Needs for Transit Services

Bus service continues to deteriorate, and more dedicated bus lanes are needed on 9th Avenue and 42nd Street. With numerous high-rise office constructions already completed on the far west side, building the West 41st Street subway station is becoming imperative to reduce the proliferation of jitneys and congestion. Scores of workers coming to and from Brooklyn need additional modes of transportation, such as ferry service must be enhanced to include a route from Brooklyn to the west side. And more ADA enabled taxis and for hire vehicles are needed to improve transit for ADA and seniors.

Parks, Cultural and other Community Facilities**Most Important Issue: Parks, Cultural and other Community Facilities**

Most Important Issue:

Other

Insufficient park or open space: The huge influx in the number of residents, including the large number of migrants to our MCD4 district, means our spaces are overburdened. Thus, support for our parks cannot be an afterthought but must be prioritized. We would like to emphasize our expectation of this administration's promise to allot 1% of the City's overall budget to Parks. Run down conditions must be brought back up to acceptable standards and a commitment to funding Parks staff a necessity, including Park Enforcement Patrol to curb illicit park activity. As an important highlight, public bathrooms should be installed throughout our district and a mainstay in parks. As we move forward with construction, renovations and installations, we expect a greener, more climate friendly infrastructure to be automatic.

Libraries: The New York Public Library provides critical public services to our community. For newly arrived immigrants, the NYPL is a great resource providing adults with ESL classes, courses in technology and employment seeking skills. Increased funding is essential to the NYPL in order for it to meet the needs of new immigrants and asylum seekers. The Columbus and Muhlenberg branches are undergoing substantial repairs that require them to close. In addition, delayed maintenance has greatly increased the cost of these repairs. We urge the NYPL to address needed repairs as they surface and communicate more proactively as well as to provide more details about why certain projects and branches are selected as priorities.

Arts & Culture: Post-pandemic, independent and small theaters continue to close or lose their spaces as did the New Federal Theater this past year. We urge the Department of Cultural Affairs and the Mayor's Office of Media & Entertainment to help locate affordable rehearsal and production spaces in our district in order to help boost audience attendance. In addition, we encourage the Mayor's Office of Ethnic & Community Media to increase the city's advertising spending that is specifically directed to the local community media.

Needs for Parks

Restroom facilities in three major parks have not been upgraded in years, while other recreational facilities have been. Some parks received a renovation while bathrooms went untouched. This has resulted in bringing more people into our parks but not providing adequate comfort stations. Restrooms must be upgraded at all parks within MCD4. Such upgrades will also allow DPR to provide a full-time, on-site park keeper to address constituents' concerns, provide security and perform routine maintenance. Funding should also be dedicated to support Green Thumb Community Gardens, composting, and pruning for street trees. Funding should also be directed towards full-time gardeners, maintenance workers, PEP officers, as well as seasonal aides and playground associates for the summer.

Needs for Cultural Services

The presence of performing arts groups develop and give voice to new talent in areas of writing, performing, dancing, choreography, and directing. This vitalizes our New York City and our community, both culturally and commercially, on a block-to-block level. In addition, support services for theater and other artistic services within MCD4 in the areas of rental storage space for art, costumes, scenery, lighting, and rehearsal studios have long been located throughout Chelsea and Clinton/Hell's Kitchen. These services are also losing viable space due to development and real estate costs. The money generated from these industries provides employment and maintains the artistic life of the city. The Board is concerned with the loss of artists' studios in the District and the displacement of working artists.

Needs for Library Services

Supporting and expanding the role of libraries as continuous learning and job centers.

Needs for Community Boards

Since the 1990s, budgets (outside of personnel services) have not been re-evaluated for inflation. Community Boards are repeatedly asked to do more with less and that cannot continue to happen. In the age of Zoom meetings and the need for hybrid meetings, Community board funding must be increased.

Other Needs

Other**Cannabis Enforcement:**

Although we acknowledge that licensing of sales of Cannabis is within the State's purview and that the associated enforcement powers generally fall to the Office of Cannabis Management, the City can do more to identify illicit stores and seize illegal products.

The Future of Small Theaters:

To ensure that small theaters continue to play an integral role in New York City's cultural landscape and economy, we believe it is imperative to complete an updated study with the objective of understanding how to stimulate economic growth and sustainability during a time when audiences are shrinking.

Installing a socket for cruise ships to "plug-in" to draw power from the existing power grid will dramatically reduce diesel particulate matter and improve the water quality in the Hudson River. Explanation: **NYCHA elevators are frequently broken and taken out of service, causing great hardships to the residents. In 2018 there were about 44,000 elevator outages which is an unacceptable performance level. NYCHA has unfilled skilled elevator mechanic and mechanic's assistant positions which should be filled with trained individuals. More skilled mechanic positions should be created to allow servicing to meet the needs of these buildings and their residents.**

Explanation: **Continue to expand funding for the enforcement of the regulations on illegal hotel use. Illegal hotel use continues to exist and expand in the CD4 district. The NYS Attorney General report Airbnb in the City, found that CB4 is one most trafficked neighborhoods for illegal hotel use, and of the three community districts that collectively account for 41% of Airbnbs revenue in NYC. Illegal hotel use depletes our affordable housing stock, incentives tenant harassment and creates quality of life issues for existing tenants. Increase OSE resources including lawyers, investigators and inspectors dedicated to bringing litigation against illegal hotel use, particularly in the most problematic districts.**
