Sidewalk Cafe Setup Feedback:

Community Board chooses to **WAIVE** review

Comments related to the cafe's **physical footprint and dimensions**:

Because this sidewalk is 19 feet wide, the required clear path must be 50% of the width of the sidewalk -- or 9.5 feet. The proposed Site Plan does not provide for the required 9.5 foot clear path at all points: There is only 8 feet between the bike rack obstruction and the perimeter of the sidewalk cafe.

Comments related to **pedestrian flow** (i.e., visibility, safety, potential crowding):

Comments related to potential conflicts with **existing curb use** (i.e., planters, bike racks, bus stops):

Please check one of the recommendations below, either **approval**, **denial**, or **approval with modifications** relating to the above application:

Community Board recommends **approval**

Community Board recommends **denial**

Community Board recommends **approval w/ modifications**

Recommended modifications (**only if approved w/ modifications**):

Although MCB4 recommends Approval, MCB4 urges that the site plan be modified to provide for the required 9.5 clear path between the bike rack obstruction and the perimeter of the sidewalk cafe.

Applicant acknowledges and agrees to modifications relating to the above referenced application

Applicant acknowledges **BUT** does **NOT** agree with modifications relating to the above referenced application. If this box is checked, please provide NYC DOT with documentation of such agreement for NYC DOT's consideration.
