

REGISTER OF COMMUNITY BOARD BUDGET REQUESTS

For the Preliminary Budget Fiscal Year 2026

Manhattan 4

The City of New York
Eric Adams, Mayor

FY 2026 Preliminary Budget Register of Community Board Budget Priorities

The Register of Community Board Budget Requests for the Preliminary Budget reports the FY Preliminary budget status of each of the projects and programs requested by the City's 59 community boards.

The FY 2026 Register is the charter mandated product of a dynamic and cyclical budget process for the 59 community boards. The community boards consult with agencies on the capital and expense needs of the district. After consulting, each community board develops and votes separate priorities for up to 40 capital and 25 expense budget requests which the agencies review and respond to in the **Register of Community Board Requests for the Preliminary Budget** in January.

The Mayor's Office of Management and Budget (OMB) reviews these same budget requests and updates the responses for the Executive Budget, publishing them in the **Register of Community Board Requests for the Executive Budget** in April.

In May, the City Council holds public hearings on the Executive Budget. At these hearings, community boards, community groups and interested citizens may comment on the budget decisions contained in the Register.

In June, OMB publishes the **Register of Community Board Budget Requests for the Adopted Budget** which informs the boards of the final disposition of their original budget priorities. The Adopted Register contains responses that reflect the changes made to the Executive Budget by the City Council.

Capital project requests from community boards are site specific, and primarily for infrastructure or public facility improvements.

For more specific information about programs important to the community boards, refer to each agency's section in the Message of the Mayor for the Adopted Capital and Expense Budgets.

Call 212-788-6129 for more information about the community board process including consultations, and the geographic versions of budget documents.

FORMAT OF THE REGISTER

The Register of Community Board Budget Requests is sorted into four versions: Community Board, Borough, Council and Agency. In all versions of the Register, each board's expense requests directly follow their capital requests. The requests are in board order.

LAYOUT OF BUDGET REQUESTS PAGES

Column 1: Priority Number

The priority assigned by a community board reflects the importance of that request as compared to its other requests. Boards may assign Continued Support (CS) to a project which received funding for construction in any year of the current Financial Plan.

Column 2: Tracking Code

The nine-digit identification number assigned to each community board budget request. Tracking codes are unique to each request and identify the borough, community district, year submitted, and request. The first digit refers to the borough, 1 = the Bronx, 2 = Brooklyn, 3 = Manhattan, 4 = Queens, and 5 = Staten Island; the second and third digits indicate the district number. The fourth through seventh digits represent the fiscal year for which the request was submitted, and the last two digits are the request number. The tenth character indicates whether it is a capital ("C") or expense ("E") budget request.

Column 3: Project Information

Request: A brief description of the project.

Explanation: Supporting information detailing the project, and its potential benefits.

Responsible Agency: The City agency which would implement the project.

Budget Line Number: The number assigned to a capital project that was previously funded or is included in any year of the current Financial Plan.

PROJECT ID: The Capital Project Information System identification number which allows projects to be entered into the City's computer tracking system. The number of the managing agency and the project identification number make up the PROJECT ID of the project.

Source of Request: Any group(s) which support the request.

Column 4: Response

The Preliminary Budget recommendation for each budget request.

04	304202604C	<p>Request: Other capital budget request for EDC</p> <p>Explanation: The Manhattan Cruise Ship terminal is an overwhelming source of pollution. When ships are docked, their engines run to generate power and keep the lights on, emitting thousands of tons of diesel particulates into the air. A docked ship's emission for one day equal 34,000 idling tractor trailers. Installing a socket for cruise ships to "plug-in" to draw power from the existing power grid will dramatically reduce diesel particulate matter and improve the water quality in the Hudson River. Cruise ship fleets are already turning over and the EDC should serve that demand to upgrade the terminal and reduce the carbon footprint of the cruise ship industry.</p> <p>Responsible Agency: Economic Development Corporation</p> <p>Supported by: Council Member Erik Bottcher Economic Development Corp.</p> <p>Location Site Name: Cruise Ship Terminals</p>	<p>Agency supports but cannot accommodate; resubmit request</p> <p>Explanation: EDC is committed to build out a shore power system at Manhattan Cruise Terminal. There is an active master planning project in process that will develop a framework for future improvements and investments that will inform next steps for the build out of shore power.</p>

46	304202646E	<p>Request: Conduct traffic or parking studies</p> <p>Explanation: We request that DOT conduct a comprehensive study to prioritize intersections in most need of "daylighting" based on available crash data. The study should also establish a timeline for fixing these intersections.</p> <p>Responsible Agency: Department of Transportation</p>	<p>Agency supports and can accommodate; remove request</p> <p>Explanation: The agency supports the request and can accommodate it. The agency responded to CB 4 in a letter dated October 23, 2024 on the agency daylighting initiatives. The agency will continue to evaluate potential targeted improvements to increase visibility and improve safety for all users. The agency's toolbox is extensive and includes a multitude of tailored treatments in addition to daylighting, such as curb extensions and other markings changes, signal timing modifications, signs, and the addition of bike corrals or other street furniture, among others.</p>
47	304202647E	<p>Request: Other street trees and forestry services requests</p> <p>Explanation: The Parks Department prunes park and street trees on a seven year rotation. It is meant to improve tree health and ensure pedestrian safety from low or dangerous tree limbs. However, seven years is too long between pruning to ensure trees do not become hazards and are kept as healthy as possible given the difficult growth environment many street trees face. We also expect continuing funding for additional forestry staff in in FY 24 will be maintained for another year.</p> <p>Responsible Agency: Department of Parks and Recreation</p>	<p>Agency supports and can accommodate; remove request</p> <p>Explanation: Funding for our block pruning program was restored following the pandemic, and our 7-year street tree pruning cycle matches industry standards. If individual trees need pruning for public safety, we encourage anyone to submit a service request by locating the tree on the NYC Tree Map (and clicking on the "report a problem" tab), calling 311, or using our online tree service request system. Our inspectors will check the tree and determine the appropriate action to be taken in accordance with our Tree Risk Management program.</p>
